Women in the Middle Ages: A-J Katharina M. Wilson, Nadia Margolis, 2004 The encyclopedia covers the myriad experiences and contributions of women in the medieval world *Handbook of Medieval Studies* Albrecht Classen, 2010-11-29 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field The handbook consists of four parts The first large section offers articles on all of the main disciplines and discussions of the field The second section presents articles on the key concepts of modern medieval studies and the debates therein The third section is a lexicon of the most important text genres of the Middle Ages The fourth section provides an international bio bibliographical lexicon of the most prominent medievalists in all disciplines A comprehensive bibliography rounds off the compendium The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together *Encyclopaedism from Antiquity to the Renaissance* Jason König, Greg Woolf, 2013-10-17 There is a rich body of encyclopaedic writing which survives from the two millennia before the Enlightenment This book sheds new light on that material It traces the development of traditions of knowledge ordering which stretched back to Pliny and Varro and others in the classical world It works with a broad concept of encyclopaedism resisting the idea that there was any clear pre modern genre of the encyclopaedia and showing instead how the rhetoric and techniques of comprehensive compilation left their mark on a surprising range of texts In the process it draws attention to both remarkable similarities and striking differences between conventions of encyclopaedic compilation in different periods with a focus primarily on European Mediterranean culture The book covers classical medieval including Byzantine and Arabic and Renaissance culture in turn and combines chapters which survey whole periods with others focused closely on individual texts as case studies *Approaches to Teaching the Works of Christine de Pizan* Andrea Tarnowski, 2018-12-01 Offers pedagogical techniques for teaching the works of Christine de Pizan in college classrooms including consideration of architecture feminism gender history intertextuality memory poetics politics music translation visual narrative and women's studies Includes information on reference works and online resources Gives syllabus suggestions for undergraduate and graduate courses The Encyclopedia of Christian Literature George Thomas Kurian, James D. Smith III, 2010-04-16 The written word is one of the defining elements of Christian experience As vigorous in the 1st century as it is in the 21st Christian literature has had a significant function in history and teachers and students need to be reminded of this powerful literary legacy Covering 2 000 years The Encyclopedia of Christian Literature is the first encyclopedia devoted to Christian writers and books In addition to an overview of the Christian literature this two volume set also includes 40 essays on the principal genres of Christian literature and more than 400 bio bibliographical
