

To the Table

*A Spirituality of Food, Farming,
and Community*

Lisa Graham McMinn

To The Table A Spirituality Of Food Farming And Community

Mary E. McGann

To The Table A Spirituality Of Food Farming And Community:

To the Table Lisa Graham McMinn, 2015-12-29 With the growing farm to table movement and popularity of local farmers markets we are becoming more conscious of where our food originates This spirituality of eating and food helps us reflect on current realities and understand how eating forms our souls inwardly upwardly and outwardly The author offers practical guidance on what it means to eat alone or in community with more intention compassion humility and gratitude She also tells the story of food as it transitions from seed to table Sidebars contain gardening and food tips recipes and food preservation guides End of chapter questions for individual and group use are included **The Meal That Reconnects** Mary E. McGann, 2020-03-03 2021 Catholic Media Association Award first place award in Catholic Social Teaching In *The Meal That Reconnects* Dr Mary McGann RSCJ invites readers to a more profound appreciation of the sacredness of eating the planetary interdependence that food and the sharing of food entails and the destructiveness of the industrial food system that is supplying food to tables globally She presents the food crisis as a spiritual crisis a call to rediscover the theological ecological and spiritual significance of eating and to probe its challenge to Christian eucharistic practice Drawing on the origins of Eucharist in Jesus's meal fellowship and the worship of early Christians McGann invites communities to reclaim the foundational meal character of eucharistic celebration while offering pertinent strategies for this renewal

Transhumanism and the Image of God Jacob Shatzer, 2019-04-09 Examining the transhumanist movement biblical ethicist Jacob Shatzer grapples with the potential for technology to transform the way we think about what it means to be human Exploring the doctrine of incarnation and topics such as artificial intelligence robotics medical technology and communications tools he guides us into careful consideration of the future of Christian discipleship in a disruptive technological environment The Science of Virtue Mark R. McMinn, 2017-08-22 The church and science have drifted apart over the past century Today the church is often deemed irrelevant by those who trust science and science is often deemed irrelevant by those whose primary loyalties are to the church However this book shows that the new science of virtue the field of positive psychology can serve as a bridge point between science and the church and can help renew meaningful conversation In essence positive psychology examines how ordinary people can become happier and more fulfilled Mark McMinn clarifies how positive psychology can complement Christian faith and promote happiness and personal flourishing In addition he shows how the church can help strengthen positive psychology McMinn brings the church's experience and wisdom on six virtues humility forgiveness gratitude grace hope and wisdom into conversation with intriguing scientific findings from positive psychology Each chapter includes a section addressing Christian counselors who seek to promote happiness and fulfillment in others *Stewarding Our Bodies* Perry L. Glanzer, Austin T. Smith, 2023-06-05 Most college students struggle tremendously with their bodies Numerous issues related to the body plague higher education Students struggle with sleep mental health eating disorders sexual identity questions clothing choices obesity and alcohol problems

among other concerns Too often Christian colleges try to meet these challenges with rules instead of setting forth a vision of what it means to steward the body a precious gift from God that has been bought with a price by Christ Students faculty and staff at faith based institutions need a theological framework and biblical wisdom by which they can better understand nurture and celebrate life in all its fullness Stewarding Our Bodies draws from the expertise and experiences of researchers and practitioners both within and outside higher education to provide relevant insights and suggestions for those who desire to help students better bear God s image Most important of all it sets forth a positive vision by which to understand the precious gift God has entrusted to us our bodies The Year of Small Things Sarah Arthur,Erin F. Wasinger,2017-01-31

