Un Peacekeeping Myth And Reality Praeger Security International:

UN Peacekeeping Andrzej Sitkowski, 2006-10-30 In this book Andrzej Sitkowski confronts two basic peacekeeping myths First the belief that peacekeeping is separate from peace enforcement blurs this difference and undermines the viability of peacekeeping operations Secondly it is widely believed that the peacekeepers are allowed to apply force only in self defense and lack the authorization to use it in defending UN Security Councils mandates Solidly anchored in official primary sources originating from the UN national governments parliamentary inquiries Dutch French and Belgian and from the International Criminal Tribunal on Rwanda this book integrates the most recent recommendations related to peacekeeping It exposes how the UN peacekeeping syndrome of soldiers safety first crept into the NATO s strategy and compromises its missions in Kosovo and Afghanistan The peacekeeping system has largely outlived its usefulness and is bound to fail when applied to currently predominant violent and messy conflagrations Lacking radical changes in that system the UN should disarm restricting the peacekeeping to military observers missions and to subcontracting other operations out to military alliances and regional organizations The widely lamented massacres of innocent civilians under UN Peacekeeper eyes in Rwanda Srebrenica and the Congo influenced neither the UN s approach nor the analysis of the methods In this book Andrzej Sitkowski confronts two basic peacekeeping myths First the belief that peacekeeping is distinct from peace enforcement blurs this distinction and undermines the viability of peacekeeping operations In fact it is the UN s definition of self defense which is understood to include actions of troops against forceful obstructions to discharging their mandates that confuses the issue Nevertheless that distinction remains a cornerstone of the UN doctrine Secondly it is widely believed that the peacekeepers are allowed to apply force only in self defense and lack the authorization to use it in defending UN Security Councils mandates This myth persists even in cases when the UN Security Council undertakes explicit authorization to enforce specific goals of the mandate Sitkowski offers a critical re appraisal of the fundamental principles of peacekeeping including both the largest successes Namibia and worst disasters Rwanda Drawing heavily on personal accounts the book is solidly anchored in official primary sources originating from the UN national governments parliamentary inquiries Dutch French and Belgian and from the International Criminal Tribunal on Rwanda It integrates the most recent recommendations related to peacekeeping originating from High Level Panels and endorsed by Kofi Annan Finally it exposes how the UN peacekeeping syndrome of soldiers safety first crept into the NATO s strategy and compromises its missions in Kosovo and Afghanistan

The United Nations and Changing World Politics Thomas G. Weiss, 2019-10-22 This completely revised and updated eighth edition serves as the definitive text for courses in which the United Nations is either the focus or a central component Built around three critical themes in international relations peace and security human rights and humanitarian affairs and sustainable human development the eighth edition of *The United Nations and Changing World Politics* guides students through the seven turbulent decades of UN politics This new edition is fully revised to incorporate

recent developments on the international stage including new peace operations in Mali and the Central African Republic ongoing UN efforts to manage the crises in Libya Syria and Iraq the Iran Nuclear Deal and the new Sustainable Development Goals The authors discuss how international law frames the controversies at the UN and guides how the UN responds to violence and insecurity gross violations of human rights poverty underdevelopment and environmental degradation Students of all levels will learn that the UN is a complex organization comprised of three interactive entities that cooperate and also compete with each other to define and advance the UN's principles and purposes

Peacekeeping and the African Union Jude Cocodia, 2017-09-27 This book offers a detailed examination of the effectiveness of the peacekeeping operations of the African Union Despite its growing reputation in peacekeeping and its status as the oldest continental peacekeeper the performance of the African Union AU has hitherto not been assessed This book fills that gap and analyses six case studies Burundi Comoros Somalia Mali Darfur and the Central African Republic From a methodological perspective it takes a problem solving approach and utilises process tracing in its analysis with its standard for success resting on achieving negative peace the cessation of violence and provision of security Theoretically this study offers a comprehensive list of factors drawn from peace literature and field experience which influence the outcome of peacekeeping Beyond the major issues such as funding international collaboration and mandate this work also examines the impact of largely ignored factors such as force integrity and territory size The book modifies the claim of peace literature on what matters for success and advocates the indispensability of domestic elite cooperation local initiative and international political will It recognises the necessity of factors such as lead state and force integrity for certain peace operations In bringing these factors together this study expands the peacekeeping debate on what matters for stability in conflict areas This book will be of much interest to students of peacekeeping African politics war and conflict studies and International Relations in general

