

"In the vast wasteland that most assume the blogosphere to be, Becker and Posner's work is a gem. Authentic, responsive, and enormously fun, it should be read both in real time, and in the reflection of a published work."

LAWRENCE LESSIG

"If Becker has a single guiding principle, it is that the economic way of looking at behaviour applies more broadly than originally thought, and people make rational choices about crime, marriage, parenthood, education, even drug addiction. . . . After initial fierce resistance within the profession, and equally fierce support from Chicago school giants such as Milton Friedman, Becker is now regarded as one of the most influential economists of the 20th century—arguably, the most influential of all."

TIM HARFORD, FINANCIAL TIMES

"For sheer intimidating cerebral megahertz, Posner has few rivals on the bench—or anywhere else, for that matter. . . . His books and writings make him, by a wide margin, the most frequently cited legal scholar of the past half-century."
