Twilight Of Authority:

Twilight of Authority Robert A. Nisbet, 2000 Nisbet argues that the political community in the West has broken down after two centuries of ascendancy He believes that the West has entered a twilight age that will be characterised by political and cultural crises similar to those that preceded the fall of Rome He foresees the displacement of traditional liberal society by centralised collectivised power what he terms the war society driven by the rising power and expense of a hugely scaled military Nisbet offers no prophecy of inevitable decline rather he means to call attention to the problem of finding the means of generating a social order within which the individual can live and derive a spirit of initiative

The Dilemmas of American Conservatism Kenneth L. Deutsch, Ethan M. Fishman, 2010-08-18 In the second half of the twentieth century American conservatism emerged from the shadow of New Deal liberalism and developed into a movement exerting considerable influence on the formulation and execution of public policy in the United States During that period the political philosophers who provided the intellectual foundations for the American conservative movement were John H Hallowell Eric Voegelin Leo Strauss Richard Weaver Russell Kirk Robert Nisbet John Courtney Murray Friedrich Hayek and Willmoore Kendall By offering a comprehensive analysis of their thoughts and beliefs *The Dilemmas of American Conservatism* both illuminates the American conservative imagination and reveals its most serious contradictions The contributing authors question whether a core set of conservative principles can be determined based on the frequently diverging perspectives of these key philosophers

Ain't My America Bill Kauffman, 2008-04-15 From the finest literary stylist of the American right a surprising and spirited account of how true conservatives have always been antiwar and anti empire Allan Carlson author of *The American Way* Conservatives love war empire and the military industrial complex They abhor peace the sole and rightful property of liberals Right Wrong As Bill Kauffman makes clear true conservatives have always resisted the imperial and military impulse it drains the treasury curtails domestic liberties breaks down families and vulgarizes culture From the Federalists who opposed the War of 1812 to the striving of Robert Taft known as Mr Republican to keep the United States out of Korea to the latter day libertarian critics of the Iraq war there has historically been nothing freakish cowardly or even unusual about antiwar activists on the political right And while these critics of U S military crusades have been vilified by the party of George W Bush their conservative vision of a peaceful decentralized and noninterventionist America gives us a glimpse of the country we could have had and might yet attain Passionate and witty *Ain't My America* is an eye opening exploration of the forgotten history of right wing peace movements and a clarion manifesto for antiwar conservatives of today

speaks authoritatively *Authority and Democracy* April Carter, 2013-04-15 This book debates the nature and functions of authority it examines how far our inherited images of authority derive from an aristocratic and traditional order and considers which models of authority are still relevant in a democratic and rationalist society It discusses the characteristics of the authority relationship whether political authority differs from other kinds of authority how authority relates to power and whether authority should be distinguished from the concept of legitimate rule The latter part of the book explores the relevance or irrelevance of authority in contemporary society In particular it examines recent libertarian arguments for the rejection of all forms of authority and the special problems of creating and maintaining authority after revolution

The Twilight of Cutting Saida Hodzic, 2017 The last three decades have witnessed a proliferation of nongovernmental organizations engaging in new campaigns to end the practice of female genital

cutting across Africa These campaigns have in turn spurred new institutions discourses and political projects bringing about unexpected social transformations both intended and unintended Consequently cutting is waning across the continent At the same time these endings are misrecognized and disavowed by public and scholarly discourses across the political spectrum What does it mean to say that while cutting is ending the Western discourse surrounding it is on the rise And what kind of a feminist anthropology is needed in such a moment The Twilight of Cutting examines these and other questions from the vantage point of Ghanaian feminist and reproductive health NGOs that have organized campaigns against cutting for over thirty years The book looks at these NGOs not as solutions but as sites of problematization The purpose of understanding these Ghanaian campaigns their transnational and regional encounters and the forms of governmentality they produce is not to charge them with providing answers to the question how do we end cutting Instead it is to account for their work their historicity the life worlds and subjectivities they engender and the modes of reflection imminent critique and opposition they set in motion

We Answer to Another David T. Koyzis, 2014-03-13 The quest to escape authority has been a persistent feature of the modern world animating liberals and Marxists Westerners and non Westerners alike Yet what if it turns out that authority is intrinsic to humanity What if authority is characteristic of everything we are and do as those created in God's image even when we claim to be free of it What if kings and commoners teachers and students employers and employees all possess authority This book argues that authority cannot be identified with mere power is not to be played off against freedom and is not a mere social construction Rather it is resident in an office given us by God himself at creation This central office is in turn dispersed into a variety of offices relevant to our different life activities in a wide array of communal settings Far from being a conservative bromide the call to respect authority is foundational to respect for humanity itself

The Authority of the International Committee of the Red Cross Linus Jannek Mührel, 2024-02-12 This book

conducts the first ever comprehensive study of the ICRC's interpretations and law ascertains their impact on the development of international humanitarian law and international law in general as well as the reasons for their impact. This analysis involves the discussion of the ICRC's authority: Is it legal or just factual authority? The analysis also illuminates the direction that IHL and international law in general develop. This insight sheds light on the question of the current type of international law, i.e. what international law is and who makes it. Law, Norms and Authority George C. Christie, 1982. To what extent can legal decisions be objective and fair and how far does government depend on the law for its legitimacy? This concise analytical book examines the theory of both individual and political justice concluding that many modern legal philosophers have undermined the prestige of the law by exaggerated claims in its defence. This is a basic book in jurisprudence. Jacket The Newspaper and Authority Lucy Maynard Salmon, 1923. *Twilight's Last Gleaming* Dr. Robert Jeffress, 2012-01-01. Never in recent history have Christians been more discouraged and fearful about our country's future. Economic chaos, immorality, terrorism and global turmoil have convinced many that we are living in the twilight days of America. Dr. Robert Jeffress agrees. But it is not the end of the story, he writes in *Twilight's Last Gleaming*. Although we cannot prevent America's eventual demise, we can delay it and make a difference for eternity at the same time. For everyone who wonders what can be done right now within our culture, our churches, in the voting booth and our neighborhoods, Jeffress answers with biblical insight and real-world clarity, showing Christians how to seize this unprecedented opportunity and point people to our only Hope. *Hybridity in Peacebuilding and Development* Lia Kent, Miranda Forsyth, Sinclair Dinnen, Joanne Wallis, Srinjoy Bose, 2020-06-29. The concept of hybridity highlights complex processes of interaction and transformation between different institutional and social forms and normative systems. It has been used in numerous ways to generate important analytical and methodological insights into peacebuilding and development. Its most recent application in the social sciences has also attracted powerful critiques that have highlighted its limitations and challenged its continuing usage. This book examines whether the value of hybridity as a concept can continue to be harnessed and how its shortcomings might be mitigated or overcome. It does so in an interdisciplinary way as hybridity has been used as a benchmark across multiple disciplines and areas of practical engagement over the past decade, including peacebuilding, state building, justice reform, security development, studies, anthropology and economics. This book encourages a dialogue about the uses and critiques of hybridity from a variety of perspectives and vantage points, including deeply ethnographic works, high-level theory and applied policy work. The authors conclude that there is continued value in the concept of hybridity but argue that this value can only be realised if the concept is engaged with in a reflexive and critical way. This book was originally published as a special issue of the online journal *Third World Thematics*.
