Fundamentals of Gnostic Education

Samael Aun Weor, 2025-02-01 The fundamental education is the science of the consciousness that allows us to discover our relationship with human beings nature and all things The Greek word gnosis means knowledge The higher meaning of gnosis is knowledge of facts acquired from personal experience Gnosis is genuine knowledge of the truth To understand truth one must experience it The greatest human beings in every field philosophy science art and religion did not imitate memorize or remain limited by popular ideas instead they sought gnosis to know the facts for themselves and in finding the facts they changed the world for the better Unfortunately such people are rare The problems afflicting individuals and society today have a simple root cause we have not yet learned how to think Instead people today are taught to memorize and imitate Schools teachers and parents today emphasize what we should think rather than teaching how to think question and analyze so we can recognize the facts deal with them intelligently and experience the truth for ourselves What is the value of accumulating much knowledge within our minds if we continue to be confused What is the value of technical and industrial skills if we use them for the destruction of our fellows It is worthless to receive instruction to attend classes to study if in the process of our daily living we are miserably destroying one another Indeed the true objective of a fundamental education must be to create true men and women who because of their psychological integration are cognizant and intelligent When our consciousness is liberated from the conditioning and restrictions imposed upon it by imitation bad habits defects vices and mistaken beliefs then we can see and experience the truth for ourselves In this way we no longer need to believe anything or follow anyone but are free to express our fundamental nature and realize our full potential This book guides us towards that experience that gnosis We need the union of superior logic and tremendous love heart and mind balanced by conscious awareness of facts This psychological equilibrium empowers us to alter the painful conditions that we suffer within Therefore we need a gnostic education an education based on personal experience of the truth

The Revolution of the Dialectic Samael Aun Weor,2025-01-01 The daily practice of meditation transforms us radically Samael Aun Weor The world is in crisis and everywhere there are wars and rumors of wars promises and mockeries bombardments and political parties that fight each other It is absurd to suppose that we can depart from this social chaos with all of its fights and miseries if indeed individually we do not resolve ourselves to perform a radical and definitive change The legal or illegal changes of governments the bloody dictatorships the revolutions of blood and alcohol are all useless If we truly want an absolutely radical change then first of all we need to change ourselves individually What we are as individuals is what the world is Indeed the world is the individual because the world is nothing more than the sum of all individuals The problem of the world is the problem of the individual Thus if the individual does not internally change then the world will never change either even when many want to change it based on extremist doctrines bloody revolutions abominable dictatorships etc If we study our intimate problems in detail then we have to arrive at the logical conclusion that no leader can resolve these problems for us What I am is in fact the party the group the family the society the nation The individual is the beginning and the ending of every order of things Thus if we want a radical transformation of this bitter and suffering

world then we need each of us to individually transform ourselves in a true and very intimate way If we truly want to transform ourselves intimately for the good of the world then we need to liberate the mind and heart from any type of evilness The Great Rebellion Samael Aun Weor,2025-02-01 Our world needs real change inner change This book shows how you can make it happen When one discovers the real cause of so much misery and bitterness it becomes obvious that something can be done Samael Aun Weor Do you want a better world and a better life Do you thirst for genuine happiness You can transcend suffering when you know about The underlying cause of the world s pain and problems What consciousness is and how it works How cause and effect create your life The power within us that can cleanse the mind of faults and darkness This book embraces and clarifies the essential wisdom within all the world s religions and spiritual traditions Yet change does not come from belief or theories Real change comes from self knowledge gnosis The Great Rebellion explains how all of the world s problems addiction war pollution starvation crime come from within us By changing ourselves within we change the world around us This is the genuine foundation of every great spiritual tradition in the world By truly becoming better people the world becomes a better place *Magic, Alchemy and the Great Work* Daath Gnosis,Samael Aun Weor,2012-09-18 **A Treatise of Alchemy** Samael Aun Weor,1999 Sexual Alchemy, the Horns of Ammon, and Spiritual Consorts Tony Musso,2015-04-05 This book is part of a journey of inner unfolding Sexual alchemy is a topic of great debate and controversy this title is not for those that are afraid to explore the core of their inner being By nature and design spirituality is very much intertwined with sexuality Begin to explore in great detail the biological processes that are required to make the inward changes necessary to fully benefit from these practices Gain an understanding of the Horns of Ammon better known to medical science as the hippocampus The journey of sexuality is connected with intelligence emotion and the development of an astral body See how this alchemical process has the potentiality for the development of higher faculties as well as a possibility of communication with otherworldly spirits **The Mystery of the Golden Blossom** Samael Aun Weor,2020-09-13 Discover how your greatest creative power is also your greatest spiritual power All of us possess some electrical and magnetic forces within and just like a magnet we exert a force of attraction and repulsion Between lovers that magnetic force is particularly powerful and its action has a far reaching effect Samael Aun Weor In the heart of every religion there are teachings about intimate human relationships a sacred knowledge about the transformative power of sex which states that true spiritual mastery is a result of conquering base desires and transforming them into conscious virtues Harnessing and transforming the most powerful forces within places us on a revolutionary path to spiritual awakening Every birth is a magical act performed through sex Spiritual birth is no exception and is accomplished through a divine form of sexuality The physical union of a man and a woman in essence is a supernatural act a reminiscence of paradise the most beautiful of all the hymns of praise dedicated to the Creator by the creature it is the alpha and the omega of all creation Samael Aun Weor Enter into the sacred mysteries hidden in all major religions Learn to practice the ancient science
