Requirements for a Rural Health Center Cari Borrás, 2016-11-05 This book presents the patient management challenges that
rural health centers face and establishes the criteria for the type of medical imaging services that should be available in such
facilities To make the work of the center s health practitioners more effective and efficient the book assesses what health
conditions may require medical attention in those centers Information is provided on how to use basic imaging modalities
such as radiography and ultrasound emphasizing the need for thoughtful service planning careful equipment and imaging
protocol selection continuous staff training and the implementation of quality control programs The book is also a valuable
resource for those physicians medical physicists and service engineers who provide virtual and physical consultations to meet
these needs Rural health centers are established to prevent patients from being forced to travel to distant urban medical
facilities To manage patients properly rural health centers should be part of regional and more complete systems of medical
health care installations in the country on the basis of a referral and counter referral program Thus the centers should have
the infrastructure needed to transport patients to urban hospitals when they need more complex health care The
coordination of all the activities is possible only if rural health centers are led by strong and dedicated managers Renal

Failure and Replacement Therapies Sara Blakeley, 2010-05-06 Increased recognition of the overlap between critical care and renal medicine and recent advances in the understanding of acute renal failure and the application of renal replacement therapies have brought increased attention to the nephrologist's role in the intensive care unit ICU. This book is written to provide an approach for the resident in nephrology at any level of training with regards to critically ill patients. This text provides the information necessary to provide care for the nephrology patient in the ICU.
