What Is An American Muslim Embracing Faith And Citizenship:

What Is an American Muslim? 'Abd Allāh Aḥmad Na'im, 2014-03 Abdullah An na im offers a pioneering exploration of American Muslim citizenship and identity arguing against the prevalent emphasis on majority minority politics and instead promoting a shared citizenship that both accommodates and transcends religious identity Many scholars and community leaders have called on American Muslims to engage with or integrate into mainstream American culture Such calls tend to assume that there is a distinctive monolithic minority religious identity for American Muslims Rejecting the closed categories that determine the minority status of a particular group and that in turn impede active engaged citizenship An na im draws attention to the relational nature of identity emphasizing a common base of national membership and advancing a legal approach to a public recognition of a person s status as citizen Rather than perceive themselves or accept being perceived by others as a monolithic minority he argues American Muslims should view themselves as American citizens who happen to be Muslims As American citizens they share a vast array of identities with other American citizens whether ethnic political or socio economic But none of these identities qualify or limit their citizenship An na im urges members of the American Muslim community to take a proactive affirmative view of their citizenship in order to realize their rights fully and fulfill their obligations in social and cultural as well as political and legal terms He shows that the freedom to associate with others in order to engage in civic action to advance rights and interests is integral to the underlying rationale of citizenship and not something that must be relinquished to become an American citizen What Is an American Muslim provides acute insight into the nature of citizenship and identity the place of religious affiliation in American society and what it means to share in a collective identity What is an American Muslim? °Abd Allāh Aḥmad Na'āim, 2014 This title offers a pioneering

exploration of American Muslim citizenship and identity arguing against the prevalent emphasis on majority minority politics and instead promoting a shared citizenship that both accommodates and transcends religious identity **What Is an American Muslim?** Abdullahi Ahmed An-Na'im, 2014-01-02 Abdullah An Na im offers a pioneering exploration of American Muslim citizenship and identity arguing against the prevalent emphasis on majority minority politics and instead promoting a shared citizenship that both accommodates and transcends religious identity Following Similar Paths Samuel C.

Heilman, Mucabit Bilici, 2024-09-10 Two academics one Jewish and one Muslim come together to show how much their faiths have in common particularly in America This book provides a braided portrait of two American groups whose strong religious attachments and powerful commitments to ritual observance are not always easy to adapt to American culture Orthodox Jews and observant Muslims share many similarities in their efforts to be at home in America while holding on to their practices and beliefs As Samuel Heilman and Mucabit Bilici reveal they follow similar paths in their American experience Heilman and Bilici immerse readers in three layers of discussion for each religious group historical evolution sociological transformation and a comparative understanding of certain parallel beliefs and practices each of which is used as a window onto the lived

reality of these communities Written by two sociologists one a religiously observant American Jew and the other an American Muslim Following Similar Paths offers lively insider and outsider perspectives that deepen our understanding of American diversity and what it means to be religious in a modern society **Latino and Muslim in America** Harold D. Morales,2018-02-01 Latino and Muslim in America examines how so called minority groups are made fragmented and struggle for recognition in the U S A Harold Morales follows the lives of several Latino Muslim leaders from the 1970 s to the present and their efforts to organize and unify nationally in order to solidify the new identity group s place within the public sphere This book explores the racialization of religion the framing of religious conversion experiences the dissemination of post colonial histories and the development of Latino Muslim networks to show that the categories of race religion and media are becoming inextricably entwined *The Idea of European Islam* Mohammed Hashas,2018-07-24 Suspicions about the integration of Islam into European cultures have been steadily on the rise and dramatically so since 9 11 One reason lies in the visibility of anti Western Islamic discourses of salafi origin which have monopolized the debate on the true Islam not only among Muslims but also in the eyes of the general population across Europe these discourses combined with Islamophobic discourses reinforce the so called incompatibility between the West and Islam This book breaks away from this clash between Islam and the West by arguing that European Islam is possible It analyzes the contribution that European Islam has made to the formation of an innovative Islamic theology that is deeply ethicist and modern and it clarifies how this constructed European Islamic theology is able to contribute to the various debates that are related to secular liberal democracies of Western Europe Part I introduces four major projects that defend the idea of European Islam from different disciplines and perspectives politics political theology jurisprudence and philosophy Part II uses the frameworks from three major philosophers and scholars to approach the idea of European Islam in the context of secular liberal societies British scholar George Hourani Moroccan philosopher Taha Abderrahmane and the American philosopher John Rawls The book shows that the ongoing efforts of European Muslim thinkers to revisit the concept of citizenship and political community can be seen as a new kind of political theology in opposition to radical forms of Islamic thinking in some Muslim majority countries Opening a new path for examining Islamic thought in and of Europe this book will appeal to students and scholars of Islamic Studies Islam in the West and Political Theology **American Islamophobia** Khaled A. Orthodox Christians and the Rights Revolution in America A. G. Roeber, 2024-01-02 A distinctive and unrivaled examination of North American Eastern Orthodox Christians and their encounter with the rights revolution in a pluralistic American society From the civil rights movement of the 1950s to the culture wars of North America commentators have identified the partisans bent on pursuing different rights claims When religious identity surfaces as a key determinant in how the pursuit of rights occurs both the religious right and liberal believers remain the focus of how each contributes to making rights demands How Orthodox Christians in North America have navigated the rights revolution however remains largely unknown From the disagreements over the rights of the First Peoples of Alaska to arguments about the rights of transgender persons Orthodox Christians have engaged an Anglo American legal and constitutional rights tradition But they see rights claims through the lens of an inherited focus on the dignity of the human person In a pluralistic society and culture Orthodox Christians both converts and those with family roots in Orthodox countries share with non Orthodox fellow citizens the challenge of reconciling conflicting rights claims Those claims do pit religious liberty rights claims against perceived dangers from outside the Orthodox Church But internal disagreements about the rights of clergy and people within the Church accompany the Orthodox Christian engagement with debates over gender sex and marriage as well as expanding political legal and human rights claims Despite their small numbers North American Orthodox remain highly visible and their struggles influential among the more than 280 million Orthodox worldwide Orthodox Christians and the Rights Revolution in America offers an historical analysis of this unfolding story

