LEVELS OF CULTURE

- **National culture** refers to those beliefs, learned behavior patterns, values, and institutions that are shared by citizens of the same nation.
- **International culture** is the term for cultural traditions that extend beyond and across national boundaries. Because culture is transmitted through learning rather than genetically, cultural traits can spread through borrowing or *diffusion from one group to another*:
 - Borrowing
 - Colonialism

Writing Borderless Histories of Art Claire Farago, 2025-06-30 Writing Borderless Histories of Art is an aspirational historical and critical project that offers a fundamental rethinking of the relationship of humans to the rest of nature Social justice Indigeneity abuses of power and the environmental crisis are the burning issues of today A transcultural approach calls for abandoning structures of domination that are built into the academic disciplines regardless of the scale or extent of interpretation Drawing upon writings from a wide range of fields Claire Farago argues that Art History can play a role in advancing the public's interconnectedness with the planetary life support system that so urgently needs to be restored Studying the discourse on art at the intersection of global capitalism environmental degradation and human subjection over four centuries Writing Borderless Histories of Art advocates ontologies that do not distinguish between the sentience of humans and other animals and go beyond the dualistic metaphysics of the nature culture divide While this book is addressed to a wide audience its multilayered approach also reaches out to art historians for whom chronology canons and style are structures fundamental to the organization and operation of the discipline The book is

neither a history of ideas nor a search for the origins of art history but a recognition of the structures that drive its narratives
