Stanley, 2018-07-11 This hands-on approach to teaching digital research skills breaks down each research skill into simple, targeted steps that enable students to research more deeply and to accomplish real-world tasks. Today's rapidly diversifying digital world provides easy access to information, making it increasingly important that students know how to conduct research online. In this book, you'll learn how to transition your instruction of the research process from a print context to a digital one and to expand your own knowledge of how to best assist students at all stages of their research. Using six well-defined steps that she developed in her 26 years of experience as a school librarian, Deb Stanley provides practical strategies for each of the six steps of the research process, accompanied by easily used and replicated lessons and handouts that are applicable and adaptable to all grade levels K-12. Step by step instruction links to Common Core state standards and ideas to help students succeed at each stage of the research process makes this title a must-have for any school librarian. *American Directory of Writer's Guidelines*, 2007-02 Perhaps the best kept secret in the publishing industry is that many publishers, both periodical publishers and book publishers, make available writer's guidelines to assist would-be contributors. Written by the staff at each publishing house, these guidelines help writers target their submissions to the exact needs of the individual publisher. The American Directory of Writer's Guidelines is a compilation of the actual writer's guidelines for more than 1,700 publishers. A one-of-a-kind source to browse for article, short story, poetry, and book ideas. *The African American Guide to Writing & Publishing Non Fiction* Jewell Parker Rhodes, 2002-02-05 In college and graduate school, Jewell Parker Rhodes never encountered a single reading assignment or exercise that featured a person of color.
