German Baroque Writers, 1580-1660 James N. Hardin,1996

Essays on writers of German baroque literature primarily prose fiction and poetry in German and in Latin including religious tracts works by theologians and mystics as well as a vast body of alchemical astrological and quasi scientific literature published in the Holy Roman Empire of the German Nation Many important works during the first half of the seventeenth century are adaptations or translations of works from other languages *Salvation and Globalization in the Early Jesuit Missions* Luke

Clossey,2008-05-05 This is the first truly global study of the Society of Jesus s early missions Up to now historians have treated the early modern Catholic missionary project as a disjointed collection of regional missions rather than as a single world encompassing example of religious globalization Luke Clossey shows how the vast distances separating missions led to logistical problems of transportation and communication incompatible with traditional views of the Society as a tightly centralized military machine In fact connections unmediated by Rome sprung up between the missions throughout the seventeenth century He follows trails of personnel money relics and information between missions in seventeenth century China Germany and Mexico and explores how Jesuits understood space and time and visualized universal mission and salvation This pioneering study demonstrates that a global perspective is essential to understanding the Jesuits and will be required reading for historians of Catholicism and the early modern world The Aesthetic of Johann Sebastian Bach Andre Pirro,2014-06-20 The Aesthetic of Johann Sebastian Bach L Esth thique de Jean S bastien Bach by the celebrated French musicologist Andr Pirro 1869 1943 was originally published in 1907 and reissued in 1973 It is offered here for the first time in English as translated by Joe Armstrong Pirro s work is based primarily on an examination of the close relationships between language and music in Bach s vocal works and provides us with an extensive and well researched lexicon of the expressive resources of Bach and his contemporaries As a consequence Pirro s study also serves as a sound basis for understanding and interpreting Bach s instrumental works Focusing first on the meanings of the motifs and other compositional devices that Bach uses to depict the emotions actions and atmospheres of particular vocal settings Pirro then carefully explores how Bach makes use of these devices in his instrumental accompaniments his orchestrations his pieces without a text and even choice of compositional forms Pirro s study concludes with an examination of the influence Bach s predecessors and contemporaries had on his work and offers Bach as an exemplar of a uniquely German spirit through the religious devotion and attitudes toward love nature and humor manifested in his music Pirro s research supports a uniquely engaging analysis that has informed and even moved discerning readers for more than a century This translation introduces his work to a new audience of performers music teachers and their students composers musicologists and all who wish to

have a greater understanding of the expressive import of Bach's music Music in the Baroque Era - From Monteverdi to Bach Manfred F. Bukofzer, 2013-04-16 This vintage book contains a comprehensive treatise of Baroque music. It was written for the music student and music lover with the aim of acquainting them with this great period of music history and helping them to gain a historical understanding of music without which baroque music cannot be fully appreciated and enjoyed. Written in simple plain language and full of fascinating information about baroque music, this text will appeal to those interested in music but who have little previous knowledge of baroque and it would make for a most worthy addition to collections of music related literature. The chapters of this book include Early Baroque in Italy, The Beginnings of the Concertato Style, Gabrieli, The Phases of Baroque Music, Tradition and progress in Sacred Music, The Netherlands School and Its English Background, et cetera. We are republishing this antiquarian volume now in an affordable modern edition complete with a new prefatory biography of the author.

Saved from Sacrifice Mark S. Heim, 2006-08-10 The cross has long been not only a scandal but also a profound paradox filled with saving significance and power; it is at the same time a sobering tragedy. In *Saved from Sacrifice*, theologian Mark Heim takes on this paradox, asserting that the cross must be understood against the whole history of human scapegoating violence. In order to highlight the dimensions of his argument, Heim carefully and critically draws on the groundbreaking work of French theorist and biblical scholar René Girard. Yet Heim goes beyond Girard to develop a comprehensive theology of the atonement and the cross through his fresh readings of well-known biblical passages and his exploration of the place of the victim.

If you ally craving such a referred **Trutznachtigall Friedrich Von Spee** book that will give you worth, acquire the completely best seller from us currently from several preferred authors. If you want to droll books, lots of novels, tale, jokes, and more fictions collections are afterward launched, from best seller to one of the most current released.
