Biopsychosocial Perspectives and Practices for Addressing Communicable and Non-Communicable Diseases Taukeni, Simon George, 2020-04-17 While there are a number of clinical practices for treating a variety of diseases there is an urgent need to integrate bio psychosocial perspectives and practices in order to promote comprehensive healthcare Current research reports that diseases such as HIV AIDS malaria diabetes cardiovascular diseases and heart diseases are a growing threat to the health and quality of life of individuals across the globe Considering that nearly all these diseases are directly related to the lifestyle of an individual prevention and intervention should be devised to address psychological emotional social and spiritual factors Biopsychosocial Perspectives and Practices for Addressing Communicable and Non Communicable Diseases is a collection of theoretical research that promotes good health and quality of life through psychosocial interventions to address psychosocial problems facing individuals such as discrimination and stigma stress depression alcohol and drug abuse smoking lack of physical activity and many other socio economic factors While highlighting topics including mental health traditional healthcare and global health this book is ideally designed for therapists counselors psychologists medical professionals hospital administrators researchers academicians and students in fields that include public health nursing community based healthcare health psychology HIV AIDS education human movement education and sport psychology

Women, Rocks, and Professors: The Memories of a University Professor John J.W. Rogers, 2011-10-24 This autobiography covers the life of a university Professor of Geology It describes his education and his career at Rice University and the University of North Carolina During his career he travelled to do geologic work in all continents except Antarctica The book also discusses his heavy involvement in the education of women both at the undergraduate and graduate level following his introduction to the education of women during the late 1960s when he was in charge of a women s residential college at Rice university Many episodes on campus and during travel were both strange and hilarious The book emphasizes the humor in the author s life by describing these episodes both from the author s viewpoint and the perspective of other people involved

Community Series in Mental Illness, Culture, and Society: Dealing with the COVID-19 Pandemic, volume VIII Mohammadreza Shalbafan, Samer El Hayek , Renato de Filippis, 2024-06-21

The COVID 19 outbreak has impacted many areas of our lives including mental health Lockdown and physical distancing measures have been one major effective intervention to counter the spread of the virus and reduce the impact of the disease However they have negatively impacted mental well being and behaviors either triggering the onset of new psychiatric symptoms and diseases or amplifying pre existing ones The pandemic and lockdown measures have also been associated with reduced access to treatment and facilities all over the world further worsening mental health outcomes The impact on mental health although universal varied between nations Cultural and societal variables including norms values religion and stigma have played an important role in shaping COVID 19 related mental health symptoms including anxiety depression grief

psychosis and addiction These sociocultural factors have also molded how mental health interventions are tailored and provided Highlighting the intertwining relationship between the pandemic mental health and sociocultural factors are essential to managing emerging mental health symptoms adequately
