The Trial of Jan Hus Thomas A. Fudge, 2013-04-30 Six hundred years ago the Czech priest Jan Hus 1371 1415 traveled out of Bohemia never to return After a five year legal ordeal that took place in Prague in the papal curia and finally in southern Germany the case of Jan Hus was heard by one of the largest and most magnificent church gatherings in medieval history the Council of Constance Before a huge audience Hus was burned alive as a stubborn and disobedient heretic His trial sparked intense reactions and opinions ranging from satisfaction to accusations of judicial murder Thomas A Fudge offers the first English language examination of the indictment relevant canon law and questions of procedural legality In the modern world there is instinctive sympathy for a man burned alive for his convictions and it is presumed that any court that sanctioned such an action must have been irregular Was Hus guilty of heresy Were his doctrinal convictions contrary to established ideas espoused by the Latin Church Was his trial legal Despite its historical significance and the controversy it provoked the trial of Jan Hus has never before been the subject of a thorough legal analysis or assessed against prevailing canonical legislation and procedural law in the later Middle Ages The Trial of Jan Hus shows how this popular and successful priest became a criminal suspect and a convicted felon and why he was publicly executed providing critical insight into what may have been the most significant heresy trial of the Middle Ages

Jean Gerson - Apostle of Unity: His Church Politics and Ecclesiology G.H.M. Posthumus Meyjes, 2022-08-22 The first part of this study on the famous chancellor of the Paris

University contains a chronological survey of Gerson's position in the development of the church politics of his days. It is shown how he became a convinced adherent of a conciliar solution of the Western schism without betraying the idea of the Church as hierarchical entity. In the second part his ecclesiological ideas are treated more systematically. Gerson's critical attitude towards canon lawyers and papal absolutism is examined, followed by an analysis of the background of his ideas about the Church as hierarchy and as mystical body, his conciliar thought, his concept of tradition and his sources. The author tries to make clear that Gerson far from being a radical rather should be considered as a careful and conservative theologian. The book comprises a revised and extended version of an originally in Dutch written thesis for which the author was awarded the Mallinckrodt prize of the University of Groningen.

Faces of Charisma: Image, Text, Object in Byzantium and the Medieval West, 2018-07-26 In *Faces of Charisma: Image, Text, Object in Byzantium and the Medieval West* a multi-disciplinary group of scholars advances the theory that charisma may be a quality of art as well as of person. Beginning with the argument that Weberian charisma of person is itself a matter of representation, this volume shows that to study charismatic art is to experiment with a theory of representation that allows for the possibility of nothing less than a breakdown between art and viewer and between art and lived experience. The volume examines charismatic works of literature, visual art, and architecture from England, Northern Europe, Italy, Ancient Greece, and Constantinople and from time periods ranging from antiquity to the beginning of the early modern period. Contributors are Joseph Salvatore, Ackley Paul, Binski Paroma, Chatterjee Andrey, Egorov Erik, Gustafson Duncan, Hardy Stephen, Jaeger Jacqueline, E. Jung Lynsey, McCulloch Martino, Rossi Monti, Gavin Richardson, and Andrew Romig.

The Splendor of the Word New York Public Library. Humanities and Social Sciences Library, Jonathan James, Graham Alexander, James H. Marrow, Lucy Freeman Sandler, 2005 The New York Public Library's collection of nearly three hundred Western European illuminated manuscripts is one of the largest in America but also one that is very little known. Dating from the turn of the tenth century unto well into the period of the Renaissance, these works give vivid testimony to the creative impulses of the often nameless craftsmen who discovered ever new ways of animating the contents of hand-produced books through inventive and sometimes exuberant manipulations of all the elements of the book form and format: layout, script, decoration, illustration, and binding. To introduce this magnificent collection and many of its most important works to scholars and the wider audience, *The Splendor of the Word* presents one hundred manuscripts of particular cultural, historical, and artistic significance selected from the Library's collection.
