

Providing Protection to Unaccompanied and Separated Children in Europe

KIND achieves safety and stability and secures rights for unaccompanied and separated children in Europe through high-quality legal assistance, capacity building, and advocacy.

Children are increasingly seeking safety in Europe, driven from their home countries by conflict and other violence, persecution, discrimination, and extreme hardship; some children arrive alone, while others are separated from their family in flight.

By accessing accurate, child-friendly information on their rights, and support to navigate the complex legal procedures they face, these children can secure the safety, status, and sustainable solutions that they need.

KIND has been partnering with pro bono law firms and nongovernmental organizations (NGOs) in the European Union since 2019 to ensure that children on the move have access to lawyers and to advocate for their rights in Europe. The work is an expansion of KIND's model in the United States, where KIND and its pro bono partners have provided legal representation and psychosocial assistance to thousands of unaccompanied children since 2008 and in the UK since 2016.

When the conflict escalated in Ukraine in 2022, KIND harnessed its presence and expertise across Europe to respond to the needs of children displaced from Ukraine. Read more about our work contributing to the Ukraine response [here](#).

How KIND Protects Children in Europe

KIND works with partners, expert consultants, and local staff in the European Union to protect unaccompanied and separated children's rights and well-being through our holistic model.

Providing child-centered, trauma-informed legal assistance through our NGO and pro bono legal partners, to ensure children are rightly identified as children, can access international protection and sustainable solutions such as residency and citizenship, and can reunify with family.

Informing children about their legal rights through Know Your Rights sessions and other tools.

Increasing the capacity of actors working with children on the move and strengthening protection systems for children through trainings and other technical assistance.

Engaging in policy recommendations and advocacy to ensure that laws, policies, procedures, and practices for unaccompanied and separated children are integrated, rights-based, and promote their best interests.

What Kind Of Europe:

What Kind of Europe? Loukas Tsoukalis, 2003-05-29 As the European Union gets ready to take its new members *What Kind of Europe* pinpoints the crucial issues which will shape its future as a regional economic and political entity Loukas Tsoukalis is one of the world's leading scholars on European integration in this book he writes for any reader interested in the key democratic choices facing Europe's citizens European integration is not a politically neutral process There are key democratic choices to be made about trade offs between efficiency equity and stability productivity and a cleaner environment integration and diversity rule by experts and elected representatives in the management of the single market and the Euro the degree and kind of solidarity across boundaries the geographical limits of Europe's fledgling common identity the export of peace and stability to the near abroad and beyond and the defence of common values and interests in a world where the ascendancy of markets and the highly unequal distribution of political power increasingly challenge those features that still make Europe distinct from other regions of the world There is certain to be disagreement on these issues by the very nature of democracy But Europeans need to become more aware of the issues and the choices they imply Europeans have long pretended that inter country divisions are the only ones that really count and that the choice is essentially between more or less Europe But the agenda must now be to build a politically mature Europe What kind of Europe becomes the key question

The Politicization of Europe Paul Statham, Hans-Jörg Trenz, 2012 This book examines how mass media debates have contributed to the politicization of the European Union The public controversies over the EU's attempted Constitution making and its failure sowed the seeds for a process of politicization that has advanced ever since an increasing visibility for the EU in mass mediated public debates that is combined with a growing public contestation over Europe within national politics The book presents an original systematic study of the emerging field of political discourse carried by the mass media in France Germany and Britain to examine the performance of Europe's public sphere Whilst the EU's increasing politicization can be seen as beneficial to European democracy potentially normalizing the EU level within national politics the same developments can also be a threat to democracy leading to populist and xenophobic responses and a decline in political trust Such discussions are key to understanding the EU's legitimacy and how its democratic politics can work in an era of mediated politics The Politicization of Europe will be of interest to students and scholars of comparative politics media studies communication sociology and European studies

Family Forms in Historic Europe Cambridge Group for the History of Population and Social Structure, 1983-03-10 The family forms of historic Europe have been fascinating in their variety Their importance for the historical development of our continent would be difficult to exaggerate for our relationship with the peoples of the other continents of the world as well

This book is an attempt to recover the different familial systems and compare them with one another. The studies range from Russia Poland Hungary and Austria to Scandinavia Flanders and Britain. All the influences which have affected the character and composition of European households are taken into account. The analysis covers their function as productive work groups in the procreation and bringing up of children and in the support of the elderly and their relationship with the wider society and its norms along with its political organization central and local. Claims that inheritance customs and inheritance practice and the occupation of the household head exerted a powerful influence on the size and composition of households are subjected to rigorous and systematic investigation.

Divergent Pathways: Turkey and the European Union Meltem Müftüler-Baç, 2016-01-18 Should Turkey become a part of the European Union? This heated debate has been going on for many years now always under the assumption that it is the membership candidate alone who needs to adjust to the EU's influence. The book's main argument is precisely that the Turkish accession needs to be analyzed not only by looking at the EU's impact on Turkish transformation but also from an angle that captures the Turkish role in recasting Europe.

