Understanding And Dismantling Racism The Twenty First Century Challenge To White America Facets:

Understanding and Dismantling Racism Joseph R. Barndt, More than 15 years have passed since Joe Barndt wrote his influential and widely acclaimed *Dismantling Racism* 1991 Augsburg Books He has now written a replacement volume powerful personal and practical that reframes the whole issue for the new context of the twenty first century With great clarity Barndt traces the history of racism especially in white America revealing its various personal institutional and cultural forms Without demonizing anyone or any race he offers specific positive ways in which people in all walks including churches can work to bring racism to an end He includes the newest data on continuing conditions of People of Color including their progress relative to the minimal standards of equality in housing income and wealth education and health He discusses current dimensions of race as they appear in controversies over 9 11 New Orleans and undocumented workers Includes analytical charts definitions bibliography and exercises for readers

Preaching and the Other Ronald J. Allen, 2008-11-01 *Preaching and the Other* introduces the reader to six major themes characteristic of the postmodern era that are important for preaching and explains their implications Themes discussed include perception as interpretation deconstruction otherness transgression pluralism and the importance of apologetics

The Human Paradox Frank Gaffikin, 2023-06-16 In *The Human Paradox Worlds Apart in a Connected World* author Frank Gaffikin probes widely and meticulously into our past and present to analyse the connections between the many acute polarisations that mark contemporary times Addressing profound issues related to Trumpism Brexit the outbreak of Covid 19 and ensuing pandemic and environmental change the book argues that beneath all the present social tumult lies a fundamental dilemma for human stability and progress namely how we can be estranged from what we refer to as humanity The book begins with an appraisal of populism and authoritarian nationalism and later explores whether in our human development we are bound for enhancement or extinction Interrogating these big ideas further the book identifies three central challenges that confront us as a society living on the planet living with the planet and living with one another on the planet These challenges prompt a re think of what it is to be human and social and hinging on these key themes the book thus concludes with consideration of a radical agenda for future social improvement Rather than peering through the conventional lenses offered by separate disciplines this book argues for interdisciplinary appreciation and recognition especially so if we are to address the dilemma at the center of its concern The *Human Paradox* will appeal to readers interested in the major conflicts of our times as well as students of subjects including sociology politics history and economics

Race, Ethnicity and Social Theory John

Solomos,2022-07-01 Race Ethnicity and Social Theory provides a critical analysis of the main areas of scholarly research and debate about racial and ethnic relations over the past few decades The book covers substantive areas of scholarly debate in this fast changing field including race and social relations identities and the construction of the racial other feminism and race the relationship between race and nationalism antisemitism the evolution of new forms of racism race and political representation and more generally the changing debates about race and ethnicity in our global environment The book argues that there is a need for more dialogue across national and conceptual boundaries about how to develop the theoretical tools needed to understand both the historical roots of contemporary forms of racialised social and political relations and the contemporary forms through which race is made and re made A key argument that runs through the book is the need to develop conceptual frameworks that can help us to make sense of the changing forms of racial and ethnic relations in contemporary societies This means developing more dialogue across national research cultures as well as empirical research that seeks to engage with the key issues raised by contemporary theoretical debates The book will be of interest to both students wanting to develop a deeper understanding of this area of scholarship and to researchers of race ethnicity and migration working in various national and disciplinary environments

Deconstructing Racism Barbara Crain

Major,Joseph Barndt,2023-01-10 Barbara Crain Major and Joseph Barndt bring ninety combined years of experience as community organizers teachers and anti racism trainers in community and church settings to this book In Deconstructing Racism they propose the deconstruction of racism s roots within systems and institutions that have been created both structurally and legally to serve white people The authors propose that the deconstruction of racism must take place through the reconstruction of these systems and institutions The authors seek to unmask the complexities of racism and the invisible patterns that keep it in place There is no quick fix but they believe racism can be deconstructed and undone In order to do this they identify and address race based identity history and cultural issues rooted in current systems Three chapters specifically address societal systems and provide anti racism strategies for community organizers Three chapters address racism as rooted in systems in the church and challenge people of faith to seek racial healing through understanding honest confession true reconciliation and reconstructed church institutions A final chapter outlines a way forward to and through a

new era of anti racist reconstruction This way forward includes a new anti racist mission statement a new model of decision making power and new processes for accountability **Whitaker's Books in Print** ,1998 **Subject Guide to Books in Print** ,1991 **Dismantling Racism** Joseph R.
