Trees In The Religions Of Early Medieval England Anglo Saxon Studies:

Trees in the Religions of Early Medieval England Michael D. J. Bintley, 2015 Drawing on sources from archaeology and written texts the author brings out the full significance of trees in both pagan and Christian Anglo Saxon religion Trees and Timber in the Anglo-Saxon World Michael D. J. Bintley, Michael G. Shapland, 2013-10-03 Trees were of fundamental importance in Anglo Saxon society Anglo Saxons dwelt in timber houses relied on woodland as an economic resource and created a material culture of wood which was at least as meaningfully imbued and vastly more prevalent than the sculpture and metalwork with which we associate them today Trees held a central place in Anglo Saxon belief systems which carried into the Christian period not least in the figure of the cross itself Despite this the transience of trees and timber in comparison to metal and stone has meant that the subject has received comparatively little attention from scholars Trees and Timber in the Anglo Saxon World constitutes the very first collection of essays written about the role of trees in early medieval England bringing together established specialists and new voices to present an interdisciplinary insight into the complex relationship between the early English and their woodlands The woodlands of England were not only deeply rooted in every aspect of Anglo Saxon material culture as a source of heat and light food and drink wood and timber for the construction of tools weapons and materials but also in their spiritual life symbolic vocabulary and sense of connection to their beliefs and heritage These essays do not merely focus on practicalities such as carpentry techniques and the extent of woodland coverage but rather explore the place of trees and timber in the intellectual lives of the early medieval inhabitants of England using evidence from archaeology place names landscapes and written sources **Global Perspectives on Early Medieval England** Debby Banham, 2022 Interrogations of materiality and geography narrative framework and boundaries and the ways these scholarly pursuits ripple out into the wider cultural sphere Early medieval England as seen through the lens of comparative and interconnected histories is the subject of this volume Drawn from a range of disciplines its chapters examine artistic archaeological literary and historical artifacts converging around the idea that the period may not only define itself but is often defined from other perspectives specifically here by modern scholarship The first part considers the transmission of material culture across borders while querying the possibilities and limits of comparative and transnational approaches taking in the spread of bread wheat the collapse of the art historical decorative and functional and the unknowns about daily life in an early medieval English hall The volume then moves on to reimagine the permeable boundaries of early medieval England with perspectives from the Baltic Byzantium and the Islamic world including an examination of Vercelli Homily VII from John Chrysostom's Greek Homily XXIX Heron ibn Ya'y's Arabic descriptions of Bar Niyah Britain and an consideration of the Old English Orosius The final chapters address the construction of and responses to Anglo Saxon narratives past and present they look at early medieval England within a Eurasian perspective the historical origins of racialized Anglo Saxonism's and views from Oceania comparing Hiberno Saxon and Anglican Melanesian missions as well as

contemporary reactions to exhibitions of Anglo Saxon kingdoms and Pacific Island cultures Contributors Debby Banham Britton Elliott Brooks Caitlin Green Jane Hawkes John Hines Karen Louise Jolly Kazutomo Karasawa Carol Neuman de Vegvar John D Niles Michael W Scott Jonathan Wilcox *Bishop Æthelwold, His Followers, and Saints' Cults in Early Medieval England* Alison Hudson, 2022 An exploration of how thelwald and those he influenced deployed the promotion of saints to implement religious reform Bishop thelwald of Winchester and his associates were some of the most radical monastic reformers in tenth century Europe In two generations they took over most of the powerful churches in the kingdom of England and implemented a number of the policies found in their ambitious monastic manifestos They also had a major impact on the early development of the kingdom itself taking a role in the establishment of a shire system that lasted a thousand years negotiations with invaders and attempts to create a standardized English language thelwald and his circle were also enthusiastic venerators of saints This book examines a range of sources from hagiographies to charters from liturgy to archaeological remains to argue that saints cults helped these men and women secure their power wealth and relationships with groups outside their monasteries The saints that thelwald's circle promoted most lavishly were not necessarily the ones that they studied or the ones that matched their ideological agenda Rather thelwald's monks and nuns connected themselves to a wide range of saints including the Virgin Mary St Swithun thelthryth of Ely Iudoc Grimbald Botulf Cuthbert and many others Venerating these saints helped thelwald and his followers appeal to other groups in society including unreformed ecclesiastics lay nobles and the workers on their estates This book therefore not only has implications for the study of early English history and literature but also for the history of western European monasticism and saints cults more generally *Strangers at the Gate! Multidisciplinary Explorations of Communities, Borders, and Othering in Medieval Western Europe*, 2022-04-11 This volume showcases a range of different approaches to strangers and strangeness across medieval western Europe It focuses on how communities responded to the arrival of strangers and to different ways in which individuals and groups were constructed as estranged Further it reflects on different forms of border crossing from lived experience to literary imagination and from specific journeys in precise contexts to the conceptualisation of the shift from life to death In the range of its contributions applying linguistic historical archaeological architectural archival literary and theological analyses it seeks to bring together disciplines and geographical areas of study that are too often strangers to one another in medieval studies Contributors are Sherif Abdelkarim Anna Adamska Adrien Carbonnet Wim De Clercq Florian Dolberg Joshua S Easterling Susan Irvine Marco Mostert Richard North James Plumtree Euan McCartney Robson Beatrice Saletti Simon C Thomson and Gerben Verbrugghe ***Priests and Their Books in Late Anglo-Saxon England*** Gerald P. Dyson, 2019 Fresh perspectives on the English clergy their books and the wider Anglo Saxon church *Winters in the World* Eleanor Parker, 2023-07-25 Interweaving literature history and religion an exquisite meditation on the turning of the seasons in medieval England now in paperback *Winters in the World* is a beautifully observed journey through the cycle of the year in

