Women In Science Then And Now:

Women in Science Vivian Gornick, 2009 This twenty fifth anniversary edition captures the experience of women in science over the past half century **Women and Physics** Laura McCullough, 2016-04-01 This book begins with an examination of the numbers of women in physics in English speaking countries moving on to examine factors that affect girls and their decision to continue in science right through to education and on into the problems that women in physics careers face Looking at all of these topics with one eye on the progress that the field has made in the past few years and another on those things that we have yet to address the book surveys the most current research as it tries to identify strategies and topics that have significant impact on issues that women have in the field **Base Ten** Maryann Lesert, 2009-02-01 In this wonderful first novel an astrophysicist struggles with returning to her career in science after putting it on hold for her family The Grand Rapids Press Raised to believe that she could do anything astronomer Jillian Greer dreamed of going into space When she and her research partner Kera Sullivan invented a specialized telescope it looked as though these two dogged scientists would fulfill the dream they shared But ten years later while Kera trains in a space simulator Jillian is married with children packing lunches and helping her kids with homework With her field's archaic all or nothing mindset maintaining both a family life and a scientific career seems like an impossible task As her fortieth birthday draws near Jillian decides that she must give her career one more shot Leaving her family for ten days one day for each year she has put her career on hold she seeks solitude in the sand dunes of Lake Michigan where she struggles to see if she can find her way back to the stars

The Palgrave Handbook of Women and Science since 1660 Claire G. Jones, Alison E. Martin, Alexis Wolf, 2021-12-02 This handbook provides a comprehensive overview of core areas of investigation and theory relating to the history of women and science Bringing together new research with syntheses of pivotal scholarship the volume acknowledges and integrates history theory and practice across a range of disciplines and periods While the handbook's primary focus is on women's experiences chapters also reflect more broadly on gender including issues of femininity and masculinity as related to scientific practice and representation Spanning the period from the birth of modern science in the late seventeenth century to current challenges facing women in STEM it takes a thematic and comparative approach to unpack the central issues relating to women in science across different regions and cultures Topics covered include scientific networks institutions and archives cultures of science science communication and access and diversity With its breadth of coverage this handbook will be the go to resource for undergraduates taking courses on the history and philosophy of science and gender history while at the same time providing the foundation for more advanced scholars to undertake further historical and theoretical investigation **Then, Now, and Why Now** Jim Dueck, 2021-02-15 Then Now and Why Now identifies many educational issues evident during the past six decades and which present some controversies for educators Extensive research is provided to assist reader's understanding of how these issues have changed over time and why today they are accompanied

with some controversy **The Markey Scholars Conference** National Research Council,Policy and Global Affairs,Board on Higher Education and Workforce,Committee for the Evaluation of the Lucille P. Markey Programs in Biomedical Sciences,2004-05-17 This is the second of five reports to emerge from the evaluation of the Markey Trust As part of this assessment the NRC hosted a scientific conference for Markey Scholars and Visiting Fellows in Rio Grande Puerto Rico on June 28 30 2002 The purpose of the conference was to enable the Scholars and Fellows to share their research experiences just as they did at the annual Scholars Conferences previously conducted by the Markey Trust All of the attending Scholars and Fellows submitted abstracts of their poster sessions Six scholars along with other experts in the biomedical sciences made formal presentations These proceedings consist of shortened versions of the individual presentations and the poster session abstracts **Panel on Science and Technology, Fifth Meeting** Panel on Science and Technology. Meeting,1963
 Meeting Panel on Science and Technology,1962 Science in the Contemporary World Eric G. Swedin,2005-03-08 This work is a unique introductory A Z resource detailing the scientific achievements of the contemporary world and analyzing the key scientific trends discoveries and personalities of the modern age An authoritative reference survey of the modern age of scientific discovery Science in the Contemporary World is a scholarly yet accessible chronicle of scientific achievement from the discovery of penicillin to the latest developments in space exploration and cloning Over 200 A Z entries cover the full spectrum of contemporary science with emphasis on its diverse nature Within the last 50 years medicine has eradicated the killer disease smallpox but primarily because the virus can live only in humans Space probes have revealed that on Europa a moon of Jupiter an ice capped ocean with the potential to support life probably exists Marvels from animal psychology and deep sea exploration are also explored extensively *Science & Engineering Indicators* ,1998
