Under Siege Literary Life In London 1939 1945:

Under Siege Robert Hewison,1977 By weaving together social history and literary history the author shows by anecdote and example how writers poets and painters in Britain endured the war Under Siege Robert Hewison,1977 **The Oxford Illustrated History of English Literature** Pat Rogers,2001 Britain possesses a literary heritage virtually unrivaled in the Western world This lavishly illustrated volume explores the richness diversity and continuity of that tradition Under the general editorship of Pat Rogers some of Britain s foremost literary scholars trace the history of English literature from its first stirrings in Anglo Saxon poetry to the present day The contributors aim to convey to the reader the pleasure and exhilaration of literature rather than to provide a bare outline of schools and periods of writing At the heart of the volume towers the figure of Shakespeare who has a special chapter devoted entirely to himself The volume also offer detailed treatments of other major writers such as Chaucer Milton Donne Wordsworth Dickens Eliot and Auden and up to date discussions of living authors such as Muriel Spark and Seamus Heaney More than a mere chronology this versatile work provides a basic core of information and invaluable supplementary material including suggestions for further reading maps a chronological table of dates and a detailed index with birth and death dates of individuals listed It also moves beyond these facts and events to characterize the broad sweep of ideas and the main concerns of British writers over the past thirteen centuries The illustrations chosen thirty five in color and over two hundred in black and white bring to life the content and concerns of the text They range in subject from manuscripts and book illustrations to works of art and architecture portraits social scenes landscapes and caricatures illuminating not only the literature but also the ideas preoccupations and outlooks that fostered it Rather than simply decorating the text the illustrations complement and enlarge it All experts in their chosen areas the contributors bring to this volume a deep understanding and great enthusiasm and zest for their subject Collectively they have woven together the complex strands of English literature into a highly readable narrative **Art and Commerce in the British Short Story, 1880-1950** Dean Baldwin,2015-10-06 The short story was a commercial phenomenon which took off in the late nineteenth century and lasted through to the rise of television and film Baldwin uses a wide variety of sources to show how economic factors helped to dictate how and what a wide variety of authors wrote **Identification Practices in Twentieth-Century Fiction** Rex Ferguson,2021-07-14 The task of identifying the individual has given rise to a number of technical innovations including fingerprint analysis and DNA profiling A range of methods have also been created for storing and classifying people s identities such as identity cards and digital records Identification Practices and Twentieth Century Fiction tests the hypothesis that these techniques and methods as practiced in the UK and US in the long 20th century are inherently related to the literary representation of self identity from the same period Until now the question of who one is in the sense of formal identification has remained detached from the question of who one is in terms of the representation of unique individuality Placing these two questions in dialogue allows for a re evaluation of the various ways

in which uniqueness has been constructed during the period and for a re assessment of the historical and literary historical context of such construction In chapters ranging across the development of fingerprinting the institution of identity cards during the Second World War DNA profiling and contemporary digital surveillance and an analysis of writing by authors including Joseph Conrad Graham Greene Elizabeth Bowen J G Ballard Don DeLillo and Jennifer Egan *Identification Practices and Twentieth Century Fiction* makes an original contribution to the disciplines of English Literature History and Cultural Studies

Culture, Northern Ireland, and the Second World War Guy Woodward, 2015-02-12 *Culture Northern Ireland and the Second World War* explores the impact of the Second World War on literature and culture in Northern Ireland between 1939 and 1970 It argues that the war as a unique interregnum in the history of Northern Ireland challenged the entrenched political and social makeup of the province and had a profound effect on its cultural life Critical approaches to Northern Irish literature and culture have often been circumscribed by topographies of partition and sectarianism but the Second World War generated conditions for reimagining the province within broader European and global contexts These have perhaps been obscured by the amount of critical attention that has been paid to the impact of the Troubles on the culture of the province and for this reason the book focuses on material produced before the flaring of political violence towards the end of the 1960s Drawing on archival research over four chapters the book describes the activities of an eccentric collection of artists and writers during and after the Second World War and considers how the awkward position of the province in relation to the war is reflected in their work
