**Under the Radar** William M. Easum, William Tenny-Brittian, 2005 A tour of the nontraditional churches whose ministries are transforming the face of Christianity in North America In recent years a huge crack has opened up between established traditional churches and an emerging group of emerging congregations that are identifying the spiritual longings of contemporary culture and are willing to go far out on the limb to address those longings These congregations most of which fly under the radar of the established church are recreating the religious landscape of North America Those of us who don t know about them soon will All leaders of Christian congregations would do well to listen to their distinctive witness and learn from it *The Writers Directory* ,2013

**Being the Body of Christ in the Age of Management** Lyndon Shakespeare, 2016-08-26 The church needs effective leaders We must be more missional Better organization is required Such sentiments are commonplace among Christians concerned with the health and sustainability of their local church as well as the church universal Over the past thirty years the desire for more efficiently run effectively led and organizationally sound churches has contributed to an approach to thinking about the church in terms uncritically assumed from the business and management sector This has given rise to treating the church as if it were just another social body in need of better organization The question is what happens when we apply the logic of management techniques to an organization that identifies as the body of Christ Drawing on organizational theory theological anthropology and sacramental theology this book navigates a path for Christians that avoids reducing the church to just another organization while providing a vision for the church as the social body where all are invited to connect and be made members of Christ and each other Such a vision provides an alternative to the social categorization that would define the church by its organizational character rather than its eschatological destiny [The Pickled Priest and the Perishing Parish](#) Hal West, 2016-10-12 Just as baby boomers comprise the largest generation in Americas history they also represent the largest percentage of current senior pastors in American churches Boomer pastors all over the country are struggling to transition from their roots in twentieth century church culture to ministry and leadership in our challenging twenty first

century and this transition must take place for traditional churches to be a relevant factor in world redemption. In *The Pickled Priest and the Perishing Parish: Boomer Pastors Bouncing Back*, Senior Pastor Hal West himself a baby boomer offers essential insights and words of inspiration for pastors, leaders, and Christians who desire to see renewal and transformation in their churches in America and in themselves. The challenges facing traditional churches and the boomer pastors who lead them are many, not the least of which are pastors' ensconced perspective of their own spiritual formation, theological training, and experience. In his unique conversational and at times humorous tone, Pastor Hal West first offers proof through his own pickled perspective and then explores with help from the lessons of biblical prophets like Isaiah and Nehemiah how boomer pastors can and must bounce back. Change is challenging but in our day of cultural conflict, political corruption, and spiritual crisis, change is imperative. It falls to church leaders regardless of their decades of experience in ministry and leadership to approach transformation with an open mind and provide guidance, vision, and restoration to their churches and the souls they serve.

*Noticing God* Richard Peace, 2012-05-25 Where is God? How do we encounter God? How do we know it is God we encounter and not some figment of our imagination? Is it possible to know God in some sort of relational way? Richard Peace believes it is. But it requires a certain level of awareness, a certain discipline of the heart. Peace calls it the spiritual discipline of noticing God. In this book, he unpacks what it means to make a conscious practice of noticing God in daily life. He explores the various ways people experience and recognize God's presence, including mystical encounters, ordinary daily life within our hearts, through other people, through Scripture, nature, and the church. Throughout, he returns to the question of discernment, helping you understand how you can know that it is indeed God you are meeting in each of these places, not just some fanciful figment of the imagination. God is deeply present in our world, and you can actually encounter him. Here's how.

***Treatise on Geomorphology***, 2013-02-27 The changing focus and approach of geomorphic research suggests that the time is opportune for a summary of the state of discipline. The number of peer-reviewed papers published in geomorphic journals has grown steadily for more than two decades, and more importantly, the diversity of authors with respect to geographic location and disciplinary background (geography, geology, ecology, civil engineering, computer science, geographic information science, and others) has expanded dramatically. As more good minds are drawn to geomorphology and the breadth of the peer-reviewed literature grows, an effective summary of contemporary geomorphic knowledge becomes increasingly difficult. The fourteen volumes of this *Treatise on Geomorphology* will provide an important reference for users from undergraduate students looking for term paper topics to graduate students starting a literature review for their thesis work, and professionals seeking a concise summary of a particular topic. Information on the historical development of diverse topics within geomorphology provides context for ongoing research.
