Uncommon Sense From The Writings Of Howard Zinn Series In Critical Narrative:

Uncommon Sense Howard Zinn, Dean Birkenkamp, Wanda Rhudy, 2016-01-08 Why Howard Zinn has become one of the most important and influential American historians is perhaps nowhere more evident than in this new book Few social critics have been as inspiring as the ever hopeful Zinn and unlike many historians Zinn turns historical details toward deeper observations on the universal truths and struggles of humankind His remarkable wisdom and insight can be found in his earliest writings through his latest essays speeches and plays Uncommon Sense brings together his most poignant and profound quotations from decades of writing and speaking The book reveals the philosophical side of Howard Zinn and a consistency of vision over 50 years on topics ranging from government to race history law civil disobedience and activism Offering quotations of universal and timeless quality the book shows why history will regard this historian as a political and moral philosopher in the company of Paine Jefferson Frederick Douglass and Martin Luther King Jr

Decolonizing Foreign Language Education Donaldo Macedo, 2019-01-10 Decolonizing Foreign Language Education interrogates current foreign language and second language education approaches that prioritize white western thought Edited by acclaimed critical theorist and linguist Donaldo Macedo this volume includes cutting edge work by a select group of critical language scholars working to rigorously challenge the marginalization of foreign language education and the displacement of indigenous and non standard language varieties through the reification of colonial languages Each chapter confronts the hold of colonialism and imperialism that inform and shape the relationship between foreign language education and literary studies by asserting that a critical approach to applied linguistics is just as important a tool for FL ESL EFL educators as literature or linguistic theory

Paulo Freire and the Curriculum Georgios Grollios, Henry A. Giroux, Panayota Gounari, Donaldo Macedo, 2015-11-17 How can Paulo Freire's progressive and vital contributions to curriculum planning can be made more relevant today for educators policy makers and anybody involved in education This book provides a necessary framework as it articulates significant questions The first deals with Freire's positions on curriculum planning the second is devoted to the historical development and the character of his perspective on curriculum planning and the third refers to the ways his perspective compares to others as well as to its contemporary value Freire's perspective comes into direct conflict with traditional views on curriculum planning the content of which represents what is perceived as the highest expression of Western civilization Freire also breaks with the dominant perspective of social efficiency on curriculum planning whose main aim is to supply via behavioral objectives the knowledge and skills deemed necessary for the efficient function of the economy and the society treats learners as passive receivers of knowledge and assigns to curriculum a technical character disarticulated from social political or ideological conflicts In addition he does not focus on studying the learner in an abstract or a historical framework nor does he adopt an individualistic interpretation which fetishizes spontaneity In contrast to traditional perspectives on the curriculum Freire provides a fertile ground for teachers and any others who seek to transform

schools and improve student s learning and lives Freedom at Work Maria E. Torres-Guzman,2015-12-03 This book explores the freedom to use the language resources we have at our disposal to learn to our fullest to engage in inquiry about learning and teaching and to go beyond the surface in topics of schooling and education Within a particular school context the author explores how these freedoms came into being how they took shape and what they meant for the individuals involved She shows that the individual and social freedoms in which the teacher and the learner operate within schools are important measures and outcomes of intellectual development In connecting language culture learning and intellectual development as freedoms in her own life the author explores a new way of seeing the role of multiple languages in education and the freedom to learn *Pedagogy of Commitment* Paulo Freire,2015-11-17 This first English translation of *Pedagogy of Commitment* takes readers deep into the acts and meaning of living a life of community and social commitment Paulo Friere discusses how for teachers specifically this commitment is not only to students to the underprivileged or to the education of those who speak a different language but to the transformation of the self to become more deeply responsive to the needs of social transformations More than any other Freire book this speaks directly and plainly to the lives of individuals and to teachers It is an inspiring and passionate call from a global giant of progressive education **Latinization of U.S. Schools** Jason Irizarry,2015-12-03 Fueled largely by significant increases in the Latino population the racial ethnic and linguistic texture of the United States is changing rapidly Nowhere is this Latinisation of America more evident than in schools The dramatic population growth among Latinos in the United States has not been accompanied by gains in academic achievement Estimates suggest that approximately half of Latino students fail to complete high school and few enroll in and complete college The Latinization of U S Schools centres on the voices of Latino youth It examines how the students themselves make meaning of the policies and practices within schools The student voices expose an inequitable opportunity structure that results in depressed academic performance for many Latino youth Each chapter concludes with empirically based recommendations for educators seeking to improve their practice with Latino youth stemming from a multiyear participatory action research project conducted by Irizarry and the student contributors to the text **Changing Lives** Taylor Stoeher,2015-12-22 *Changing Lives* recounts the experiences of a dozen men on probation in Massachusetts who took classes for three months to read and talk about great works of literature The men explored the writings of Malcolm X Leo Tolstoy and Anton Chekhov amongst others In these writings the men discovered many issues relating to their own lives such as substance abuse family breakdown poverty and racism The lessons create a safe space for reflection and earnest conversation in which the students no longer have to bluff or be cool guarded or evasive And because the classroom puts them on equal footing with authority figures teachers probation officers and even judges a new social awareness begins to emerge *Changing Lives* shows how reawakening moral consciousness and a fresh commitment to society is essential if probationers are not to cycle endlessly through the limbo of street life and jail time Culture and Power in the Classroom

Antonia Darder,2015-12-03 This is a timely second edition of the enormously significant book which changed how teachers and community activists view their own practice This edition concludes with personal essays by teachers professors and community activists explaining the direct impact which Culture and Power in the Classroom has had on their lives Unlike many texts that discuss educational failure this book provides a historical context for understanding underachievement in our nation Thoroughly revised to include the new thinking on diversity and learning this edition includes a new chapter on assessment and the brain This second edition will be welcomed by previous and new readers alike and will help influence the approach of a new generation of teachers whether they are based in schools colleges or community centres **School**

abandoning the search for them as futile does not mean junking the Enlightenment's core political goal to deploy the tools of reason and science to fight domination. Democracy is essential to vindicating that goal yet citizens in many democracies are profoundly alienated and many democracies are in danger of failing. Shapiro explains what has gone wrong, debunks ill-considered remedies and spells out better ones, deepening and extending his previous writing on political theory and democratic politics.
