Happiness Across Cultures Helaine Selin, Gareth Davey, 2012-02-28 Different cultures experience happiness differently Traditionally the West is considered materialistic and happiness is said to come from achievement and acquisition The East is said to be more people oriented where happiness is a result of deep personal interactions Thus poor people can be happier in the East than the West because they are not so concerned with possession and more with society This book considers happiness and quality of life in non Western countries and cultures Its coverage is diverse and spans the breadth of the non Western world revealing unique perspectives of happiness and life quality embedded in rich cultural traditions and histories
