study of mathematics seem more real to the teacher and student and shall offer material for interesting some pupil more fully in his work with numbers the authors will feel that the considerable labor involved in its preparation has not been in vain We desire to acknowledge our especial indebtedness to Professor Alexander Ziwet for reading all the proof as well as for the digest of a Russian work to Professor Clarence L Meader for Sanskrit transliterations and to Mr Steven T Byington for Arabic transliterations and the scheme of pronunciation of Oriental names and also our indebtedness to other scholars in Oriental learning for information