Applied Ethics Larry May, 2017-07-05 This best selling text continues to fill an existing gap in the literature taught in applied ethics courses As a growing number of courses that include the perspectives of diverse cultures are being added to the university curriculum texts are needed that represent more multicultural and diverse histories and backgrounds This new

edition enhances gender coverage as nearly half of the pieces are now authored by women The new edition also increases the percentage of pieces written by those who come from a non Western background It offers twelve up to date articles not found in previous editions on human rights environmental ethics poverty war and violence gender race euthanasia and abortion all of these topics are addressed from Western and non Western perspectives **The Islamic Secular** Sherman A.

Jackson,2024 This book argues that the meaning of secular in the West and in Islam differ fundamentally Though the Islamic secular is a liberation from Islam s sacred law shari ah it is neither outside religion nor a rival to it it seeks neither to discipline nor displace religion nor expand its own jurisdiction at religion s expense The Islamic Secular is in Sherman Jackson s view a complement to religion in effect a religious secular In this book Jackson makes the case for the Islamic Secular on the basis of Islam s own pre modern juristic tradition and shows how the Islamic Secular impacts the relationship between Islam and the modern state including the Islamic State **Government Surveillance of Religious Expression**

Kathryn Montalbano,2018-10-25 Recent revelations about government surveillance of citizens have led to questions about whether there should be better defined boundaries around privacy Should government officials have the right to specifically target certain groups for extended surveillance United States municipal territorial and federal agencies have investigated religious groups since the nineteenth century While critics of contemporary mass surveillance tend to invoke the infringement of privacy the mutual protection of religion and public expression by the First Amendment positions them along with religious expression comfortably within in the public sphere This book analyzes government monitoring of Mormons of the Territory of Utah in the 1870s and 1880s for polygamy Quakers of the American Friends Service Committee AFSC from the 1940s to the 1960s for communist infiltration and Muslims of Brooklyn New York from 2002 to 2013 for suspected terrorism Government agencies in these case studies attempted to understand how their religious beliefs might shape their actions in the public sphere It follows that government agents did not just observe these communities but they probed precisely what constituted religion itself alongside shifting legal and political definitions relative to their respective time periods Together these case studies form a new framework for discussions of the historical and contemporary monitoring of religion They show that government surveillance is less predictable and monolithic than we might assume Therefore this book will be of great interest to scholars of United States religion history and politics as well as surveillance and communication studies Living between Science and Belief Charles Villa-Vicencio,2021-01-28 Most thoughtful people live

in an interregnum between science and religion Traditional religious answers concerning the beginning purpose and end of life are questioned by the natural sciences with neuroscience conceivably constituting the last frontier where skeptics and believers explore common ground The question concerns the nature of reflective and creative moments in life Can these be reduced to the intersect between the nerve cells and molecules of the physical brain Does this account for the human sense of mystery or even spirituality Is there a nexus between the physical and unknown dimensions of existence The mutation in

the history of theism suggests that progressive theology in the West may be set for further change

