WATTLES,2024-12-29 Whatever may be said in praise of poverty the fact remains that it is not possible to live a really complete or successful life unless one is rich No man can rise to his greatest possible height in talent or soul development unless he has plenty of money for to unfold the soul and to develop talent he must have many things to use and he cannot have these things unless he has money to buy them with Man develops in mind soul and body by making use of things and society is so organized that man must have money in order to become the possessor of things therefore the basis of all advancement for man must be the science of getting rich The object of all life is development and everything that lives has an inalienable right to all the development it is capable of attaining Man s right to life means his right to have the free and unrestricted use of all the things which may be necessary to his fullest mental spiritual and physical unfoldment or in other words his right to be rich In this book I shall not speak of riches in a figurative way to be really rich does not mean to be satisfied or contented with a little No man ought to be satisfied with a little if he is capable of using and enjoying more The purpose of Nature is the advancement and unfoldment of life and every man should
