Trouble In Mind Stories From A Neuropsychologists Casebook:

Trouble in Mind Jenni Ogden PhD, 2012-02-01 In *Trouble in Mind* neuropsychologist Jenni Ogden author of *Fractured Minds* transports the reader into the world of some of her most memorable neurological patients as she explores with compassion insight and vivid description the human side of brain damage These are tales of patients who as the result of stroke brain tumor car crash or neurological disease begin thinking and behaving strangely and with their loved ones support embark on the long journey to recovery acceptance of disability and sometimes death There is Luke the gang member who loses his speech but finds he can still sing his favorite blues number *Trouble in Mind* and HM who teaches the world about memory and becomes the most studied single case in medical history You will meet Julian who misplaces his internal map of the human body and Melody a singer who risks losing her song when she undergoes brain surgery to cure her epilepsy Then there is Kim with a severe head injury and Sophie who has just enough time to put her house in order before Alzheimer's dementia steals her insight For these and the many other patients whose stories are told in this book the struggle to understand their disordered minds and disobedient bodies takes extraordinary courage determination and patience For health professionals and researchers working with these patients the ethical and emotional challenges can be as demanding as the intellectual and treatment decisions they make daily *Trouble In Mind* is written in an accessible narrative style that is both accurate and intimate It will be enjoyed by readers whether students researchers or professionals in mental health and neuroscience patients with neurological disorders and their families or general readers who want to learn more about brain disorders and the doctors who care for those who suffer them

[Trouble in Mind](#) ,2013-08-22 Remarkable human stories of brain injuries and the science behind them For many years neuropsychologist Jenni Ogden worked in some of the world's leading hospitals assessing and treating those with unusual and often incredible brain injuries and disorders In this intimate memoir she tells the stories of 15 patients uncovering what each is able to teach us about the human brain Jenni's patients include Luke a gang member who loses his ability to speak but can still sing his favourite blues song Jason and Howie 16 year olds from very different backgrounds who after suffering sports related concussions face similar difficulties and HM the man with no memory the most studied case in medical history Janet's brain ignores the left side of her world and she sees only half a face when she looks in the mirror Julian a victim of a brain tumour can no longer locate his ears or hands and Sophie a mother of three must face the looming disintegration of her world through Alzheimer's disease Yet despite the challenges of coping with a brain disorder the courage resilience and determination shown by these patients is truly extraordinary With warmth compassion and insight *Trouble in Mind* tells stories of disordered minds and disobedient bodies and reveals the close relationship between a caring doctor and her patients
