Utopians is a comprehensive guide to utopian communities and their founders. Some works look at literary utopias or political utopias etc and others examine the utopias of only one country. This work examines utopias from antiquity to the present and surveys utopian efforts around the world. Of more than 600 alphabetically arranged entries, roughly half are descriptions of utopian ventures, the other half are biographies of those who were involved. Entries are followed by a list of sources and a general bibliography concludes the volume.

Greed Gone Good Jane Hughes, 2021-09-06 *Greed Gone Good* A Roadmap to Creating Social and Financial Value brings the how-tos of impact finance to a broad-based audience of investors from the individual to the institutional. Written in an engaging jargon-free style and loaded with practical advice, it explores the pitfalls and potential of the burgeoning impact revolution, the increasingly widespread belief that business and financial leaders should weigh social value as well as financial value in all of their decisions to create both a better business model and a better world. Cheerleaders have written a number of books advocating the magic of impact finance. *Greed Gone Good* hopes for the magic too but also believes that an uncritical eye does not effectively advance the cause. We now have 10 years of impact investing history to examine and not all of it is laudable. We could hold hands and sing Kumbaya in praise of impact finance or we could employ constructive criticism to figure out what's gone well and what hasn't and how we should move forward more productively. *Greed Gone Good* focuses on the roadmap: how to reorient and repackage finance and investing in order to deliver on this promise. In particular, it focuses on how to realize the potential of the impact revolution to become a silver bullet against future failures. *Green Gone Good* will have widespread appeal to investors ranging from individuals and family offices to the world's largest asset managers and investors.

Making Peace In and With the World Heon Kim, John Raines, 2011-12-08 *Making Peace In and With the World* The G'len Movement and Eco Justice is a representative study and working analysis of contemporary Islamic thought on eco justice. It cuts through problems facing humanity today, ranging from inequality and violence in the smaller globalized world to the end-death of nature as signaled by various environmental and ecological crises. Addressing these problems, this volume sheds light on two dimensions of peace in the earth community: making peace between differing human communities and making peace between humanity and nature. The phrase Eco Justice in this volume signifies this dual reality, thereby offering a unique and insightful view that justice in the world must go hand in hand with ecological justice if peace is to be made. With its dual foci of peace, this volume contributes to multi-disciplinary academic areas. It adds to a burgeoning field of religious ecology by exploring the dynamics at play in the interaction between religion, human communities, and nature and by providing natural scientific works with considerable theoretical, philosophical, and ethical implications. This volume also corresponds to studies in the interdisciplinary field of war and peace. Since it deals centrally with the question of religion and eco justice, this volume challenges assumptions of exclusivist religion, religion-oriented violence, and the religion-based Clash of Civilizations. The contributors of this volume, from diverse academic backgrounds, take G'len and the G'len movement as the case study. Muhammed Fethullah G'len is one

of the most significant Islamic theologians in the contemporary world and his inspired G len movement is the fastest growing Islamic civic movement worldwide This volume provides a key reference to studies in G len and his movement for new discussions and criticisms And by taking this figure and his movement as a case it reveals a new dimension of peace among differing human communities and between humanity and nature Social Entrepreneurship Chao Guo,Wolfgang Bielefeld,2014-03-17 Social entrepreneurship explained Social entrepreneurship is a hot topic in public and non profit management Organizations everywhere are looking for innovative ways to respond to financial social and regulatory pressures The next generation of transformative leaders will be risk takers who know how to face even the biggest challenges using market driven strategies that get results This book contains everything students and professionals need to know about the cutting edge practice of social entrepreneurship In Social Entrepreneurship you ll learn how to read markets and environments to identify opportunities for entrepreneurial activity Then the authors show to convert opportunities into successful ventures one time initiatives ongoing programs and new mission driven organizations are all covered Sector specific strategies and recommendations guide readers directly to the techniques that will have the biggest impact Employs an evidence based approach to help organizations achieve goals more efficiently Offers advice on taking advantage of new technologies and untapped resources using the most current approaches Written by renowned experts in the field of social entrepreneurship Authors Guo and Bielefeld have been instrumental in advancing the study of social entrepreneurship and they understand the trends and currents in the field They bring readers up to date and ready them to begin implementing changes that really make a difference In non profits and government leadership is already becoming synonymous with social entrepreneurship and this book is its foundation *The Art of Business* Raymond Tzuu-Yau Yeh,Stephanie H. Yeh,2004
