of electrode kinetics The authors came together as a result of graduate work of one of them SUMK on the quantum mechanics and photo aspects of electrode processes and this book was written during a postdoctoral fellowship held by him at the Flinders University Having stated the book's origin it is worthwhile stating the rationalizations the authors had for writing it Historically quantization in electrochemistry began very early 1931 in the applications of the quantum theory to chemistry See the historical table on pages xviii xix There was thereafter a cessation of work on the quantum theory in electrochemistry until a continuum dielectric viewpoint based on Born's equation for solvation energy began to be developed in the 1950s and snowballed during the 1960s *Christian Home Educators' Curriculum Manual* Cathy Duffy,1997-11
