Mary Taylor Overton,2007-10 The purpose of this volume is to unseal or reveal the mysteries in the prophecy of Daniel The book of Daniel is the ONLY example in the entire bible of a prophecy that was shut up and or sealed in antiquity This is a mysterious phrase and is the reason the book is NOT well understood to the present time The shutting up or sealing of the book must mean that the full and complete MEANING of the prophecy would NOT be revealed to the understanding of men That is until the arrival of a time period called the time of the end See Dan 12 9 This appears to be the exact case because there are things in the prophecy that clearly have NOT been correctly understood to this very day Examples of these misunderstood things in the prophecy include 1 The meaning of the phrase the time of the end 2 The historical identity of the willful king of Dan 11 36 3 The true meaning of the word indignation in 8 19 11 36 4 The historical connection between the sale of the land in 11 39 AND the willful king of 11 36 5 The separation of the prophecy between ancient and modern This approximate 1900 years time span is seen between 11 39 and 40 The first mention of sealing is seen in 8 26 where the Archangel Gabriel instructs Daniel to shut thou up the vision for it shall be for many days Gabriel is referring to Daniel s vision of chapter 8 It seems the shutting up of that vision contributes to the later sealing of the entire book In 12 4 the Archangel Gabriel instructed Daniel to shut up the words and seal the BOOK even to the time of the end KJV Note The word even is a supplied word as it does not appear in the original The Septuagint LXX uses the word to instead of even Gabriel instructed Daniel to seal the book in 12 4 but he tells Daniel in 12 9 to Go thy way Daniel for the words are closed up and sealed till the time of the end Gabriel must have assumed that Daniel had effectively sealed the book according to his previous instructions The mysterious phrase the time of the end is mentioned 5 times in the prophecy Some writers have said this is a short period of several decades time that will occur just before the end of human history on earth However one must assume from these verses that the TRUE MEANING of the prophecy would then be fully understood at or during the time of the end Most writers have assumed the existence of only ONE time of the end in the book However it is easily proved there are two such periods and they are parallels of each other The first period occurred at the end of the Jewish era The second period will occur at the end of the Gentile era The present volume is a calculated attempt to unseal the prophecy One reason for this idea is that the world now lives in the last time of the end After all the prophecy states that it would be sealed to the

time of the end The clear inference is that it would be unsealed at or during that time period Because of a decades long prayerful and diligent historical search every mystery in the prophecy has now been revealed in the present volume The prophecy can now be fully understood for the first time since the archangel Gabriel and Daniel sealed it over 2000 years ago

France, 2023-09-14 The Definitive Study and Solution to the Centuries old Mystery of

the World's Most Sighted Sea Serpent There is a long history of conflating sightings of unidentified marine objects (UMOs) as purported sea serpents. Most sightings are either of an extremely brief duration or made by a single observer and thus often easy to dismiss. This is not the case, however, with respect to the so-called Gloucester Sea Serpent which frequented the Massachusetts and New York coasts during the early nineteenth century. Witnessed by hundreds of people for extended periods repeatedly over many days, the Gloucester UMO is the most sighted sea serpent in history. As well due to being the object of study at the time and shortly thereafter by naturalists, the mysterious creature remains the most thoroughly investigated of all putative sea serpents. For these reasons, it has achieved an exalted status among cryptozoologists who maintain it represents the best evidence for the existence of sea serpents. For the first time, an eminently qualified aquatic biologist and ethnozoologist presents the definitive history of the phenomena and carefully examines the evidence. It is concluded that the most parsimonious explanation behind the Gloucester Sea Serpent is as early evidence for what is today recognized as being one of the most serious threats to marine biodiversity: entanglement in fishing gear and other maritime debris. Therefore, although widely considered to be restricted to the advent and widespread use of non-degradable plastic in the middle of the twentieth century, this new interpretation of the Gloucester UMO suggests that entanglement has a much longer environmental history than is commonly believed.

Robert L. France is a world-renowned scientist at Dalhousie University and the author or editor of twenty books and two hundred papers on a wide range of environmental subjects. He has undertaken conservation biology research from the High Arctic to the tropics on organisms from bacteria to whales, which has been cited many thousands of times in the literature. Dr. France is a leading authority on many aspects of aquatic zoology, including marine ecology and ethnozoology, and may be the most qualified person to have recently undertaken research and published peer-reviewed articles on the beguiling and befuddling topic of aquatic mystery animals known as cryptids.

Sea-Brothers Bert Bender, 2015-11-16 Sea Brothers offers the most extensive analysis to date of the sea and its meaning in American literature On the basis of his study of Melville Crane London Hemingway Matthiessen and ten lesser known sea writers Bert Bender argues that the tradition of American sea fiction did not end with the opening of the western frontier and the replacement of sailing ships by steamers Rather he demonstrates its continuity and vitality identifying a central vision within the tradition and showing how particular authors draw from transform and contribute to it What is most distinctive about American sea fiction Bender contends is its visionary often mystical response to the biological world and to man's perceived place in the larger universe When Melville envisioned the sea as the essential element of life indeed as life itself he changed the course of American sea fiction by introducing the relevance of biological thought But his meditations on the whale and the ungraspable phantom of life project a different reality from that envisioned by his successors In American sea fiction after Melville the influence of Origin of Species is as powerful as that of Moby Dick or the theme of sailing ships being

displaced by steam The ideal of brotherhood so central to American sea fiction was severely compromised by the biological reality of a competitive warring nature Twentieth century sea fiction has continued to center on the biological world and address the possibility of democratic brotherhood but the issues were fundamentally changed by Darwin s theories This book will be a valuable source for students and scholars of American literature and will interest readers of sea fiction