When Sarah and Tom Arthur were appointed to a suburban church after three years in an urban Christian community they faced a unique challenge how to translate the practices of radical faith into their new context Together with their friends and fellow church members Erin and Dave Wasinger the Arthurs embarked on a yearlong experiment to implement twelve small practices of radical faith not waiting until they were out of debt or the kids were out of diapers or God sent them elsewhere but right now This book is Sarah and Erin s story told with humor theological reflection and practical insight exploring such practices as simplicity hospitality accountability sustainability and social justice but most of all discernment Along the way readers will consider how God might be calling them to embark on their own year of small but radical changes right where God has planted them Each chapter includes discussion questions and suggested readings Foreword by Jonathan Wilson Hartgrove For more information visit [www YearofSmallThings com](http://www.YearofSmallThings.com) [http www YearofSmallThings com](http://www YearofSmallThings com) **International**

Handbook of Practical Theology Birgit Weyel,Wilhelm Gräb,Emmanuel Larrey,Cas Wepener,2022-09-06 Practical theology has outgrown its traditional pastoral paradigm The articles in this handbook recognize that faith spirituality and lived religion within and beyond institutional communities refer to realms of cultures ritual practices and symbolic orders whose boundaries are not clearly defined and whose contents are shifting The International Handbook of Practical Theology offers insightful transcultural conceptions of religion and religious matters gathered from various cultures and traditions of faith The first section presents concepts of religion Chapters have to do with considerations of the conceptualizing of religion in the fields of anthropology community family institution law media and politics among others The second section is dedicated to case studies of religious practices from the perspective of their actors The third section presents major theoretical discourses that explore the globally significant diversity and multiplicity of religion Altogether sixty one authors from different parts of the world encourage a rethinking of religious practice in an expanded transcultural globalized and postcolonial world **Food and Faith** Norman Wirzba,2018-11-29 This book provides a comprehensive theological

framework for assessing the significance of eating Drawing on diverse theological philosophical and anthropological insights it offers fresh ways to evaluate food production and consumption practices as they are being worked out in today s industrial food economy Unlike books that focus primarily on vegetarianism and hunger related concerns this book broadens the scope

of consideration to include the sacramental character of eating the deep significance of hospitality the meaning of death and sacrifice the Eucharist as the place of inspiration and orientation the importance of saying grace and the possibility of eating in heaven Throughout eating is presented as a way of enacting fidelity between persons between people and fellow creatures and between people and Earth Food and Faith demonstrates that eating is of profound economic moral and spiritual significance Revised throughout this edition includes a new introduction and two chapters as well as updated bibliography The additions add significantly to the core idea of creaturely membership and hospitality through discussion of the microbiome revolution in science and the daunting challenge of the Anthropocene Food, Farming and Religion Gretel Van Wieren, 2018-04-24 Although the religious and ethical consideration of food and eating is not a new phenomenon the debate about food and eating today is distinctly different from most of what has preceded it in the history of Western culture Yet the field of environmental ethics especially religious approaches to environmental ethics has been slow to see food and agriculture as topics worthy of analysis This book examines how religious traditions and communities in the United States and beyond are responding to critical environmental ethical issues posed by the global food system In particular it looks at the responses that have developed within Jewish Christian and Islamic traditions and shows how they relate to arguments and approaches in the broader study of food and environmental ethics It considers topics such as land degradation and restoration genetically modified organisms and seed consolidation animal welfare water use access pollution and climate and weaves consideration of human wellbeing and justice throughout In doing so Gretel Van Wieren proposes a model for conceptualizing agricultural and food practices in sacred terms This book will appeal to a wide and interdisciplinary audience including those interested in environment and sustainability food studies ethics and religion **Evangelical Dictionary of Theology** Daniel J. Treier, Walter A. Elwell, 2017-11-07 This bestselling reference tool has been a trusted resource for more than 25 years with over 165 000 copies sold Now thoroughly updated and substantially revised to meet the needs of today's students and classrooms it offers cutting edge overviews of key theological topics Readable and reliable this work features new articles on topics of contemporary relevance to world Christianity and freshened articles on enduring theological subjects providing comprehensive A Z coverage for today's theology students The author base reflects the increasing diversity of evangelical scholars Advisory editors include D Jeffrey Bingham Cheryl Bridges Johns John G Stackhouse Jr Tite Ti nou and Kevin J Vanhoozer
