Trust And Betrayal In The Treatment Of Child Abuse:

Trust and Betrayal in the Treatment of Child Abuse Laurie K. MacKinnon, 1998-01-23 Offering a practical new approach to the management of child at risk cases this book illuminates how parents perceive therapists and child protection workers and why from their own point of view they so frequently refuse to cooperate with intervention Amply illustrated by case examples and interviews with parents the book helps readers overcome common difficulties associated with the referral process while maximizing parents cooperation and motivation for therapy MacKinnon challenges dominant professional discourses that attribute abuse to parents pathology or dysfunction showing instead how family violence and the referral process itself are inextricably linked to dynamics of gender class power and powerlessness Readers learn to develop an effective relationship discourse with families giving voice to the experience of each member and eliciting their commitment to nonviolence fairness and equality Special attention is given to the therapist s role as a power broker who can prevent problems and intervene in difficulties between families and child protection agencies *Patterns of Child Abuse* Michael Karson, Elizabeth Sparks, 2013-09-13 Interpret the hidden meaning of family roles to help children at risk Because dysfunctional patterns are closed systems that serve a secret purpose they are almost impossible to change from the outside *Patterns of Child Abuse* helps you recognize the purpose behind the patterns and offers successful strategies for entering the pattern in order to help family members without joining it and becoming part of the dysfunction *Patterns of Child Abuse* identifies the most common most problematic patterns and explores their hidden meanings Case studies and theoretical discussions demonstrate the ways family patterns are replicated in a child s psyche and the ways the grown up child replicates the familiar family pattern forcing the world to bend to the story within Synthesizing systems theory behaviorism and psychoanalysis *Patterns of Child Abuse* offers powerful insights as well as practical strategies for dealing with such complex issues as how to comfort an abused child who cannot bear to be touched why abused children idealize their battering or neglectful parent how borderline personality organization affects individuals and their families handling the sexually powerful teenage girl the disruptive boy and the mother of the sexual abuse victim how family patterns operate in therapeutic context why therapists and social workers may encounter conflicts in child welfare cases when and how paradoxical interventions can work Well written and insightful *Patterns of Child Abuse* conveys a sound theoretical model and a sophisticated approach to the psychology of individuals and families for the child welfare professional **Child Protection Assessment Following Serious Injuries to Infants** Peter Dale, Richard Green, Ron Fellows, 2005-12-13 This book is especially welcome because of the scholarship and thoughtfulness evident throughout Dr Peter Reder Child Psychiatrist London How do child protection professionals and courts make judgments on whether serious injuries to infants are due to abuse If injuries are considered to be the result of abuse in what circumstances can it be considered safe for the infant to return home *Child Protection Assessment Following Serious Injuries to Infants* is concerned with helping child

Accomplishing Permanency: Reunification Pathways and Outcomes for Foster Children Elizabeth Fernandez, 2012-09-07 Reunification is a primary goal of foster care systems and the most common permanency planning decision It is defined as the return of children placed in protective care to the home of their birth family and used to describe the act of restoring a child in out of home care back to the biological family Yet reunification decision making and the process of reintegrating children into birth families remains under researched This Brief takes a look at family reunification knowledge and research in Australia where there is evidence that most children placed in protective care are eventually reunited with their birth parents It explores how a knowledge of reunification decision making and outcomes can contribute to strengthening practice and informing policy formulation and program planning in Child Welfare
