Teaching Mathematics Visually and Actively Tandi Clausen-May, 2013-10-14 This practical book provides teachers in primary and secondary schools with advice and resources to develop a visual and active approach to teaching mathematics. It includes specific examples of teaching strategies and ideas for lesson activities to support teaching mathematics to learners who take information and ideas visually and actively. Accompanying this second edition is a companion website that includes a range of resources for teaching each topic including Dynamic PowerPoint animations which can be used to help learners to develop their understanding of key mathematical concepts. Posters of each concept. And in addition to all this each chapter suggests even further links to other useful resources for every topic to enhance your teaching. With clear explanations and strong visual layout this is an ideal resource for teachers, SENCOs, Special Educational Needs Coordinators and teaching assistants who want to motivate their learners with different and exciting ways of teaching and learning maths.

Teaching for Mathematical Understanding Tony Cotton, 2016-06-17 Teaching for Mathematical Understanding develops the subject knowledge support and practical ideas from Tony Cotton's Understanding and Teaching Primary Mathematics into resources for full lessons. With an emphasis on developing outstanding lessons using a problem solving approach, this highly practical guide is packed with activities that all trainee and practising teachers can use in the primary classroom. Covering each area of mathematics, every activity offers helpful step by step guidance including teaching and learning objectives, resources, lesson outlines, ideas for differentiation, assessment for learning and key probing questions. Also featured in this text are call outs to the information contained in the book's companion website, a shared site with a range of relevant resources to support and consolidate your learning. Teaching for Mathematical Understanding is an essential text for all trainee and practising teachers looking for inspiration and guidance towards outstanding mathematics teaching. Companion website features include Video clips in which primary school teachers demonstrate concepts covered in the book through teaching to a real class, PowerPoint presentations which provide support for those using the book as part of a teacher training course, updated weblinks to external sites with useful teaching information and resources.
