Uncommon Bond Julia Rose:

Marse H. D. Kirkpatrick, 2022-02-15 Marse A Psychological Portrait of the Southern Slave Master and His Legacy of White Supremacy focuses on the white men who composed the antebellum southern planter class in the period of 1830-1861. This book is a psychological autopsy of the minds and behaviors of enslavers that helps explain the enduring roots of white supremacy and the hidden wound of racist slavery that continues to affect all Americans today. Marse details and illustrates examples of the psychological mechanisms by which southern slave masters justified owning another human being as property and how they formed a society in which enslavement was morally acceptable. Kirkpatrick uses forensic psychology to analyze the personality formation, defense mechanisms, and psychopathologies of slave masters. Their delusional beliefs and assumptions about Black Africans extended to a forceful cohort of white slaveholding women as well as how they twisted Christianity to promote slavery as a positive good. He examines the masters' stresses and fears and how they coped by developing psychologically fatal, slavery-specific defense mechanisms. Utilizing sources such as the vast treasure trove of slavery historiography, diaries, letters, autobiographies, and sermons, Marse describes the ways in which slaveholders created a delusional worldview that sanctioned cruel instruments of punishment and implemented laws and social policies of domination used to rob Blacks of their human rights. The seismic shift in race relations our nation is experiencing right now makes this book timely as it will advance our understanding of the South's self-defeating romance with racist slavery and its latent and chronic effects. The parallels between the psychology of antebellum slaveholding and today's racism are palpable.

The Uncommon Bond of Julia and Rose Ann Williams, 2015-12-02 In 1860 Julia Henderson made her will directing that her slave Rose not be sold like a brute beast, a feeble attempt to atone for the shame she bore for letting tragedy come to Rose's family. Sin she would carry to her grave, Julia then decided to keep a memory journal beginning with childhood when she woke one morning to find her father sobbing, her dead mother cradled in his arms. A slave with cheerful little Rose in tow was moved into their home to care for Julia and her brothers. Julia was charmed by Rose, and their half-century of near-sisterhood began. Rose also began to write a journal as a child she had learned to write in Julia's play school. The novel unfolds in the form of those interwoven journals relating many of their shared experiences, nuanced differently by each writer. Julia adores Rose, abhors slavery, but is oblivious to her own biases. Rose returns Julia's affection with reservations; she detests being property and having no say so over her life. The gnarly hands of slavery encumbered them both. Both Julia and Rose were born at the turn of the 19th century on a small farm where slavery, although demeaning, was paternalistic rather than cruel. By 1860 they were living on a large cotton plantation and writing against a background of unrest, political turmoil, and rumors of impending war. By then, cruelty toward slaves spawned by hate and fear abounded, and laws supporting the peculiar institution had become nearly draconian. The journals, each in its writer's distinctive voice, tell of childhood, marriages, raising children, family separations, and deaths of loved ones. They write about the people in their lives, endearing characters, quirky
