*Women at Work from Ancient Egypt Through the Middle Ages* Lora Ann Sigler, 2025-10-17 Even voracious readers are often unaware that women have worked outside the home from the earliest recorded history A significant number of them have made names for themselves by being the first of either sex to do what they did For example the first musical composer we know of Enheduanna of Sumeria daughter of Sargon II Or even more astonishing the first practitioners of Caesarian sections for a difficult birth generally fatal for the mother but producing a live infant Thoroughly illustrated with high quality photographic images this work fills a gap in popular history detailing women at work from the dawn of civilization through to the Middle Ages There are four appendices regarding objects of interest related indirectly but importantly to the text as well as copious endnotes included with each chapter and a glossary of terms which may be unfamiliar to readers For those who wish to pursue related topics there is also a complete bibliography A number of the women included in this work have been forgotten by history even their real names unknown All however have contributed generously to their respective societies and cultures

Exemplars of Kingship Melissa Eppihimer, 2019-06-26 Stretching across the historical region of Mesopotamia the Akkadian dynasty ca 2334 2154 BCE created a territorial state of unprecedented scale in the ancient Near East by uniting the city states of Sumer and Akkad and parts of Syria and Iran To

establish and later cement their authority over disparate peoples and places the kings used art and visual culture to extraordinary effect Exemplars of Kingship conveys the astonishing life of the art of the Akkadian kings by assessing ancient and modern responses to its dynamic forms and transformative ideologies of kingship For nearly two thousand years after their reign the Akkadian kings were remembered as exemplary rulers Modern assessments of ancient memories of Akkadian kingship have concentrated on textual attestations of the kings place in cultural memory This book considers the contributions of images to memories of Akkadian kingship Through close readings of the visuals that remain Melissa Eppihimer discusses how Akkadian steles statues and cylinder seals became models for later rulers in Mesopotamia and beyond who wished to emulate or critique the Akkadian kings and how these rulers and their contemporaries were reminded of the Akkadian past when they looked at images Exemplars of Kingship is therefore a book about Akkadian art and its reception in antiquity but it is also concerned with the modern reception of Akkadian art and kingship It argues that modern responses have constrained our understanding of ancient responses Through a wide range of examples drawn from almost two millennia the book highlights the individual decisions that prompted continuity and change during the long history of Mesopotamia and its artistic traditions

**Jewish Feminism** Esther Fuchs, 2018-03-12 In the last three decades hundreds of books and essays have been published on women gender and Jewish Studies This burgeoning scholarship has not been adequately theorized contextualized or historicized This book argues that Jewish feminist studies is currently constrained by multiple frames of reference that require re examination a self critical awareness and a serious reflective inquiry into the models paradigms and assumptions that inform shape and define this area of academic interest This book is the first critical analysis of Jewish feminist scholarship tracing it from its tentative beginnings in the late 1970s to contemporary academic articulations of its disciplinary projects It focuses on the assumptions evasions omissions inconsistencies and gaps in this scholarship and notably the absence of debate contestation and interrogation of authoritative articulations of its presumed goals investments and priorities The book teases out implicit thinking about mapping direction and orientation from introductions to leading anthologies and engages critically with the few explicitly theoretical works on Jewish feminist studies contesting ideas that have become hegemonic in some areas and interrogating the limitations these theories impose on future trajectories in Jewish feminist studies Each chapter outlines the theoretical assumptions that inform salient publications in the field providing a close reading of scholarly texts that justify certain practices The book is divided into four chapters each of which focuses on a different frame of reference It outlines the way in which the various frames that have so far been imposed on Jewish feminism the ethnocentric liberal personal masculinist and essentialist have arrested its theoretical elaboration and articulation The book includes both interdisciplinary anthologies on gender and Jewish identity and disciplinary publications in history literature philosophy cultural studies and Holocaust studies
