

The illustration shows a large crocodile with a brown and grey patterned head and a long, bright red mouth. It is positioned on the left side of the frame, angled towards the right. A green lizard is running away from the crocodile's open mouth towards the bottom right corner. The background is a solid yellow color, and the bottom of the image features a blue horizontal band representing water.

8 Keys to End Emotional Eating Howard Farkas, 2019-09-24 Bring an end to emotional eating by getting to the root of the problem Most books about emotional eating tend to focus on how to strengthen self restraint or how to identify what triggers it The former can make the problem worse while the latter may be different each time it occurs Both approaches fail to help emotional eaters understand why they feel compelled to do something that they don't want to do in the first place This understanding is the key to changing this behavior Howard Farkas who has more than two decades of professional and teaching experience as a clinical psychologist specializing in emotional eating explains the underlying motive that drives the behavior emotional eating is not a passive failure of self control but an active impulse to reject the control of dieting This defiant need to be bad usually leaves the person feeling guilty and anxious about their eating and recommitting to their diet until the cycle repeats and the compulsive eating recurs *8 Keys to End Emotional Eating* provides a detailed plan for breaking this pattern By explaining the root cause that drives the desire to binge Farkas offers practical skills to help you learn to change your mindset about dieting and end the impulse to binge His road map for the future will help readers maintain healthy eating habits for years to come

Thinking and Learning through Children's Literature Miriam G. Martinez, Junko Yokota, Charles Temple, 2017-04-18 Much of teachers attention these days is focused on having students read closely to ferret out the author's intended meaning and the devices used to convey that meaning But we cannot forget to guide students to have moving engagements with literature because they need to make strong personal connections to books of merit if they are to become the next generation of readers literate people with awareness of and concern for the diversity of human beings around them and in different times and places Fortunately guiding both students personal engagement with literature and their close reading to appreciate the author's message and craft are not incompatible goals This book enthusiastically and intelligently addresses both imperatives first surveying what is gained when students are immersed in literature then celebrating and explicating the main features of literature students need to understand to broaden their tastes and deepen their engagement at the same time they meet external standards then presenting a host of active methods for exploring all major genres of children's books and finally presenting suggestions for interdisciplinary

teaching units grounded in literature Created by noted leaders in the fields of children s literature and literacy the book is enlivened by recurring features such as suggested reading lists issues for discussion links to technology and annotations of exemplary books

contains **Storytelling for Sustainability in Higher Education** Petra Molthan-Hill, Heather Luna, Tony Wall, Helen Puntha, Denise Baden, 2020-03-25 To be a storyteller is an incredible position from which to influence hearts and minds and each one of us has the capacity to utilise storytelling for a sustainable future This book offers unique and powerful insights into how stories and storytelling can be utilised within higher education to support sustainability literacy Stories can shape our perspective of the world around us and how we interact with it and this is where storytelling becomes a useful tool for facilitating understanding of sustainability concepts which tend to be complex and multifaceted The craft of storytelling is as old as time and has influenced human experience throughout the ages The conscious use of storytelling in higher education is likewise not new although less prevalent in certain academic disciplines what this book offers is the opportunity to delve into the concept of storytelling as an educational tool regardless of and beyond the boundaries of subject area Written by academics and storytellers the book is based on the authors own experiences of using stories within teaching from a story of the Ecology of Law to the exploration of sustainability in accounting and finance via contemporary cinema Practical advice in each chapter ensures that ideas may be put into practice with ease In addition to examples from the classroom the book also explores wider uses of storytelling for communication and sense making and ways of assessing student storytelling work It also offers fascinating research insights for example in addressing the question of whether positive utopian stories relating to climate change will have a stronger impact on changing the behaviour of readers than will dystopian stories Everyone working as an educator should find some inspiration here for their own practice on using storytelling and stories to co design positive futures together with our students [The New Cambridge English Course 4 Practice Book](#) Michael Swan, Desmond O'Sullivan, Catherine Walter, 1993-07-15 The New Cambridge English Course is a four level course for learners of English [How Many More Questions?](#) Rochelle Caplan, Brenda Bursch, 2012-11-08 How Many More Questions Techniques for Clinical Interviews of Young Medically Ill Children provides readers with a comprehensive framework to understand how 5 10 year old children use language to formulate and communicate their thoughts The book then guides the reader in how to effectively elicit information about sensitive and stressful topics from young children such as their emotions difficulties problems worries and illness Seventeen exquisitely written chapters that include twelve developmental guidelines techniques case examples and illustrative dialogues provide the reader with the tools needed to address specific communication challenges involved in speaking with young children who have pain medical trauma terminal illness or specific disorders like epilepsy How Many More Questions is useful for pediatric professionals who strive to acquire exceptional clinical interviewing skills and who no longer wish to hear children say When are we done The wide range of medical and non medical professionals who work with young ill children such as pediatricians neurologists psychiatrists psychologists neuropsychologists social workers nurses child life specialists as well as interested parents will use this book as a reference guide **Man of the People** T. Spencer Adams, 2008-02 Man of the People is an incredible novel by first

time author T Spencer Adams It is great reading and could be the text book for Political Science 101 After carefully developing the title character Adams provides a simple insight into what has gone wrong with the U S political system and what it will take to fix it Adams weaves the lesson into a fascinating story about a retired everyman J T Spencer who is suddenly thrust into the national limelight of presidential politics As the story unfolds you find your self worrying not only about our hero but the fate of our country as well J T Spencer s presidential campaign was more than a political phenomenon It was a clear indication of the level of social unrest that existed through out the entire country But three truly unique circumstances had to come together at the same time to create the perfect political storm of social rebellion The first was the public s pervasive lack of trust in the entire political system a distrust that had been building since Watergate and had reached critical mass during the last two administrations The second factor was one of simple technology The spread of personal computers and the ever increasing number of people whose primary source of information was the internet made possible a new type of grass roots campaign The third and final factor was the intense media scrutiny focused on presidential candidates Every aspect of the lives of public figures especially those who would aspire to public office and political leadership was fair game for the evening news **The Drama** ,1924
