Aum Shinrikyō and Religious Terrorism in Japanese Collective Memory. Rin Ushiyama,2024-07-19 Aum Shinriky s sarin attack on the Tokyo subway in March 1995 left an indelible mark on Japanese society This is the first book to offer a comprehensive study of the competing memories of Aum Shinriky s religious terrorism Developing a sociological framework for how uneven distributions of power and resources shape commemorative processes this book explores how the Aum Affair developed as a cultural trauma in Japanese collective memory following the Tokyo attack Interrogating an array of sources including mass media reports and interviews with victims and ex members it reveals the multiple clashing narratives over the

causes of Aum's violence the efficacy of brainwashing and mind control and whether capital punishment is justified It shows that although cultural trauma construction requires the use of moral binaries such as good vs evil pure vs impure and sacred vs profane the entrenchment of such binary codes in commemorative processes can ultimately hinder social repair and reconciliation

Border-Crossing Japanese Literature Akiko Uchiyama, Barbara Hartley, 2023-07-21 This collection focuses on metaphorical as well as temporal and physical border crossing in writing from and about Japan With a strong consciousness of gender and socio historic contexts contributors to the book adopt an intercultural and interdisciplinary approach to examine the writing of authors whose works break free from the confines of hegemonic Japanese literary endeavour By demonstrating how the texts analysed step outside the space of Japan they accordingly foreground the volatility of textual expression related to that space The authors discussed include Takahashi Mutsuo and Nagai Kaf both of whom take literary inspiration from geographical sites outside Japan Several chapters examine the work of exemplary border crossing poet novelist and essayist It Hiromi There are discussions of the work of Tawada Y ko whose ability to publish in German and Japanese marks her also as a representative writer of border crossing texts Two chapters address works by Murakami Haruki who although clearly affiliating with western cultural form is rarely discussed in specific border crossing terms The chapter on Ainu narratives invokes topics such as translation indigeneity and myth while an analysis of Japanese prisoner of war narratives notes the language and border crossing nexus A vital collection for scholars and students of Japanese literature