Anglo Saxon England exploring the festivals customs and traditions linked to the different seasons Drawing on a wide variety of source material including poetry histories and religious literature Eleanor Parker investigates how Anglo Saxons felt about the annual passing of the seasons and the profound relationship they saw between human life and the rhythms of nature Many of the festivals celebrated in the United Kingdom today have their roots in the Anglo Saxon period and this book traces their surprising history while unearthing traditions now long forgotten It celebrates some of the finest treasures of medieval literature and provides an imaginative connection to the Anglo Saxon world Wolves in Beowulf and Other Old English Texts Elizabeth Marshall,2022 A fresh and sympathetic investigation of the depiction of wolves in early medieval literature recuperating their reputation The best known wolves of Old English literature are the Beasts of Battle alongside ravens and eagles as ravenous heralds of doom who haunt the battlefield in the hope of fresh meat plucked from still warm bodies Yet to reduce these animals to mere corpse scavengers is to deny that they are frequently imbued with a variety of far more nuanced meanings elsewhere in the corpus Two such meanings are inherited from ancient and medieval European lupine motifs the superstition that the wolf could steal a person s speech and the perceived contiguous natures of wolves and human outlaws Tracing the history of these associations and the evidence to suggest that they were known to writers working in early medieval England this book provides new animal centric readings of Wulf and Eadwacer Abbo of Fleury and Ifric s *Passiones Eadmundi* and *Beowulf* placing these texts within a lupine literary network that transcends time and place By exploring the intricate contradictory and even sympathetic depictions of the wolves and wolf like entities found within these texts this book banishes all notions of the medieval wolf as the one dimensional man eating creature that it is so often understood to be *The Ruthwell Cross and its Texts* Kerstin Majewski,2022-10-24 The Ruthwell Cross is one of the finest Anglo Saxon high crosses that have come down to us The longest epigraphic text in the Old English Runes Corpus is inscribed on two sides of the monument it forms an alliterative poem in which the Cross itself narrates the crucifixion episode Parts of the inscription are irrevocably lost This study establishes a historico cultural context for the Ruthwell Cross s texts and sculptures It shows that The Ruthwell Crucifixion Poem is an integral part of a Christian artefact but also an independent text Although its verses match closely with lines of The Dream of the Rood in the Vercelli Book a comparative analysis gives new insight into their complex relationship An annotated transliteration of the runes offers intriguing information for runologists Detailed linguistic and metrical analyses finally yield a new reconstruction of the lost runes All in all this study takes a fresh look at the Ruthwell Cross and provides the first scholarly edition of the reconstructed Ruthwell Crucifixion Poem one of the earliest religious poems of Anglo Saxon England It will be of interest to scholars and students of historical linguistics medieval English literature and culture art history and archaeology Stasis in the Medieval West? Michael D.J. Bintley,Martin Locker,Victoria Symons,Mary Wellesley,2017-05-16 This volume questions the extent to which Medieval studies has emphasized the period as one of change and development through reexamining aspects of the medieval

world that remained static The Medieval period is popularly thought of as a dark age before the flowerings of the Renaissance ushered a return to the wisdom of the Classical era However the reality familiar to scholars and students of the Middle Ages that this was a time of immense transition and transformation is well known This book approaches the theme of stasis in broad terms with chapters covering the full temporal range from Late Antiquity to the later Middle Ages Contributors to this collection seek to establish what remained static continuous or ongoing in the Medieval era and how the period s political and cultural upheavals generated stasis in the form of deadlock nostalgia and the preservation of ancient traditions