Protecting Civilians Siobhán Wills, 2009-02-26 Historical review of civilian protection by UN peacekeepers The extent to which peacekeeping and other multi national forces have a general responsibility to protect under international humanitarian law The extent to which peacekeeping and other multi national forces have a general responsibility to protect under international human rights law The applicability of occupation law to peacekeeping and other multi national operations Implications for peacekeepers and other multi national forces

UN Peacekeeping Andrzej Sitkowski, 2006-10-30 The UN peacekeeping system has largely outlived its usefulness and is bound to fail when applied to currently predominant violent and messy conflagrations Lacking radical changes in that system the UN should disarm restricting the peacekeeping to military observers missions and to subcontracting other operations out to military alliances and regional organizations The widely lamented massacres of innocent civilians under UN Peacekeeper eyes in Rwanda Srebrenica and the Congo influenced neither the UN's approach nor the analysis of the methods In this book Andrzej Sitkowski confronts two basic peacekeeping myths First the belief that peacekeeping is distinct from peace enforcement blurs this distinction and undermines the

viability of peacekeeping operations In fact it is the UN s definition of self defense which is understood to include actions of troops against forceful obstructions to discharging their mandates that confuses the issue Nevertheless that distinction remains a cornerstone of the UN doctrine Secondly it is widely believed that the peacekeepers are allowed to apply force only in self defense and lack the authorization to use it in defending UN Security Councils mandates This myth persists even in cases when the UN Security Council undertakes explicit authorization to enforce specific goals of the mandate *Holding UNPOL to Account* Ai Kihara-Hunt,2017-03-06 Ai Kihara Hunt s *Holding UNPOL to Account* Individual Criminal Accountability of United Nations Police Personnel analyzes whether the mechanisms that address criminal accountability of United Nations police personnel serving in peace operations are effective and if there is a problem how it can be mitigated The volume reviews the obligations of States and the UN to investigate and prosecute criminal acts committed by UN police and examines the jurisdictional and immunity issues involved It concludes that these do not constitute legal barriers to accountability although immunity poses some problems in practice The principal problem appears to be the lack of political will to bring prosecutions as well as a lack of transparency which makes it difficult accurately to determine the scale of the problem *Issues in Peace and Conflict Studies* CQ Researcher,2010-10-12 Do nation states have a Responsibility to Protect Can countries heal after atrocities Who should clean up after conflicts end These questions and many more are at the heart of peace and conflict studies This collection aims to promote in depth discussion facilitate further research and help readers formulate their own positions on crucial issues It is intended to be a supplement for courses in peace and conflict studies that are offered in departments of psychology sociology anthropology political science and across all social science disciplines About CQ Researcher Readers In the tradition of nonpartisanship and current analysis that is the hallmark of CQ Press CQ Researcher readers investigate important and controversial policy issues Offer your students the balanced reporting complete overviews and engaging writing that CQ Researcher has consistently provided for more than 80 years Each article gives substantial background and analysis of a particular issue as well as useful pedagogical features to inspire critical thinking and to help students grasp and review key material A pro con box that examines two competing sides of a single question A detailed chronology of key dates and events An annotated bibliography that includes Web resources An outlook section that addresses possible regulation and initiatives from Capitol Hill and the White House over the next 5 to 10 years Photos charts graphs and maps **Public Information Strategies in UN Peacekeeping Operations** Roni Wadie Abusaad,2008 American Book Publishing Record ,2006 Bibliographie Mensuelle United Nations Library (Geneva, Switzerland),2007 The United Nations and United States Security Policy Ruth B.
