Truth And Reconciliation In South Africa Miracle Or Model:

Truth and Reconciliation in South Africa Lyn S. Graybill, 2002 Graybill mind and human interaction U of Virginia provides students not only the facts about the South African Truth and Reconciliation Commission but also the broader context in which it operated She asks whether it led to reconciliation and healing what criteria were used to decide whether to pardon or punish whether politics necessitated the compromise and other questions Annotation copyrighted by Book News Inc Portland OR

Truth and Reconciliation in South Africa Hugo van der Merwe, Audrey R. Chapman, 2008-02 Of the truth commissions to date the South African Truth and Reconciliation Commission TRC has most effectively captured public attention throughout the world and provided the model for succeeding bodies Although other truth commissions had preceded its establishment the TRC had a far more expansive mandate to go beyond truth finding to promote national unity and reconciliation to facilitate the granting of amnesty to those who made full factual disclosure to restore the human and civil dignity of victims by providing them an opportunity to tell their own stories and to make recommendations to the president on measures to prevent future human rights violations

The Limits of Transition: The South African Truth and Reconciliation Commission 20 Years on Mia Swart, Karin van Marle, 2017-08-28 The South African Truth and Reconciliation Commission was a noble attempt to begin to address the continuing traumatic legacy of Apartheid This interdisciplinary collection critiques the work of the TRC 20 years since its establishment Taking the paralysing political and social crises of the mid 1990s in South Africa as starting point the book contains a collection of responses to the TRC that considers the notions of crisis judgment and social justice It asks whether the current political and social crises in South Africa are linked to the country's post apartheid transitional mechanisms specifically the TRC The fact that the material conditions of the lives of many Apartheid victims have not improved forms a major theme of the book Collectively the book considers the unfinished business of the TRC

Post-TRC Prosecutions in South Africa Ole Bubenzer, 2009-10-31 After the transition to democracy in 1994 South Africa implemented an innovative scheme at the Truth and Reconciliation Commission granting perpetrators conditional amnesty It essentially calls for the prosecution of those who did not receive amnesty for the crimes they committed during the apartheid conflict This book provides the first comprehensive analysis of prosecutions after the amnesty process Drawing on interviews with key protagonists and largely unpublished documents the volume analyses trials and the political background It scrutinises the issue in the normative framework of national and international human rights law and addresses whether the prosecutions were adequately carried out The study thus allows a concluding evaluation of the justice and consistency of South Africa's internationally acclaimed amnesty process

Transitional Justice and Legacies of State Violence Lisa White, 2015-03-05 As politicians public bodies and non Governmental organisations continue to profess an interest in making peace with the past this highly original study explores the motivation significance and legacy of making public experiences of state violence in Northern Ireland Based on a synthesis of documentary material

with the findings from a series of contemporary interviews this timely book uncovers the reasoning behind many Republican former detainees accounts of state violence and torture It examines the aims of those who went public during the conflict and discusses the meaning they attached to their stories and the various responses to them It also identifies some of the risks involved in criticising the violence of the British State and illuminates the ways in which truths are often contested in Northern Ireland both during the conflict and in the years which have followed A unique piece of interdisciplinary work the study disentangles and evaluates the discourses presented by former detainees and makes an innovative and interesting contribution to knowledge about transitional justice and legacies of state violence The book is suitable for social science scholars interested in human rights state violence criminology and transitional justice as well as those seeking to understand more about experiences of imprisonment and the legacy of the Northern Ireland conflict [Making Friends Across the Boundaries of Religious Differences](#) DEUSDEDIT NKURUNZIZ,2014-12-09 Making Friends Across the Boundaries of Religious Differences Religions Building Peace for a New World Order discusses the meaning reality and dynamism of religion explores different faiths religious traditions currently influencing humanity today and argues that interreligious dialogue is the way to go for the people of different religions to work together to enhance a culture of justice human rights democratic governance nonviolence and peace in the world today While religion has been used to cause conflict violence and war the book explains how in this time of globalization faith and religion can be enhanced as resources for a new world order of justice and peace The book further highlights interreligious dialogue as a methodology and way of life which brings about unity in diversity advocacy for a world without terrorism theological perspectives women in interreligious dialogue and how in Africa interreligious action is the soul of social economic transformation African Renaissance and Cosmopolitanism

Religion, Tradition, and Restorative Justice in Sierra Leone Lyn S. Graybill,2017-06-15 In this groundbreaking study of post conflict Sierra Leone Lyn Graybill examines the ways in which both religion and local tradition supported restorative justice initiatives such as the national Truth and Reconciliation Commission TRC and village level Fambul Tok ceremonies Through her interviews with Christian and Muslim leaders of the Inter Religious Council Graybill uncovers a rich trove of perspectives about the meaning of reconciliation the role of acknowledgment and the significance of forgiveness Through an abundance of polling data and her review of traditional practices among the various ethnic groups Graybill also shows that these perspectives of religious leaders did not at all conflict with the opinions of the local population whose preferences for restorative justice over retributive justice were compatible with traditional values that prioritized reconciliation over punishment These local sentiments however were at odds with the international community's preference for retributive justice as embodied in the Special Court for Sierra Leone which ran concurrently with the TRC Graybill warns that with the dominance of the International Criminal Court in Africa there are currently eighteen pending cases in eight countries local preferences may continue to be sidelined in favor of prosecutions She argues that the international

community is risking the loss of its most valuable assets in post conflict peacebuilding by pushing aside religious and traditional values of reconciliation in favor of Western legal norms

Selling Justice Short Sara Darehshori, Human Rights Watch (Organization), 2009 This 128 page report draws upon Human Rights Watch's work over the past 20 years in nearly 20 countries The report documents how ignoring atrocities reinforces a culture of impunity that encourages future abuses Rather than impede negotiations or a transition to peace remaining firm on justice can yield short and long term benefits Anticipated negative consequences of pressing for accountability often do not come to pass Justice is also important as a matter of principle Fair trials may assist in restoring dignity to victims by acknowledging their suffering Publisher description

Memory and Justice in Post-Genocide Rwanda Timothy Longman, 2017-07-13 Following times of great conflict and tragedy many countries implement programs and policies of transitional justice none more extensive than in post genocide Rwanda Placing Rwanda's transitional justice initiatives in their historical and political context this book examines the project undertaken by the post genocide government to shape the collective memory of the Rwandan population both through political and judicial reforms but also in public commemorations and memorials Drawing on over two decades of field research in Rwanda Longman uses surveys and comparative local case studies to explore Rwanda's response both at a governmental and local level He argues that despite good intentions and important innovations Rwanda's authoritarian political context has hindered the ability of transnational justice to bring the radical social and political transformations that its advocates hoped Moreover it continues to heighten the political and economic inequalities that underline ethnic divisions and are an important ongoing barrier to reconciliation
