that story is how the greater percentage of them grew up in the church but then walked away en masse Today Generation X is the smallest percentage of Main Line and Catholic Church membership while the overwhelming majority of church membership is made up of an aging population of Baby Boomers and Silent Generation folk In ten year s time what will be the state of the church when many of the current membership has passed on to eternal life or are no longer able to do what it is that they re doing today Generation X could well be the answer to much of the solution Generation X is generally at a more comfortable place in their lives and are asking the questions about the meaning of their lives while considering issues of mortality Yet at the same time they re having now to care for parents grandchildren and for many Gen Xers their own children still They re busy and committed but they re also spiritually hungry Having had a relationship at one point in their lives they re not completely foreign to what the church can be but the ball is really in the church s court How the church chooses to respond to Generation X could mean life or church closure It s a conversation that needs to take place and that conversation begins here

Leading Missional Change Paul J. Dunbar, Tony Blair, 2013-04-02 It seems that nearly everyone is talking about missional change for congregations As a result many church leaders are attempting to drive that kind of change for the ministries they lead Some succeed But many others hit a wall of considerable frustration as they find that congregations resist the very change that is so needed The reasons for this resistance are many and they are explored in this volume What is required to move a church from resistance to readiness Some resistance is deeply rooted in spiritual patterns But there are other reasons as well and they center on trust personal trust in the leaders who offer missional change For this work the authors have done extensive primary and secondary research to identify patterns and behaviors that invite missional leadership More than that they've lived this out in their own ministries as pastors of traditional congregations This book thus offers compelling first person stories and congregational case studies alongside more generalized findings Leading Missional Change was written to support pastors and other church leaders who experience resistance to share wisdom and experience that may lead to readiness and to give hope and encouragement toward a re-energizing of your own congregation
