armónica en la música tonal Robert Gauldin, 2009-09-28. Una obra imprescindible para profesores y estudiantes de música que deseen profundizar en el conocimiento de la armonía. **HISTORIA DEL JAZZ** Francis Alÿs, Ted Gioia, 2003. This unique volume side-steps the performance work for which Francis Alÿs is most often recognized, presenting instead his recent paintings and drawings. Over 30 beautiful encaustic layered canvases illustrate passages from D. H. Lawrence, Plato and other great writers and in a fluid exchange are likewise illuminated by them. Alÿs entered the art field by accident through what he calls a coincidence of geographical, personal and legal matters that resulted in indefinite vacations which through a mixture of boredom, curiosity and vanity led to my present profession. A compulsive wanderer, his personal explorations of the cities in which he finds himself have formed the basis for an eclectic body of work that has involved the varied media of documentary film and photography, video painting and performance, each put to work in a way that reflects specific social and economic conditions in a highly individual style. A close observer and occasional manipulator of the quirks of everyday life, Alÿs responds to fleeting and contingent circumstances from the viewpoint of a passerby who is both involved and separate.
