Private Law in the External Relations of the EU Marise Cremona, Hans-W Micklitz, 2016-03-18 Private Law in the External Relations of the EU is an innovative study of the interactions between EU external relations law and private law two unrelated fields of law inverted if private law is understood as regulatory private law the space where regulatory law intersects with private economic activity Here the link between the Internal Market and the global market and thereby international law is much more prominent In this book key questions about the relationship between EU external relations law and private law are answered including in what ways might European private law act as a tool to achieve EU external policy objectives particularly in regulatory fields How might the quickly developing EU external competence over the procedural dimensions of private law including private international law impact on substantive law both externally and internally And how is the legal position of private parties affected by EU external relations In asking these questions this edited collection opens up a field of enquiry into the so far underexplored relationship between these two fields of law In doing so it addresses three different aspects of the relationship i the evolution of the EU competence ii the ways in which EU private law extends its reach beyond the boundaries of the internal market and iii the ways in which the EU contributes to the formation of private regulation at the international level

Firat,2019-09-26 This book presents intricate backstage negotiations of interests and compromises between diplomats and lobbyists through the corridors of power which drove Turkey both closer to and farther apart from the EU *Turkey's Accession to the European Union* Constantine Arvanitopoulos,2008-12-28 European views on Turkey s membership in the EU have been split between those in support of its full integration and those advocating a privileged partnership To the extent that many of the latter proposals imply that Turkey will be partially integrated within Europe in certain areas the question of Turkey s accession is probably not about if but about how much integration there will be within the Union s structures The purpose of this book is not to offer a definitive response to this question The book aims instead to examine the complexity of the issues pertaining to Turkey s prospective EU membership by presenting several often divergent accounts of the political security and socio economic dimensions of the entire process The book provides a forum for an exchange of views among distinguished scholars and researchers from different national backgrounds in order to contribute to the ongoing public discussion of Turkey s accession Sophisticated informative and refreshing in its argumentation the book provides an excellent overview of the complexities of Turkey s accession to the EU membership Professor Mustafa Aydin TOBB University of Economics and Technology A refreshing view from the European periphery an original mirror of the Union s central challenges Professor Georges Prevelakis University of Paris 1 Panth on Sorbonne *Turkey's Accession to the European Union* Belgin Akçay,Bahri Yilmaz,2012-11-15 Although Turkey has a long held aspiration for European Union membership and has been a candidate for more than a decade relations between the EU and Turkey have not received the attention it deserves from non Turkish researchers thus far and consequently the international literature on EU Turkey relations is rather limited In light of recent global economic and political challenges for the EU and Turkey a need has emerged for an interdisciplinary approach to study EU Turkey relations within the wider international political and economic context Turkey s Accession to the European Union Political and Economic Challenges edited by Belgin Ak ay and Bahri Yilmaz provides a timely overview of some of the most important issues and debates in the changing context of Europe the change in domestic politics and foreign policy in Turkey and the likely implications of these changes and developments for EU Turkey relations Within this framework this collection includes articles emphasizing Turkey s reform process with a view to EU accession despite EU s reservations about absorbing Turkey and the eventual decoupling of the Turkish reform process from European integration as well as searching for alternative forms of cooperation or transitional arrangements which may be possible for Turkey at the time of accession Turkey and the European Union Esra LaGro,2007-06-15 This volume provides a thorough

analysis of Turkey's accession to the EU and contributes to ongoing debates about the future relationship. It is a highly dynamic encounter and both questions and answers related to the accession seem constantly in flux. The book provides valuable information on the present and future state of affairs.

The Political Economy of Financial Transformation in Turkey Galip Yalman, Thomas Marois, Ali Rıza Güngen, 2018-10-03

This volume provides a comprehensive study of Turkey's financial transformation into one of the most dynamic if not trouble-free emerging capitalisms. While this financial evolution has underwritten Turkey's dramatic economic growth, it has done so without ameliorating the persistently exploitative and unequal social structures that characterize neoliberalism today. This edited volume, written by an interdisciplinary range of political economists, critically examines Turkey's financial transformation contributing to debates on the nature of peripheral financialization. Eschewing economic interpretations, *The Political Economy of Financial Transformation in Turkey* underscores both the quantitative significance of exponential growth in financial flows and investments and the qualitative importance of the state's institutional restructuring around financial imperatives. The book presents today's reality as historically rooted. By understanding the choices made under the new Republic from 1923 onwards, one can better locate the changes launched as a newly liberalizing society since 1980. Likewise, the decisions made in response to Turkey's 2001 financial crisis spurred a tectonic break in state-market-society financial relations. The waves of change have reached far and wide, from corporate strategies of accumulation and growth to small and medium-sized enterprises' strategies of financial survival, from how finance has penetrated the provisioning of housing to how households have become financialized. Put together, one grasps the complexity and historicity of the power of contemporary finance. One also sees that the changes made have not been class-neutral but have entailed elevating the interests of major capital groups, particularly financial capital, above the interests of the poor and workers in Turkey. Nor are these changes constrained to its national borders, as what transpires domestically contributes to the making of a financialized world market. Through this 'Made in Turkey' approach, the contributions in this volume thus challenge dominant understandings of financialization which are derived from the advanced capitalisms by sharing the specificity of emerging capitalisms such as Turkey.
