made her characters move in time and in space and she has always shown a sophisticated interest in narrative forms and this is the first book to focus entirely on these central concerns The writers of the essays provide different perspectives on the three subjects from postmodernism to quantum physics queer theory to genre studies and the uncanny to stylistics In its section on time and narrative the volume offers a fresh approach to Winterson s works with a concentration on autobiographical elements love desire the language of quantum physics and the queer uncanny The next section space and narrative pursues the motifs of journeys utopic spaces cyberspace and labyrinths and includes a chapter on the shorter fiction The last section which comprises essays that cover all three elements of time space and narrative equally examines these themes as they affect Winterson s representation of voices and corporeality and her use of romance narrative in the children s fiction The volume covers Winterson s major fiction with the Introduction connecting the images of huts rivers and fire gazing that are found extensively in her works to the themes of time and space and bringing the discussion up to Winterson s latest novel *The Stone Gods* A mixture of established and new scholars presents in this book an exciting array of the latest ideas on this respected and popular writer
