Thompson, 2013-08-28 This is an annually updated presentation of each sovereign country in Nordic Central and Southeastern Europe past and present **Charles de Gaulle, the International System, and the Existential Difference** Graham O'Dwyer, 2017-03-27 This innovative account of Charles de Gaulle as a thinker and writer on nationalism and international relations offers a view of him far beyond that of a traditional nationalist Centring on the way de Gaulle regarded nations as individuals the author frames his argument by rationalising de Gaulle s nationalism within the existential movement that flowed as an intellectual undercurrent throughout early and mid twentieth century France Graham O Dwyer asserts that this existentialism of the nation and the presence of the past allowed de Gaulle to separate the nation from the state when looking at China Russia Vietnam and East European countries enabling him to understand the idiosyncrasies of specific national characters better than most of his contemporaries This was especially the case for Russia and China and meant that he read the Cold War world in a way that Washington and London could not allowing him a unique insight into how they would act as individuals and in relation to other nations **Western Europe 2012** Wayne C. Thompson, 2012-08-09 The World Today Series Western Europe is an annually updated presentation of each sovereign country in Western Europe past and present It is broken down into individual chapters on each country dealing with its geography people history political system constitution parliament decentralization and states if a federation parties political leaders and elections There are also sections on foreign and defense policy economy culture future and a lengthy bibliography **East and Southeast Asia 2013** Steven A. Terrorism and Transnational Security Threats in West Africa: Adebayo E. Adeyemi PhD, 2015-09-18 While it could be arguably stated that West Africa has achieved remarkable and sustainable progress in the areas of democratic governance and economic growth the subregion over the past few years has been challenged by terrorism and other transnational security threats Innocent civilians are continuously killed security operatives and providers of humanitarian assistance are targeted and properties and infrastructures are wantonly destroyed thus culminating in significant displacement of people and acute poverty If these developments are not carefully and timely addressed they are capable of eroding progress so far recorded It is against this background that this book examines the different manifestations of terrorism and related transnational security challenges in West Africa with a view to exploring the internal and external sources and drivers of instability establishing the linkages between terrorism and transnational threats and reviewing the various steps taken in recent time to strengthen the subregions capacity to prevent and address the menace of terrorism and other security challenges and make necessary policy recommendations based on comprehensive best practices

Queering the Migrant in Contemporary European Cinema James S. Williams, 2020-08-27 This exciting and original volume offers the first comprehensive critical study of the recent profusion of European films and television addressing sexual migration and seeking to capture the lives and experiences of LGBTIQ migrants and refugees Queering the Migrant in Contemporary European Cinema argues that embodied cinematic representations of the queer migrant even if at times highly ambivalent and contentious constitute an urgent new repertoire of queer subjectivities and socialities that serve to undermine the patrolled borders of gender and sexuality nationhood and citizenship and refigure or queer fixed notions and universals of identity like Europe and national belonging based on the model of the family At stake ethically and politically is the elaboration of a transborder consciousness and aesthetics that counters the homonationalist xenophobic and homo trans phobic representation of the migrant to Europe figure rooted in the toxic binaries of othering the good vs bad migrant host vs guest indigenous vs foreigner Bringing together 16 contributors working in different national film traditions and embracing multiple theoretical perspectives this powerful and timely collection will be of major interest to both specialists and students in Film and Media Studies Gender and Queer Studies Migration Mobility Studies Cultural Studies and Aesthetics

Ethnic Cleansing During the Cold War Tomasz Kamusella, 2018-07-17 In mid 1989 the Bulgarian communist regime seeking to prop up its legitimacy played the ethnonational card by expelling 360 000 Turks and Muslims across the Iron Curtain to neighboring Turkey It was the single largest ethnic cleansing during the Cold War in Europe after the wrapping up of the postwar expulsions population transfers of ethnic Germans from Central Europe in the latter half of the 1940s Furthermore this expulsion of Turks and Muslims from Bulgaria was the sole unilateral act of ethnic cleansing that breached the Iron Curtain The 1989 ethnic cleansing was followed by an unprecedented return of almost half of the expellees after the collapse of the Bulgarian communist regime The return which partially reversed the effects of this ethnic cleansing was the first ever

of its kind in history Despite the unprecedented character of this 1989 expulsion and the subsequent return not a single research article let alone a monograph has been devoted to these momentous developments yet However the tragic events shape today s Bulgaria while the persisting attempts to suppress the remembrance of the 1989 expulsion continue sharply dividing the country s inhabitants Without remembering about this ethnic cleansing it is impossible to explain the fall of the communist system in Bulgaria and the origins of ethnic cleansing during the Yugoslav wars Faltering Yugoslavia s future ethnic cleansers took a good note that neither Moscow nor Washington intervened in neighboring Bulgaria to stop the 1989 expulsion which in light of international law was then still the legal instrument of population transfer The as yet unhealed wound of the 1989 ethnic cleansing negatively affects the Bulgaria s relations with Turkey and the European Union It seems that the only way out of this debilitating conundrum is establishing a truth and reconciliation commission that at long last would ensure transitional justice for all Bulgarians irrespective of language religion or ethnicity **Forthcoming Books**

An Organizational Approach to Public Governance Morten Egeberg, Jarle Trondal, 2018-10-04 Climate change economic crises migration and terrorism are among the many problems that challenge public governance in modern societies Many of these problems are spanning political and administrative units horizontally vertically and both This makes public governance particularly challenging and turbulent Since public governance mainly takes place through public organizations like international organizations ministries and regulatory agencies this book examines what difference organizational factors make in the governance process The volume launches a general organizational approach to public governance It outlines key theoretical dimensions that cut across governance structures and processes horizontally as well as vertically thus paving the way for integrating separate empirical analyses into a coherent theoretical whole Moreover the organizational independent variables outlined in this book represent classical dimensions in the organization literature that are generic in character This allows for generalizations across time and space The volume also examines organizational design implications By building

systematic knowledge on how organizational factors shape governance processes on the one hand and how organizational factors themselves might be deliberately changed on the other the book offers a knowledge base for organizational design
