What Changed When Everything Changed 9 Or 11 And The Making Of National Identity:

What Changed When Everything Changed Joseph Margulies, 2013-05-21 DIV Beautifully written and carefully reasoned this bold and provocative work upends the conventional wisdom about the American reaction to crisis Margulies demonstrates that for key elements of the post 9 11 landscape especially support for counterterrorism policies like torture and hostility to Islam American identity is not only darker than it was before September 11 2001 but substantially more repressive than it was immediately after the attacks These repressive attitudes Margulies shows us have taken hold even as the terrorist threat has diminished significantly Contrary to what is widely imagined at the moment of greatest perceived threat when the fear of another attack hung over the country like a shroud favorable attitudes toward Muslims and Islam were at record highs and the suggestion that America should torture was denounced in the public square Only much later did it become socially acceptable to favor enhanced interrogation and exhibit clear anti Muslim prejudice Margulies accounts for this unexpected turn and explains what it means to the nation's identity as it moves beyond 9 11 We express our values in the same language but that language can hide profound differences and radical changes in what we actually believe National identity he writes is not fixed it is made div

What Changed When Everything Changed Joseph Margulies, 2013-05-21 DIV How our national identity has changed in significant and unexpected ways since the attacks of 9 11 div *Be Still!* Gordon C. Stewart, 2017-01-06 *Be Still* Departure from Collective Madness echoes the call of the Navajo sage and the psalmist who invited their hearers to stop If we keep going this way we're going to get where we're going and be still Be still and know Like pictures in a photo album taken from a unique lens these essays zoom in on singular moments of time where the world is making headlines drawing attention to the sin of exceptionalism in its national racial religious cultural and species manifestations Informed by Japanese Christian theologian Kosuke Koyama Elie Wiesel Wendell Berry and others the author invites the reader to slow down be still and depart from collective madness before the Navajo sage is right Told in the voice familiar to listeners of *All Things Considered* and Minnesota Public Radio these poetic essays sometimes feel as familiar as an old family photo album but the pictures themselves are taken from a thought provoking angle **Law's Wars** Richard L. Abel, 2018-08-16 The US war on terror which Bush declared and Obama continued repeatedly violated fundamental rule of law values *Law's Wars* The Fate of the Rule of Law in the US War on Terror is the first comprehensive account of efforts to resist and correct those violations It focuses on responses to abuses in Abu Ghraib efforts by Guantanamo Bay detainees to improve conditions of confinement in and win release exposés of and efforts to end torture and electronic surveillance and civilian casualties on the battlefield including targeted killings Abel deploys a law and society perspective to construct and analyze detailed narratives of the roles of victims whistle blowers the media NGOs lawyers doctors politicians military personnel foreign governments and international organizations in defending the rule of law Only by understanding past errors can we hope to prevent their repetition in what promises to be an endless war on terror God, Neighbour, Empire

Walter Brueggemann,2017-07-05 In this book renowned scholar Walter Brueggemann brings us a characteristically penetrating and provocative account of the ways in which the Old Testament is offered as an alternative to the imperial narrative that can dominate ordinary imagination A Companion to U.S. Foreign Relations Christopher R. W.

Dietrich,2020-03-04 Covers the entire range of the history of U S foreign relations from the colonial period to the beginning of the 21st century A Companion to U S Foreign Relations is an authoritative guide to past and present scholarship on the history of American diplomacy and foreign relations from its seventeenth century origins to the modern day This two volume reference work presents a collection of historiographical essays by prominent scholars The essays explore three centuries of America s global interactions and the ways U S foreign policies have been analyzed and interpreted over time Scholars offer fresh perspectives on the history of U S foreign relations analyze the causes influences and consequences of major foreign policy decisions and address contemporary debates surrounding the practice of American power The Companion covers a wide variety of methodologies integrating political military economic social and cultural history to explore the ideas and events that shaped U S diplomacy and foreign relations and continue to influence national identity The essays discuss topics such as the links between U S foreign relations and the study of ideology race gender and religion Native American history expansion and imperialism industrialization and modernization domestic and international politics and the United States role in decolonization globalization and the Cold War A comprehensive approach to understanding the history influences and drivers of U S foreign relation this indispensable resource Examines significant foreign policy events and their subsequent interpretations Places key figures and policies in their historical national and international contexts Provides background on recent and current debates in U S foreign policy Explores the historiography and primary sources for each topic Covers the development of diverse themes and methodologies in histories of U S foreign policy Offering scholars teachers and students unmatched chronological breadth and analytical depth A Companion to U S Foreign Relations Colonial Era to the Present is an important contribution to scholarship on the history of America s interactions with the world *Contentious Politics*

