Difficult Questions Have Easy Answers Atina Hseham,2023-12-06 An inquiry made to obtain any information is known as an interrogation While asking the person tries to get an answer that allows him to satisfy his doubts The interviewers often ask simple questions in a very twisted fashion to confuse the candidates Difficult questions answers reflect the knowledge of the giver as well as his overall personality For example Which is heavier a kilogram of feathers or 1000 grams of lead Solution Both the weights are equal And What happened in Kolkata yesterday from 8 to 9 o clock Solution An hour had passed These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices In some cases the answer is found in the question itself but in secret Tricky questions are also used for fun or as a mental activity of logical practice Like a truck driver passing down a street in the wrong direction some policemen saw him but they didn t say anything to him why Solution Because the truck driver was on foot He shaves all day but still has a beard who is he Solution Barber Some months have thirty days and others thirty one but how many months have twenty eight Solution Every month has at least twenty eight days Which object becomes wet When it dries Solution Towel How do you draw a square with three lines Solution draw the square first and then draw three lines inside the square Thus an answer to a tricky question can lead to confusion due to the confusion generated question These types of questions are very specific to the areas in which people s knowledge or behavior is evaluated Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality However they can also be seen as methods whose precise purpose is to test the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations **Mentor-World Traveler** ,1921 *The Mentor-world Traveler* ,1921 *Speed Reading Question and Answer* Tr Ahmed Ragheb,01-01-2022,□□□□ □□□□ This book responds to a lot of questions about speed reading that we have received since 2008 of research and development This is a huge reference for everything you need to know about speed reading Chapter One Question and Answer All the questions that we received during Our journey in speed reading since training began in 2008 about speed reading and scientific response to them Chapter Two A Master s Journey The Story of the Foundation of the Only Arabic Curriculum around the World Speed reading based on balancing and stimulation of right and left brain hemispheres Chapter Three How to be a student of knowledge The Ethics of the Student and the Teacher 1 Is speed reading a real skill 2 What is speed reading 3 What is reading And what is a normal traditional reading 4 What is fast traditional reading 5 I read fast but do not understand 6 What is the difference between speed reading and traditional reading in terms of application 7 How long does it take to finish the book using speed reading 8 What is the difference between speed reading and photo reading 9 What is the difference between oral reading or
