Institutions for Fallen Women, 1838-1910 Susan Woodall, 2023-09-25 Tracing the history of four English case studies this book explores how from outward appearance to interior furnishings the material worlds of reform institutions for fallen women reflected their moral purpose and shaped the lived experience of their inmates Various known as asylums refuges magdalens penitentiaries Houses or Homes of Mercy the goal of such institutions was the moral rehabilitation of unmarried but sexually experienced fallen women Largely from the working classes such women some of whom had been sex workers were represented in contradictory terms Morally tainted and a potential threat to respectable family life they were also worthy of pity and in need of saving from further sin Fuelled by rising prostitution rates from the early decades of the nineteenth century the number of moral reform institutions for fallen women expanded across Britain and Ireland Through a programme of laundry sewing work and regular religious instruction the period of institutionalisation and moral re education of around two years was designed to bring about a change in behaviour readying inmates for economic self sufficiency and re entry into society in respectable domestic service To achieve their goal institutional authorities deployed an array of ritual material religious and disciplinary tools with mixed results *Women of Discriminating Taste* Margaret L.

Freeman, 2020-12-01 *Women of Discriminating Taste* examines the role of historically white sororities in the shaping of white womanhood in the twentieth century As national women s organizations sororities have long held power on college campuses and in American life Yet the groups also have always been conservative in nature and inherently discriminatory selecting new members on the basis of social class religion race or physical attractiveness In the early twentieth century sororities filled a niche on campuses as they purported to prepare college women for ladyhood Sorority training led members to comport themselves as hyperfeminine heterosocially inclined traditionally minded women following a model largely premised on the

mythical image of the southern lady Although many sororities were founded at non southern schools and also maintained membership strongholds in many non southern states the groups adhered to a decidedly southern aesthetic a modernized version of Lost Cause ideology in their social training to deploy a conservative agenda Margaret L Freeman researched sorority archives sorority related materials in student organizations as well as dean of women s student affairs and president s office records collections for historical data that show how white southerners repeatedly called upon the image of the southern lady to support southern racial hierarchies Her research also demonstrates how this image could be easily exported for similar uses in other areas of the United States that shared white southerners concerns over changing social demographics and racial discord By revealing national sororities as significant players in the grassroots conservative movement of the twentieth century Freeman illuminates the history of contemporary sororities difficult campus relationships and their continuing legacy of discriminatory behavior and conservative rhetoric *The Publishers Weekly* ,2009 *The Doctor Who Error Finder* R.H.
