Art Guide Texas Rebecca S. Cohen, 2004-10-01 Texas is an art lover's paradise. More than one hundred venues located within the state welcome visitors to experience the visual arts. These include internationally recognized collections such as the Chinati Foundation, the Kimbell Art Museum, the Menil Collection, and the Nasher Sculpture Center, renowned encyclopedic institutions such as the Museum of Fine Arts, Houston, the Dallas Museum of Art, and the San Antonio Museum of Art, and dozens of first-rate art centers, alternative spaces, and university galleries. In addition to delighting the eye with a wide-ranging assortment of exhibitions, many of these museums and galleries are housed within architectural gems. To enhance the reader's visits to familiar destinations and to encourage the exploration of lesser-known venues, *Art Guide Texas* presents the only in-depth survey devoted exclusively to the state's nonprofit visual arts institutions. Rebecca Cohen organizes the book regionally. Individual entries for museums and galleries give essential contact information, including phone numbers and Web sites, as well as a description of the collection, past exhibitions, a brief history of the institution, significant architectural details about the building, and assorted practical tips. Black and white photographs accompany many of the entries, as well as notable quotes on art and architecture. In addition, Cohen's essays on the phenomenal late twentieth-century growth of the arts in Texas and on arts activity in the different regions of the state provide a helpful context for exploring the arts in Texas.

Francisco Goya Sarah Carr-Gomm, 2011-07-01 Goya is perhaps the most approachable of painters. His art, like his life, is an open book. He concealed nothing from his contemporaries and offered his art to them with the same frankness. The entrance to his world is not barricaded with technical difficulties. He proved that if a man has the capacity to live and multiply his experiences, to fight and work, he can produce great art without classical decorum and traditional respectability. He was born in 1746 in Fuendetodos, a small mountain village of a hundred inhabitants. As a child, he worked in the fields with his two brothers and his sister until his talent for drawing put an end to his misery. At fourteen, supported by a wealthy patron, he went to Saragossa to study with a court painter, and later, when he was nineteen, on to Madrid. Up to his thirty-seventh year, if we leave out of account the tapestry cartoons of unheralded decorative quality and five small pictures, Goya painted nothing of any significance, but once in control of his refractory powers, he produced masterpieces with the speed of Rubens. His court appointment was followed by a decade of incessant activity, years of painting and scandal, with intervals of bad health. Goya's etchings demonstrate a draughtsmanship of the first rank. In paint, like Velázquez, he is more or less dependent on the model, but not in the detached fashion of the expert in still life. If a woman was ugly, he made her a despicable horror; if she was alluring, he dramatised her charm. He preferred to finish his portraits at one sitting and was a tyrant with his models. Like Velázquez, he concentrated on faces, but he drew his heads cunningly and constructed them out of tones of transparent greys. Monstrous forms inhabit his black and white world; these are his most profoundly deliberated productions. His fantastic figures, as he called them, fill us with a sense of ignoble joy, aggravate our

devilish instincts and delight us with the uncharitable ecstasies of destruction His genius attained its highest point in his etchings on the horrors of war When placed beside the work of Goya other pictures of war pale into sentimental studies of cruelty He avoided the scattered action of the battlefield and confined himself to isolated scenes of butchery Nowhere else did he display such mastery of form and movement such dramatic gestures and appalling effects of light and darkness In all directions Goya renewed and innovated National Museum of Fine Arts ,2006 **Francisco Goya** Hugh Stokes,1914

Liminal Minorities Günes Murat Tezcür,2024-04-15 Winner of the Religion and International Relations Book Award of the Religion and International Relations Section of the International Studies Association Winner of the Hubert Morken Award of the Religion and Politics Section of the American Political Science Association *Liminal Minorities* addresses the question of why some religious minorities provoke the ire of majoritarian groups and become targets of organized violence even though

they lack significant power and pose no political threat G ne Murat Tezc r argues that these faith groups are stigmatized across generations as they lack theological recognition and social acceptance from the dominant religious group Religious justifications of violence have a strong mobilization power when directed against liminal minorities which makes these groups particularly vulnerable to mass violence during periods of political change Offering the first comparative historical study of mass atrocities against religious minorities in Muslim societies Tezc r focuses on two case studies the Islamic State s genocidal attacks against the Yezidis in northern Iraq in the 2010s and massacres of Alevis in Turkey in the 1970s and 1990s while also addressing discrimination and violence against followers of the Bah faith in Iran and Ahmadis in Pakistan and Indonesia Analyzing a variety of original sources including interviews with survivors and court documents Tezc r reveals how religious stigmatization and political resentment motivate ordinary people to participate in mass atrocities A Concise Catalogue of the European Paintings in the Metropolitan Museum of Art Josephine L.
