Elphick,Hermann Giliomee,2014-01-15 History is a powerful aid to the understanding of the present and those who are  
concerned with the escalating crisis in South Africa will find this an invaluable source book This is the story of the evolution  
of a society in which race became the dominant characteristic the primary determinant of status wealth and power Cultural  
chauvinism of the first European colonists primarily the Dutch merged with economic and demographic developments to  
create a society in which whites relegated all blacks free blacks Africans imported slaves to a systematic pattern of  
subordination and oppression that foreshadowed the apartheid of the twentieth century From the beginning of the nineteenth  
century the new empire builders the British reinforced the racial order In the next century and a half the industrialized South  
Africa would become firmly integrated into the world economy Published originally in South Africa in 1979 and updated and  
expanded now a decade later this book by twelve South African British Canadian Dutch and American scholars is the most  
comprehensive history of the early years of that troubled nation The authors put South Africa in the comparative context of  
other colonial systems Their social political and economic history is rich with empirical data and rests on a solid base of  
archival research The story they tell is a complex drama of a racial structure that has resisted hostile impulses from without  
and rebellion from within      **Bibliographie internationale d'histoire militaire** ,2000      **Maandelyke uittreksels, of