Charles Tilly,Sidney Tarrow,2015-08-18 Charles Tilly and Sidney Tarrow present a set of analytical tools and procedures for study comparison and explanation of the diverse forms of contention that comprise contentious politics including revolutions social movements religious and ethnic conflict nationalism and civil rights and transnational movements The authors demonstrate that similar principles describe both a wide variety of political struggles and more routine forms of politics This updated and fully revised edition explores some of the major contentious events that have taken place since the original *Contentious Politics* was published in 2007 Conditional Citizens Laila Lalami,2021-10-19 A New York Times Editors Choice Finalist for the California Book Award Longlisted for the Andrew Carnegie Medal for Excellence in Nonfiction Best Book of the Year Time NPR Bookpage Los Angeles Times In this brilliantly argued and deeply personal work Pulitzer Prize finalist Laila Lalami recounts her unlikely journey from Moroccan immigrant to U S citizen using her own story as a starting

point for an exploration of the rights liberties and protections that are traditionally associated with American citizenship Tapping into history politics and literature she elucidates how accidents of birth such as national origin race and gender that once determined the boundaries of Americanness still cast their shadows today poignantly illustrating how white supremacy survives through adaptation and legislation Weaving together her experiences with an examination of the place of nonwhites in the broader American culture Lalami illuminates how conditional citizens are all those whom America embraces with one arm and pushes away with the other

Justice as a Virtue Porter, 2016 Aquinas says Jean Porter gets justice right In this book she shows that Aquinas offers us a cogent and illuminating account of justice as a personal virtue rather than a virtue of social institutions For Aquinas justice is more about interpersonal morality than civic or social obligations and Porter masterfully draws out the contemporary significance of Aquinas's perspective back of book

Power in Movement Sidney Tarrow, 2022-08-11 A fully updated edition of this classic study now covering movements including the Arab Spring and the 2021 Capitol attack

Solidarity in Practice Chandra Russo, 2018-11-15 Cross border solidarity has captured the interest and imagination of scholars activists and a range of political actors in such contested areas as the US Mexico border and Guantanamo Bay Chandra Russo examines how justice seeking solidarity drives activist communities contesting US torture militarism and immigration policies Through compelling and fresh ethnographic accounts Russo follows these activists as they engage in unusual and high risk forms of activism fasting pilgrimage civil disobedience She explores their ideas of solidarity and witnessing which are central to how the activists explain their activities This book adds to our understanding of solidarity activism under new global arrangements and illuminates the features of movement activity that deepen activists commitment by helping their lives feel more humane just and meaningful Based on participant observation interviews surveys and hundreds of courtroom statements Russo develops a new theorization of solidarity that will take a central place in social movement studies

9/11 in European Literature Svenja Frank, 2017-11-28 This volume looks at the representation of 9 11 and the resulting wars in European literature In the face of inner European divisions the texts under consideration take the terror attacks as a starting point to negotiate European as well as national identity While the volume shows that these identity formations are frequently based on the construction of two Others the US nation and a cultural ethnic idea of Muslim communities it also analyses examples which undermine such constructions This much more self critical strand in European literature unveils the Eurocentrism of a supposedly general humanistic value system through the use of complex aesthetic strategies These strategies are in itself characteristic of the European reception as the Anglo Irish British Dutch Flemish French German Italian and Polish perspectives collected in this volume perceive of the terror attacks through the lens of continental media and semiotic theory

9/11 and the Rise of Global Anti-Terrorism Law Arianna Vidaschi, Kim Lane Scheppele, 2021-07-15 Twenty years after the outbreak of the threat posed by international jihadist terrorism which triggered the need for democracies to balance fundamental rights and security needs 9 11 and the Rise of

Global Anti Terrorism Law offers an overview of counter terrorism and of the interplay among the main actors involved in the field since 2001 This book aims to give a picture of the complex and evolving interaction between the international regional and domestic levels in framing counter terrorism law and policies Targeting scholars researchers and students of international comparative and constitutional law it is a valuable resource to understand the theoretical and practical issues arising from the interaction of several levels in counter terrorism measures It also provides an in depth analysis of the role of the United Nations Security Council

American Literature and American Identity Patrick Colm Hogan,2021-11-10 In recent years cognitive and affective science have become increasingly important for interpretation and explanation in the social sciences and humanities However little of this work has addressed American literature and virtually none has treated national identity formation in influential works since the Civil War In this book Hogan develops his earlier cognitive and affective analyses of national identity further exploring the ways in which such identity is integrated with cross culturally recurring patterns in story structure Hogan examines how authors imagined American identity understood as universal democratic egalitarianism in the face of the nation s clear and often brutal inequalities of race sex and sexuality exploring the complex and often ambivalent treatment of American identity in works by Charlotte Perkins Gilman Eugene O Neill Lillian Hellman Djuna Barnes Amiri Baraka Margaret Atwood N Scott Momaday Spike Lee Leslie Marmon Silko Tony Kushner and Heidi Schreck

