Work Motivation History Theory Research And Practice Foundations For Organizational Science:

Work Motivation Gary P. Latham, 2007 Dr Latham's book is very detailed about under whom and where the major writers on work motivation studied. This makes for interesting asides. His footnotes are both informative and eyebrow raising. His personal journey through all this is insightful, charming, and a great contribution to understanding the lineage of psychologists. I plan on loaning to other nonpsychologists as well as assigning it to my students. CANADIAN PSYCHOLOGY. Work Motivation History Theory Research and Practice provides unique behavioral science frameworks for motivating employees in organizational settings. Drawing upon his experiences as a staff psychologist and consultant to organizations, author Gary Latham has written this book in a mentor voice that is highly personal and rich in examples including enduring influences of mentors on researchers in the field. Key Features: Includes anecdotes about and from the major thought leaders in the field of motivation. Personal insights from and about leading personalities in the field of motivation such as Bandura, Frese, Hough, Judge, Kanfer, Lawler, Locke, Pinder, Rousseau, and Vroom make the material come alive. Behind the scenes accounts of research and the researchers who conducted studies in North America, Africa, Asia, Australia, and Europe are addressed. Offers a chronological review of the research on and theories of motivation in the workplace. Written in a meaningful and memorable style, a comprehensive treatment of work motivation is given from the end of the 19th century to the present. Provides a taxonomy for the study and practice of motivation. The book explains how and why to take into account a person's needs, values, work setting, goals, moods, and emotions. Controversies of theoretical and practical significance such as the importance of money, the relationship between job satisfaction and job performance, and the distinction between intrinsic and extrinsic motivation are captured and resolved. Intended Audience: This is an excellent text for advanced undergraduate and graduate students studying work motivation in the departments of Industrial/Organizational Psychology, Organizational Behavior, and Human Resource Management. Talk to the author: <http://www.rotman.utoronto.ca/facbios/viewFac.asp?facultyID=latham> *The Military Leadership Handbook* Bernd Horn, Robert William Walker, 2008-09-29 Issued also in French under title *Le précis de leadership militaire* **Motivation** Marvin R. Gottlieb Ph.D., 2017-10-27 This book shows managers how to identify opportunities for increasing productivity by enhancing commitment and provides tools for building a high performing team. More than ever, senior and frontline managers are tasked with the development and maintenance of highly productive teams, a formidable challenge in all situations. Organizational directives for lean, highly responsive, change adaptive workforces have created an environment in which every aspect of productivity must be examined and improved in the quest to meet increasingly competitive global goals. About 30 percent of productivity is lost from knowledge workers who withhold undetected discretionary effort because managers fail to tap into motivation dynamics that impact the level of individual and team commitment. This book gives managers the tools they need to motivate their teams to deliver significantly better results. Readers of *Motivation: The Manager's Key to Closing the Commitment Gap* will gain a

foundational understanding of motivation from theoretical experimental and anecdotal perspectives and identify key areas of potential untapped productivity The book explores the changing workforce values economic pressures and the revised compact between employers and employees that create the commitment gap that results in untapped productivity Managers will see how to go through a diagnostic and relationship building process that creates powerful and productive dialogues resolves conflict and pinpoints behaviors and identifies tools to build a fully committed high performing team Ethical Beginnings Waymond Rodgers,2009 Waymond Rodgers PhD CPA has worked over fifteen years studying how to combine ethical considerations with a decision making model of perception information and judgment that will foster better decision making processes resulting in an overall improvement of daily life He has presented seminars on ethics at numerous international conferences and also provided ethics presentations to corporations societies universities and other organizations such as Opus Dei The need for ethics in society is such an important factor because many commonly held ethical values are incorporated into laws Yet due to the judgmental nature of certain values many ethical values of a society cannot be incorporated into law Ethical process thinking involves discerning right from wrong and acting in alignment with such judgments enabling us to complement several ethical approaches of preferences rules and principles with unique decision making pathways leading to an ethical decision Ethical decisions can be difficult to make due to a misunderstanding of the decision making process incomplete information changing environments time pressures and a lack of expertise Ethical Beginnings Preferences Rules and Principles influencing decision making explains the major barriers to ethical decision making why structuring a problem is necessary and when to use information for decision making purposes **Team Academy** Elinor Vettraino,Berrbizne Urzelai,2021-12-24 Within Entrepreneurship Education Team Academy is seen by some as an innovative pedagogical model that enhances social connectivity as well as experiential student centred and team based learning It also creates spaces for transformative learning to occur In this book the third book in the four part Routledge Focus on Team Academy series the contributors explore the concepts of leadership and teams in the context of TA Topics including the way in which learners attempt to navigate the complexity of leadership and team dynamics whilst understanding their place and impact on the processes involved will be examined This book is aimed at academics practitioners and learners engaged in the Team Academy methodology pedagogy and model as well as those interested in the area of entrepreneurial team learning Readers will be inspired to innovate in their delivery methodologies and to explore learning by doing approaches to creating value The book also aims to challenge the discourse around entrepreneurship and entrepreneurial activities offering insights research stories and experiences from those learning and working in the Team Academy approach **Achieving Peak Sales Performance for Optimal Business Value and Sustainability** Brown, Carlton,2019-10-25 Businesses today face many obstacles but one major hurdle is optimizing sales performance and achieving peak levels of execution In recent years there has been a significant decline in sales performance among

businesses internationally Many professionals attribute this disparity to the lack of attention towards certain business techniques including Sales Peak Performance and Business to Business Strategies like this lack empirical validity and further investigation on the implementation of these approaches could significantly impact the business world Achieving Peak Sales Performance for Optimal Business Value and Sustainability is a collection of innovative research on the methods and applications of various elements that influence sales peak performance including personal organizational and symbiotic determinants While highlighting topics including emotional intelligence personal branding and customer relationship management this book is ideally designed for sales professionals directors advertisers managers researchers students and academicians seeking current research on insights and advancements of business sustainability and sales peak performance
