Word Of Honour The Laws Of Magic:

The Language of Canon Law Judith Hahn, 2023 In this book Judith Hahn explores the legal order of the Roman Catholic Church to better understand how the Roman Catholic Church communicates as a legal institution She argues that the language of canon law reveals the political ideology of the church hierarchy and she takes up the tools of language and law scholarship to examine and challenge that language Hahn examines the grammar and terminology of canon law and how canon law language makes use of linguistic tricks and techniques to create its typical sound and discusses the comprehension difficulties that arise out of ambiguities in the law out of transfer problems between legal and common language and out of canon law s confusing mix of legal doctrinal and moral norms *The Sacraments of the Law and the Law of the Sacraments* Judith Hahn, 2023-11-23 Sacraments are powerful actions With their help law religion and other social practices change our social world

The White Goddess Robert Graves, 2013-10-08 The White Goddess is perhaps the finest of Robert Graves s works on the psychological and mythological sources of poetry In this tapestry of poetic and religious scholarship Graves explores the stories behind the earliest of European deities the White Goddess of Birth Love and Death who was worshipped under countless titles He also uncovers the obscure and mysterious power of pure poetry and its peculiar and mythic language *Chronotopes of Law* Mariana Valverde, 2015-01-09 This book develops a new framework for analyzing the spatio temporal workings of law and other forms of governance Chronotopes of Law argues that studies of law and governance can be reinvigorated by drawing on a bundle of quite heterogenous analytical tools that do not have a single provenance or a single political or normative aim but that work well in combination Analyses of legal temporality carried out by anthropologists and studies of law and space undertaken by geographers and legal scholars have proliferated in recent years but these research traditions have remained largely separate By adapting notions such as intertextuality dialogism and the chronotope from Mikhail Bakhtin notions designed specifically to synthesize considerations of space and time in a framework that is open ended interactive and dynamic Mariana Valverde develops an anti metaphysical theory and method for legal studies This approach will be useful both to theorists and to researchers seeking to illuminate the actual workings of law and other forms of governance Indeed a key aim of the book is to break down the institutional and disciplinary barriers that prevent theorists from learning from empirical studies and viceversa Written by one of the foremost sociolegal scholars writing today this theoretically innovative work constitutes a major contribution to contemporary studies in law and society