Tenacious Solidarity Walter Brueggemann,2018-11-01 Tenacious Solidarity features essays and new writings from 2014 to 2018 As all of Walter Brueggemann s writing is the chapters are deeply biblical while also concerned with the identities practices and obligations of religious communities in contemporary contexts within the United States Brueggemann consistently attempts to weave the biblical texts vested as they are with the authority of a storyteller into the deep contours of his readers experiences in order to foster a tenacious solidarity that might overcome both the psychic numbness cultivated by a 24 hour news cycle as well as the anxious possessiveness nurtured by so many privatized spiritualities Brueggemann brings the transformative potential of the biblical texts to bear on critical contemporary contexts including but not limited to economic disparities racial injustice and white supremacy climate and care for creation and the power of memory and mentoring He delves deeply in the Psalms which he says provides a foundational script for living into the fullest and deepest realities of human existence And he draws from the Prophets his foundational concept of totalism which he defines as automated fragmentation of social life such that we habitually and callously disregard our relations with others

Human Rights in Times of Transition Kasey McCall-Smith,Andrea Birdsall,Elisenda Casanas Adam,2020-11-27 This timely book explores the extent to which national security has affected the intersection between human rights and the exercise of state power It examines how liberal democracies long viewed as the proponents and protectors of human rights have transformed their use of human rights on the global stage externalizing their own internal agendas

Detention of Terrorism Suspects Maureen Duffy,2018-02-08 Controversial erosions of individual liberties in the name of anti terrorism are

ongoing in liberal democracies The focus of this book is on the manner in which strategic discourse has been used to create accepted political narratives It specifically links aspects of that discourse to problematic and evolving terrorism detention practices that happen outside of traditional criminal and wartime paradigms with examples including the detentions at Guantanamo Bay and security certificates in Canada This book suggests that biased political discourse has in some respects continued to fuel public misconceptions about terrorism which have then led to problematic legal enactments supported by those misconceptions It introduces this idea by presenting current examples such as some of the language used by US President Donald Trump regarding terrorism and it argues that such language has supported questionable legal responses to terrorism It then critiques political arguments that began after 9 11 many of which are still foundational as terrorism detention practices evolve The focus is on language emanating from the US and the book links this language to specific examples of changed detention practices from the US Canada and the UK Terrorism is undoubtedly a real threat but that does not mean that all perceptions of how to respond to terrorism are valid As international terrorism continues to grow and to change this book offers valuable insights into problems that have arisen from specific responses with the objective of avoiding those problems going forward

War, States, and Contention Sidney Tarrow, 2015-05-21 For the last two decades Sidney Tarrow has explored contentious politics disruptions of the settled political order caused by social movements These disruptions range from strikes and street protests to riots and civil disobedience to revolution In *War States and Contention* Tarrow shows how such movements sometimes trigger and guide the course of war and how they sometimes rise during war and in war's wake to change regimes or even overthrow states Tarrow draws on evidence from historical and contemporary cases including revolutionary France the United States from the Civil War to the anti Vietnam War movement Italy after World War I and the United States during the decade following 9 11 In the twenty first century movements are becoming transnational and globalization and internationalization are moving war beyond conflict between states The radically new phenomenon is not that movements make war against states but that states make war against movements Tarrow finds this an especially troublesome development in recent U S history He argues that the United States is in danger of abandoning the devotion to rights it had expanded through two centuries of struggle and that Americans are now institutionalizing as a new normal the abuse of rights in the name of national security He expands this hypothesis to the global level through what he calls the international state of emergency

The Political Christopher Nolan
Jesse Russell, 2023-05-26 Many of Christopher Nolan's films ironically both embrace the tradition of surrealist and Avant Garde filmmaking while simultaneously providing at least tacit support for the Anglo American liberal world order For Nolan this world order which relies on global capitalism technocratic supremacy and ultimate control of world cultural production is a much greater alternative to either left or right wing challenges to this liberalism In Nolan's films this liberalism must occasionally use violence and violate some of its core principals of privacy and freedom to maintain its dominance

Nonetheless Anglo American liberalism in Nolan s vision provides a world that is freer more humane and more prosperous than other anarchic Marxist or fascist alternatives Finally and perhaps most importantly for Nolan the security wealth and freedom of this liberal world order enables the world of art and film to blossom and the opportunity for Christopher Nolan to create post ironic dream worlds or in the words of Jean Baudrillard a hyperreality American Foreign Policy Since World War II Steven W. Hook, John Spanier, 2018-01-30 It is the best and most effectively presented history of US foreign policy available It is extremely well written Its accessibility is established by the book s clear writing and presentation with no sacrifice of the more challenging theoretical and policy debates regarding US foreign policy since 1945 Glenn Palmer Penn State University The Gold Standard for Textbooks on American Foreign Policy American Foreign Policy Since World War II provides students with an understanding of America s current challenges by exploring its historical experience as the world s predominant power since World War II Through this process of historical reflection and insight students become better equipped to place the current problems of the nation s foreign policy agenda into modern policy context With each new edition authors Steven W Hook and John Spanier find that new developments in foreign policy conform to their overarching theme there is an American style of foreign policy imbued with a distinct sense of national exceptionalism This Twenty First Edition continues to explore America s unique national style with chapters that address the aftershocks of the Arab Spring and the revival of power politics Additionally an entirely new chapter devoted to the current administration discusses the implications of a changing American policy under the Trump presidency
