Crime and Justice, Volume 52 Michael Tonry, 2024-01-15 Volume 52 is an annual survey of cutting edge issues by preeminent criminology scholars Since 1979 Crime and Justice has presented a review of the latest international research providing expertise to enhance the work of sociologists psychologists criminal lawyers justice scholars and political scientists The series explores a full range of issues concerning crime its causes and its cures In both the review and the thematic volumes Crime and Justice offers an interdisciplinary approach to address core issues in criminology **Understanding and Preventing Violence: Consequences and control** National Research Council (U.S.). Panel on the Understanding and Control of Violent Behavior, 1993 This volume examines social influences on violent events and violent behavior particularly concentrating on how the risks of violent criminal offending and victimization are influenced by communities social situations and individuals the role of spouses and intimates the differences in violence levels between males and females and the roles of psychoactive substances in violent events **Handbook of Psychological Approaches with Violent Offenders** Vincent B. Van Hasselt, Michel Hersen, 2013-11-11 The past quarter century has witnessed a dramatic upsurge of violent crime in the United States and abroad In this country the rise in violent criminal activity has been consistently documented in such published accounts as the Uniform Crime Reports and the Statistical Handbook on Violence in America published by the FBI

and the Violence Research Group respectively. Further social scientists particularly those working in the fields of sociology and psychology have provided a convergence of findings attesting to the magnitude of one of today's most significant social problems: domestic violence e.g. spouse, child and elder abuse. Such efforts have served as the impetus for heightened clinical and investigative activity in the area of violent behavior. Indeed a wide range of mental health experts such as psychologists, psychiatrists, social workers, counselors and rehabilitation specialists have endeavored to focus on strategies and issues in research and treatment for violent individuals and their victims. The purpose of this book is to provide a comprehensive and timely examination of current psychological approaches with violent criminal offenders. Despite the fact that we continue to have much to learn about perpetrators of violent acts, in recent years an increasingly large body of empirical data have been adduced about this year's issue. However these data generally have appeared in disparate journals and books. That being the case it is our belief that such a handbook now is warranted.

PARENTAL ADVOCACY D. Robert Kennedy and S. June Kennedy, 2009-03-13 The plea being made in Parental Advocacy is for parents to seek to understand the seriousness of their roles as parents and regardless of their preferences to consider as of first importance the impact of their action on the lives of their children. *Criminal Justice 2000*, 2000

The Process and Structure of Crime Robert F. Meier, Leslie W. Kennedy, Vincent F. Sacco, 2018-04-24 Criminology has developed strong methodological tools over the past decades establishing itself as a competitive, sophisticated and independent social science. Perhaps because of its emphasis on matters of design, methodology and quantitative analysis, criminology has had few significant advances in theory. *Advances in Criminological Theory* is the first series exclusively dedicated to the dissemination of original work on criminological theory. *The Process and Structure of Crime*, the ninth volume in this landmark series, is a thorough overview of the conceptual and empirical issues raised by the adoption of a criminal event perspective which takes into account the multifaceted character of human behavior. This book is divided into three sections: conceptual bases of criminal events, the criminal event perspective itself and responses to criminal events. Contributors analyze and explore a wide range of topics including how interpersonal routines are structured through past experience, the influence of social context on interpersonal routines, criminal opportunity and its impact on criminal events, the significance of neighborhood context, the effect of victimization and fear, how problem-oriented policing efforts need to be informed by and reflect the problems of repeat offenders, repeat victims and hot spots of crime, and finally how changes in the physical environment constrain or limit criminal opportunities. This fascinating work will be beneficial to criminologists, sociologists and scholars of legal studies. Contributors to this volume include Leslie W. Kennedy, Erin Gibbs, Van Brunschot, Robert F. Meier, Mark Warr, Christopher Birkbeck, Luis Gerardo Gabaldon, Kriss A. Drass, Terance D. Miethe, Julie Horney, Jeffrey Fagan, Deanna L. Wilkinson, Robert J. Buskirk Jr., Vincent F. Sacco, Ross Macmillan, John E. Eck, Paul J. Brantingham and Pat Brantingham.

When Crime Appears Jean McGloin, Christopher Sullivan, Leslie Kennedy, 2011-10-19 In recent years the idea of emergence, which suggests that observed patterns in behavior and events are not fully reductive

and stem from complex lower level interactions has begun to take hold in the social sciences Criminologists have started to use this framework to improve our general understanding of the etiology of crime and criminal behavior When Crime Appears The Role of Emergence is concerned with our ability to make sense of the complex underpinnings of the end stage patterns and events that we see in studying crime and offers an early narrative on the concept of emergence as it pertains to criminological research Collectively the chapters in this volume provide a sense of why the emergence framework could be useful outlines its core conceptual properties provides some examples of its potential application and presents some discussion of methodological and analytic issues related to its adoption