European Security Policy and Strategic Culture Peter Schmidt, Benjamin Zyla, 2013-09-13 With the Lisbon Treaty in place and the European Union increasingly involved in international crisis management and stabilization operations in places near and far this volume revisits the trajectory of a European strategic culture. Specifically it studies the usefulness of its application in a variety of circumstances including the EU's operations in Africa and the Balkans as well as joint operations with NATO and the United Nations. The contributors find that strategic culture is a useful tool to explain and understand the EU's civilian and military operations not in the sense of a cause but as a European normative framework of preferences and constraints. Accordingly classical notions of strategic culture in the field of international security must be adapted to highlight the specific character of Europe's strategic culture especially by taking the interaction with the United Nations and NATO into account. Though at variance over the extent to which security and defence missions have demonstrated or promoted a shared strategic culture in Europe the authors reveal a growing sense that a cohesive strategic culture is critical in the EU's ambition of being a global actor. Should Europe fail to nurture a shared strategic culture its actions will be based much more on flexibility than on cohesion. This book was published as a special issue of *Contemporary Security Policy*.

The Making of Europe's Critical Infrastructure P. Högselius, A. Hommels, A. Kaijser, E. van der Vleuten, Erik van der Vleuten, 2013-11-26 Europe's critical infrastructure is a key concern to policymakers NGOs companies and citizens today. A 2006 power line failure in northern Germany closed lights in Portugal in a matter of seconds. Several Russian-Ukrainian gas crises shocked politicians entrepreneurs and citizens thousands of kilometers away in Germany France and Italy. This book argues that present day infrastructure vulnerabilities resulted from choices of infrastructure builders in the past. It inquires which and whose vulnerabilities they perceived negotiated prioritized and

inscribed in Europe's critical infrastructure. It does not take Europe for granted but actively investigates which countries and peoples were historically connected in joint interdependency and why. In short, this collection unravels the simultaneous historical shaping of infrastructure, common vulnerabilities and Europe.

Europe and the Gospel Evert Van de Poll, 2013-08-21. Combining human interest stories with thought-provoking analyses, Dr Evert Van de Poll paints the socio-cultural and religious picture of this exceptional continent: its population and cultural variety, past and present, idea of we Europeans, immigration, multiculturalism and the issue of Muslim integration, the construction of the EU and the concerns it raises and the quest for the soul of Europe. Special attention is paid to Christian and other roots of Europe, the mixed historical record of Christianity, vestiges of its past dominance, its place and influence in today's societies that are rapidly de-Christianising and secularization as a European phenomenon. The author indicates specific challenges for Church development, mission and social service. In so doing, he outlines the contours of a contextualised communication of the Gospel.

The Future of Europe United States. Congress. Senate. Committee on Foreign Relations, United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on European Affairs, 1991.

The Constitutional Structure of Europe's Area of 'Freedom, Security and Justice' and the Right to Justification Ester Herlin-Karnell, 2019-04-18. This book explores the implications of freedom as a non-domination oriented view for understanding EU security regulation and its constitutional implications. At a time when the European borders are under pressure and with the refugee and migration crisis which escalated in 2015, the idea of exploring a constitutional theory for the Area of Freedom, Security and Justice (AFSJ) might seem to be a utopian project. This appears especially true in the light of the increased threat of terrorism in Europe and on a global scale and where the expanding EU security agenda is often advanced through the administrative law path in contrast to the constitutional trajectory. Add to this the prolonged financial crisis which continues to cast a long shadow on the future development of EU integration and which suggests that Europe needs to re-invent itself beyond the sphere of economics. Therefore, it is precisely because of the current uncertainties regarding the progress of the EU and the constitutional law project that a constitutional take on the AFSJ is of particular importance. The book investigates the meaning of non-domination and the idea of justice and justification in the area of EU security regulation. In doing so, it focuses on the development of an AFSJ: what it means and why it represents a fascinating example of contemporary constitutional law with interacting layers of security regulation, human rights law and transnational legal theory at its core.

Citizens' Reactions to European Integration Compared Elizabeth Frazer, Florence Haegel, Virginie Van Ingelgom, 2013-01-17. Pre-financial crisis, EU citizens were overlooking Europe, ignoring it in favour of globalisation, economic flows and crises of political corruption. Innovative focus group methods allow an analysis of citizens' reactions and demonstrate how euroscepticism is a red herring instead, articulating an indifference to and ambivalence about

Europe **Europe's Global Role** Jan Orbie, 2016-12-05 First published in 2008 and based on an innovative framework for analysing the EU's external politics this paperback edition provides a historical overview of and theoretical conclusions about the EU's global role Taking an original approach the volume highlights the expanding political science literature on Europe's international role in a range of external policy domains It focuses in particular on the soft dimension of Europe's international action which has previously been much neglected Carefully structured to make this ideal supplementary reading for students and scholars of European politics and foreign policy the book will equally appeal to a wider audience in political economy security policy and international relations more generally
