What Happened To Notre Dame:

Whatever Happened to Tradition? Tim Stanley, 2021-10-14 The West feels lost Brexit Trump the coronavirus we hurtle from one crisis to another lacking definition terrified that our best days are behind us The central argument of this book is that we can only face the future with hope if we have a proper sense of tradition political social and religious We ignore our past at our peril The problem argues Tim Stanley is that the Western tradition is anti tradition that we have a habit of discarding old ways and old knowledge leaving us uncertain how to act or even of who we really are In this wide ranging book we see how tradition can be both beautiful and useful from the deserts of Australia to the court of nineteenth century Japan Some of the concepts defended here are highly controversial in the modern West authority nostalgia rejection of self and the hunt for spiritual transcendence We ll even meet a tribe who dress up their dead relatives and invite them to tea Stanley illustrates how apparently eccentric yet universal principles can nurture the individual from birth to death plugging them into the wider community and creating a bond between generations He also demonstrates that tradition far from being pretentious or rigid survives through clever adaptation that it can be surprisingly egalitarian The good news he argues is that it can also be rebuilt It s been done before The process is fraught with danger but the ultimate prize of rediscovering tradition is self knowledge and freedom

Whatever Happened to the Soul? Warren S. Brown, Nancey C. Murphy, H. Newton Malony, 1997-12-01 As science crafts detailed accounts of human nature what has become of the soul This collaborative project strives for greater consonance between contemporary science and Christian faith Outstanding scholars in biology genetics neuroscience cognitive science philosophy theology biblical studies and ethics join here to offer contemporary accounts of human nature consistent with Christian teaching Their central theme is a nondualistic account of the human person that does not consider the soul an entity separable from the body scientific statements about the physical nature of human beings are about exactly the same entity as are theological statements concerning the spiritual nature of human beings For all those interested in fundamental questions of human identity posed by the present context this volume will provide a fascinating and authoritative resource

What Happens to Faith When Christians Get Dementia? 'Tricia Williams, 2021-01-25 What happens to faith when Christians get dementia Here the unique voices of Christians who live with this illness bring insight and prompt theological reflection on the profound questions that dementia asks of faith Within the boundaries of a biblical agenda these questions are explored using a model of orientation disorientation and reorientation reminiscent of Brueggemann s scheme to seek deeper understanding of faith experience and practice Arising from the research fresh theological insights and challenges for the church call for new creative practices to enable the faith nurture of disciples of Jesus living with this disease Counterintuitively the study reveals a growing positive experience of faith in the light of dementia highlighting the significance of Christian hope Faith does not end with diagnosis of this illness

Imitating Christ in Magwi Todd D. Whitmore,2019-01-24 Imitating Christ in Magwi An Anthropological Theology achieves two things First focusing on indigenous Roman Catholics in northern Uganda and South Sudan it is a detailed ethnography of how a community sustains hope in the midst of one of the most brutal wars in recent memory that between the Ugandan government and the rebel Lord s Resistance Army Whitmore finds that the belief that the spirit of Jesus Christ can enter into a person through such devotions as the Adoration of the Eucharist gave people the wherewithal to carry out striking works of mercy during the conflict and like Jesus of Nazareth to risk their lives in the process Traditional devotion leveraged radical witness Second Gospel Mimesis is a call for theology itself to be a practice of imitating Christ Such practice requires both living among people on the far margins of society Whitmore carried out his fieldwork in Internally Displaced Persons camps and articulating a theology that foregrounds the daily if extraordinary lives of people Here ethnography is not an add on to theological concepts rather ethnography is a way of doing theology and includes what anthropologists call thick description of lives of faith Unlike theology that draws only upon abstract concepts what Whitmore calls anthropological theology is consonant with the fact that God did indeed become human It may well involve risk to one s own life Whitmore had to leave Uganda for three years after writing an article critical of the President but that is what imitatio Christi sometimes requires
