Wesley And The Quadrilateral Renewing The Conversation:

Wesley and the Quadrilateral W. Stephen Gunter, 1997 A collection of five essays discussing the origin meaning and relevance of the United Methodist Church's Wesleyan Quadrilateral which is scripture tradition reason and experience The authors agree that American Methodism theology should give scripture primary importance over the other areas without negating them in order to move past the current debate and into the twenty first century *The Method of Our Mission* Prof. Lacey C. Warner, 2014-07-15 Theology shapes who we are and how we organize to transform the world Especially written for required United Methodist classes this accessible book uses a Wesleyan theological frame connection to help readers understand United Methodism's polity and organization as the interrelationship of our beliefs mission and practice The book is organized into four parts United Methodist beliefs mission practice and organization Polity and organization are primary embodiments of The United Methodist Church Functional in nature these aspects of the denomination facilitate our mission to make disciples for the transformation of the world This book connects denominational governance and organization to our beliefs as well as our mission A clear understanding of our identity as Methodists with Wesleyan roots in connection and our purpose to make disciples for the transformation of the world can help students of United Methodism navigate this treacherous landscape as present and future leaders Warner also addresses the estrangement between theology and institutional structures and practice by framing governance practices and organizational structure within a Wesleyan theology of connection This approach will assist current and future denominational leaders in understanding their practices of administration and participation in polity as a theological endeavor and key component of their ministries This textbook has been updated with changes from the 2016 General Conference *From Faith to Faith* Stanley J Rodes, 2014-09-25 The idea that covenant theology is profoundly influential in John Wesley's theological thought seems dissonant What would an evangelical Arminian have to do with a theological framework that historically belongs to a reformed understanding of salvation How could this possibly square with his ongoing conflicts with the Calvinism of his day On the basis of compelling evidence from his sermons and correspondence this investigation dares to explore the idea that covenant theology is part of the infrastructure of Wesley's thought The discovery of its role in shaping his narrative of the way of salvation is surprising and intriguing Wesley is not only informed of and fluent in covenant theology but also thoroughly committed to it *From Faith to Faith* demonstrates that with theological precision and discernment Wesley appropriates covenant theology in a way consistent with both its primary theological features and his Arminianism His distinctive view of the gradual process of the work of God in the soul supplies valuable grist for further reflection especially by those charged with the care of souls in the twenty first century **A Man Of One Book?** Donald A. Bullen, 2007-12-01 John Wesley claimed to be a man of one book and early Wesley scholarship accepted uncritically that the Bible was his supreme authority In the late twentieth century American Wesley scholars discussed what has been termed the Wesley

Quadrilateral the authority of the Bible tradition reason and experience and this to some extent helps explain the method by which Wesley read and interpreted the Bible However modern biblical reader response criticism has drawn attention to the central role of the reader in his her interpretation of scriptural texts Donald Bullen argues that Wesley came to the Bible as a reader with the presuppositions of an eighteenth century High Church Arminian Anglican in which tradition he had grown up He then found his beliefs confirmed in the scriptural text Claiming to base all his beliefs on the Bible he found himself in controversy with others who made similar claims but came to different conclusions The implications of this are explored in depth

A Living Tradition Dr. Mary Elizabeth Mullino Moore, 2013-09-17 This book engages in a critical recovery and reconstruction of the Wesleyan theological legacy in relation to current theological concepts and Christian practices with the intent to present opportunities for future directions The contributors address urgent questions from the contexts in which people now live particularly questions regarding social holiness and Christian practices To that end the authors focus on historical figures John Wesley Susanna Wesley Harry Hoosier and Richard Allen historical developments such as the ways in which African Americans appropriated Methodism and theological themes such as holistic healing work and vocation and prophetic grace The purpose is not to provide a comprehensive historical and theological coverage of the tradition but to exemplify approaches to historical recovery and reconstruction that follow appropriately the mentorship of John Wesley and the living tradition that has emerged from his witness Contributors W Stephen Gunter Richard P Heitzenrater Diane Leclerc William B McClain Randy L Maddox Rebekah L Miles Mary Elizabeth Mullino Moore Amy G Oden and Elaine A Robinson

Just Us Or Justice? F. Douglas Powe, 2009 Brings African American and Wesleyan theologies into conversation

Integrated Mission Sarah Nicholl, 2024-05-31 There can be no doubt the positive influence the Lausanne Movement has had on current approaches to evangelical global missions since its inception in 1974 But as with all things made and organized by humankind it should not

be above critique Dr Sarah Nicholl asserts spirituality now often seen as an individual rather than communal endeavour has been disconnected from the missional practices in the movement In bringing together missiology mission practice and spirituality she joins a chorus of scholars calling for more integration between areas of theory and practice This book defines this synergy as integrated mission and to illustrate what this mission can look like draws upon the writings and lives of four mission oriented Christians John Wesley St Ignatius of Loyola Orlando Costas and Fr Segundo Galilea This book reasons all believers practising this way of mission will be animated rooted and participatory with the triune God in the missio Dei to the world

Seized by Truth Prof. Joel B. Green, 2010-09-01 We read the Bible and interpret Scripture in order to live in grace filled relation to God's divine purpose When we approach the Bible as Scripture author Joel Green takes seriously the faith statement that the

Bible is our Book these scriptures are our Scripture We are not reading someone else's mail as though reading the Bible had to do foremost with recovering an ancient meaning intended for someone else and then translating its principles for use in our own lives When we recall that we are the people of God to whom the Bible is addressed as Scripture we realize that the fundamental transformation is not the transformation of an ancient message into a contemporary meaning but rather the transformation of our lives by means of God's Word This means that reading the Bible as Scripture has less to do with what tools we bring to the task however important these may be and more to do with our own dispositions as we come to our engagement with Scripture We come not so much to retrieve facts or to gain information but to be formed and ultimately transformed Scripture does not present us with texts to be mastered but with a Word God's Word intent on mastering us on shaping our lives

The Dialogical Spirit Amos Yong, 2014-10-22 Contemporary proposals for Christian theology from postliberalism to Radical Orthodoxy and beyond have espoused their own methodological paradigms Those who have ventured into this domain of theological method however have usually had to stake their claims vis à vis trends in what may be called the contemporary post-al age whether of the postmodern post Christendom post Enlightenment post Western or postcolonial varieties This volume is unique among offerings in this arena in suggesting a way forward that engages on each of these fronts and does so from a particularistic Christian perspective without giving up on Christian theology's traditional claims to universality This is accomplished through the articulation of a distinctive dialogical methodology informed by both pentecostalism and evangelicalism one rooted in the Christian salvation history narrative of incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses Amos Yong here engages with twelve different interlocutors representing different ecumenical religious and disciplinary perspectives The Dialogical Spirit thus not only proffers a model for Christian theological method suitable for the twenty-first century global context but also exemplifies this methodological approach through its interactions across the contemporary scholarly academic and theological landscape
