

CHECKS AND SERVICE

1. Engine oil level

Check the engine oil daily before starting the engine (stop engine). Wipe the oil dipstick with a clean rag (do not use cotton waste). The oil level should be between the two marks on the dipstick, never below the lower mark.

The fuel injection pump and the turbocharger are lubricated automatically from the engine lubricating system.

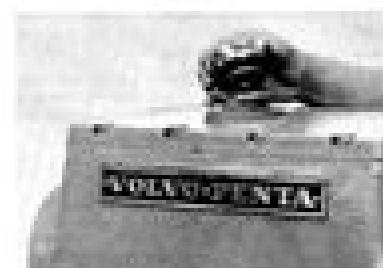

The fresh-water pump and seawater pump are lubricated during manufacture and no further lubrication is necessary.

Engine oil

Quality: CE (API), SAE 10W, 15W, 20W

For viscosity at various ambient air temperatures, see "Technical Data".

Engine	Oil capacity, approx. three day cycle/120 gal./l with engine instruction	Oil
TAD1100C TAD1110C TAD1120C	50 (17.5/13.5)	50 (SAE 10W)
TAD1130C	50 (17.5/13.5)	50 (SAE 10W)

Filling cap, coolant

2. Engine coolant level

Check coolant level daily before starting.

Never remove the cap carefully when the engine is hot. With a cold engine the level should be approx. 5 mm (3/16") below the sealing surface of the filler cap to enable the coolant to expand when the engine gets hot.

See pages 4-5 regarding composition of coolant.

When topping up, remember to open the venting valve as shown in picture form. (See "Filling with coolant" on page 5. Close the vent valve after filling.

When there is a risk of freezing the system must be drained or anti freeze should be added, see "Precautions in case of freezing" on page 5.

Venting valve,
TAD1100C

Venting valve,
TAD1100C

Venting valve,
TAD1120C

Seawater filter

1. Cover
2. Housing with strainer

The seawater filter (optional equipment) should be checked and cleaned when necessary. For cleaning see page 16. The frequency depends on the experience obtained after a period of running, depending on the amount of dirt in the water.

MAINTENANCE

3. Reverse gear oil level

Check the oil level with the dipstick daily. Top up with oil when needed to the upper mark on the dipstick.

This check is carried out with the engine running at idling speed and with the lever in the "Neutral" position.

Oil grade: The same as for the engine. When lubricating oil of quality CE according to the API system is provided in the reverse gear.

Viscosity: The same as for the engine. However, for the TAD1100C reverse gear only single grade oil (one viscosity number) is required.

Oil capacity: see "Technical Data".

4. Disengageable clutch

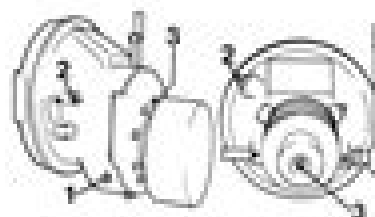

Reduction gear, disengageable clutch - optional extra item

Check the oil level every 500 hours.

The reduction gear at the front of the engine is fitted with a level plug (1). Unscrew the plug and check that the oil is level with the base. Concerning oil grade and viscosity, see "Technical Data".

Lubricating, disengageable clutch

Every 500 hours: Lubricate the throw-out bearing (picture 2). Use universal grease. Never lubricate springs. Excessive grease might find its way onto the clutch fingers and cause slipping. Grease the inner bearing (picture 3). This grease nipple has been deleted from some clutches with reduction gear. Use food resistant grease of a multipurpose type.

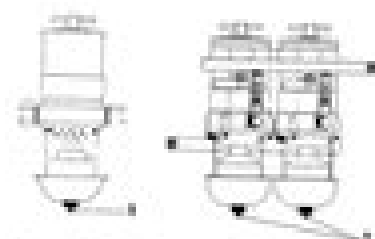

1. Level plug 2, 3. Grease nipples

Disengageable clutch

6. Fuel pre-filter

(optional equipment)

Check the fuel filter and drain off any water every 500 hours by means of the draining plug (1). The check should not be carried out until the engine has been shut down for several hours and with the engine stopped. Fit the plug.

Single fuel pre-filter

Double fuel pre-filter
1. Draining plug

5. Checking the batteries

Check the level in the batteries at least after every 500 hours of operation. The level should be approx. 10 mm (3/8") above the cell plates. Top up with distilled water if necessary. Also make sure that the battery terminals are firmly tightened and greased.

Check the condition of the battery charge with a battery tester if the voltage is low.

The density of the electrolyte should be 1.26. If it has decreased to 1.22 the batteries should be re-charged. If re-charging fails to be carried out, the battery cables (both + and -) must first be disconnected.

Warning!

The batteries contain oxyhydrogen which is an highly explosive gas. One spark might be enough for the battery to explode and cause personal injury and material damage.

web this third edition of the classic best selling polymer science textbook surveys theory and practice of all major phases of polymer science engineering and technology including polymerization solution theory fractionation and molecular weight measurement solid state properties structure property relationships and the preparation

textbook of polymer science billmeyer fred w archive org - Jun 18 2023

web characterization polymer solutions measurement of molecular weight and size analysis and testing of polymers structure and properties morphology and order in crystalline polymers rheology and the mechanical properties of polymers polymer structure and physical properties properties of commercial polymers

textbook of polymer science 3ed paperback 1 january 2007 - Jul 07 2022

web this third edition of the classic best selling polymer science textbook surveys theory and practice of all major phases of polymer science engineering and technology including polymerization solution theory fractionation and molecular weight measurement solid state properties structure property relationships and the preparation fabricati

textbook of polymer science billmeyer fred w archive org - Jan 01 2022

web language english xiv 598 pages 23 cm includes bibliographical references polymer chains and their characterization the science of large molecules polymer solutions measurement of molecular weight and size analysis and testing of polymers structure and properties of bulk polymers morphology and order in crystalline

wiley textbook of polymer science 3rd edition 978 0 471 03196 3 - Oct 10 2022

web textbook of polymer science 3rd edition fred w billmeyer hardcover 978 0 471 03196 3 march 1984 out of stock 94 95 description this third edition of the classic best selling polymer science textbook surveys theory and practice of all major phases of polymer science engineering and technology including polymerization solution theory

textbook of polymer science billmeyer google books - Mar 03 2022

web textbook of polymer science billmeyer wiley india pvt limited 2007 polymers 600 pages market desc students in polymer science engineering and technology about the book

textbook of polymer science 3rd ed fred w billmeyer jr - Sep 09 2022

web textbook of polymer science 3rd ed fred w billmeyer jr wiley interscience new york 1984 578 pp no price given tesoro
1984 journal of polymer science polymer letters edition wiley online library skip to article content skip to article information