Shariah John L. Esposito, Natana J. DeLong-Bas, 2018-03-12 Most Americans and Europeans have by now heard of Shariah In the West politicians media commentators televangelists and others have stoked fears that Muslims intend to impose a repressive rule based on Shariah in America and Europe Shariah has been portrayed as a medieval system that oppresses women stifles human rights and imposes harsh punishments like stoning and amputation In reality however Shariah is a complex concept that has been interpreted in many ways over time and around the world It plays a vital role in the lives of Muslims around the world offering guidance on everything from personal morality to ritual practices family life and finance In this timely addition to Oxford s What Everyone Needs to Know series John Esposito and Natana DeLong Bas offer an accessible and thorough guide to this little understood but often caricatured system The book provides clear and even handed answers to a wide range of questions covering the history development content and practice of Shariah What are its origins What is a Shariah court and how does it work How does a person become a Muslim in the eyes of Islamic law Does Islamic law allow Muslims to marry non Muslims What are blasphemy laws and how are they enforced How does Islamic law govern trade and contracts of sale Do Muslims in the West want Shariah Law Is there a need to protect American and European societies from the imposition of Shariah By answering the questions that so many people have about Shariah and its role in Muslim life this book makes an invaluable contribution to the crucial task of fostering mutual understanding in our globalizing pluralistic societies

The Organization of Islamic Cooperation and Human Rights Marie Juul Petersen, Turan Kayaoglu, 2019-07-12 Established in 1969 the Organization of Islamic Cooperation OIC is an intergovernmental organization the purpose of which is the strengthening of solidarity among Muslims Headquartered in Jeddah the OIC today consists of fifty seven states from the Middle East Asia Africa and Latin America The OIC s longevity and geographic reach combined with its self proclaimed role as the United Nations of the Muslim world raise certain expectations as to its role in global human rights politics However to date these hopes have been unfulfilled The Organization of Islamic Cooperation and Human Rights sets out to demonstrate the potential and shortcomings of the OIC and the

obstacles on the paths it has navigated Historically the OIC has had a complicated relationship with the international human rights regime Palestinian self determination was an important catalyst for the founding of the OIC but the OIC did not develop a comprehensive human rights approach in its first decades In fact human rights issues were rarely if at all mentioned at the organization s summits or annual conferences of foreign ministers Instead the OIC tended to focus on protecting Islamic holy sites and strengthening economic cooperation among member states As other international and regional organizations expanded the international human rights system in the 1990s the OIC began to pay greater attention to human rights although not always in a manner that aligned with Western conceptions This volume provides essential empirical and theoretical insights into OIC practices contemporary challenges to human rights intergovernmental organizations and global Islam Essays by some of the world s leading scholars examine the OIC s human rights activities at different levels in the UN the organization s own institutions and at the member state level and assess different aspects of the OIC s approach identifying priority areas of involvement and underlying conceptions of human rights Contributors Hirah Azhar Mashood A Baderin Anthony Tirado Chase Ioana Cismas Moataz El Fegieri Turan Kayaoglu Martin Lestra Ann Elizabeth Mayer Mahmood Monshipouri Marie Juul Petersen Zeynep ahin Menc tek Hein Skorini M Evren Tok **American Journal of Islam and Society (AJIS) - Volume 42 Issues 3-4** Abbas Jong, Malik Mufti, Hamdija Begovic, Bilkis Bharucha, Akif Tahiev, Mohamed Lamallam, Mohammed Eriouiche, Muhammad Latif, Beena Butool, Shiraz Khan, Nazish Mithaiwala, Muhammad Cholil, Muhammad Faizul Mamduh, Hesti Eka Setianingsih, Mohd Y. Gada, Enes Karić, 2025-11-11 This issue of the American Journal of Islam and Society comprises four research articles which engage themes of development and change within the Islamic tradition alongside questions of Muslim identity We begin with Abbas Jong s work Reconfiguring Political Islam A Discursive Tradition Approach In this article Jong offers a thorough deeply theoretical engagement with the concept of discursive tradition which he restructures via the concept of social configuration We then turn to a study by Malik Mufti The Catholic Experience in America from Orestes Brownson to the Bozells A Precedent for Muslims Malik s point of departure is to consider the history of American Catholicism and its adaptation to the American creed a part of an American liberal culture that is both formally tolerant and ideologically compelling to immigrants and their religious traditions As our third research article for this issue we then have Hamdija Begovic s From Ummatic Muslims to State centered Bosniacs The Case of the Muslims of Bosnia Here Begovic considers the evolution of the national identity of Bosnian Muslims throughout the 20th century from what he calls an Ummatic centric focus that uses the label Muslims toward a secularized identity demonstrated through their adoption of the ethnonym Bosniacs The fourth and final research article in this issue is Bilkis Bharucha s article Islam Science and the Environment An Application of Ibrahim Kalin s Three Views of Science in the Islamic World which offers a critical application of Kalin s framework to contemporary debates on Islam and environmental ethics
